British Seek Smog Solution While Manchester Suffers

LONDON (AP)—The "cheerful open fire" which Britons worship is warring both the nation's housewives and its choicest orchids, the National Smoke Abatement Society reports. The society says, for instance, that the smoking chimneys of Manchester make housewives toil an hour longer over their tubs on every wash day than do the wives at nearby Harrogate, the spa of northern England.

One of last winter's smogs made all the orchids and orchid buds in famed Kew Gardens drop off in twenty four hours. The society, long time campaigner for a smoke abatement plan like that used in St. Louis, Mo., estimated smoke and smog damage to Britain costs at least \$400,000,000 a year.

Singapore Censor Has Soft Spot For Don Duck n' Pals

SINGAPORE — (AP) — Donald Duck and his associates are about the only actors immune from Malaya's film censor. That's because the censor, Jack Evans, has a soft spot for them.

They're lucky, for under state of emergency regulations the censor is cracking down on moviedom. He has orders to weed out blood-thriller and horror stories which might inspire trigger-happy terrorist elements to greater activity. Singapore's movie audiences favour comic serial dramas. They sit through 25 to 31 reels at a time without squirming.
