Cabbage Salad

For a delicious dressing for cabbage salad, slowly add a quarter cup of honey to two-thirds of a cup of vinegar and stir well. Pour in gradually a cup of thin cream and stir until mixture thickens. Season salad with salt and pepper.

Soiled or dirty eggs generally spoil quicker than those perfectly clean.

Three Types

Not all housewives realize that there are only three basic kinds of tea—black, green and oolong. Each of these three comes from the same kind of bush but they are processed differently, and it's this processing that makes the difference between them.

WINTER FORECAST: Perfect Comfort

Much of the comfort and convenience we enjoy in home heating today was developed by the oil industry. No wonder so many Americans prefer to heat their homes with fuel oil. And this winter more Americans will be heating with oil than ever before.

If you heat with fuel oil, you're just as much interested in service as in the quality of the products you receive. That's why we're glad we can say we stand ready to supply you not only with the best products but also with the most dependable service you have ever known. The tough competition we are up against in the marketing of fuel is your constant guarantee of that.

This community is serviced by many different fuel oil dealers. To win and hold your business, we've got to do a stand-out job for you—no matter what the weather, no matter where you live. For if we don't know you'll take your trade elsewhere—just as you should.

We'd welcome the chance to serve you this winter. Using the proven system of "degree days" we keep your storage tank filled automatically. One telephone call to us today will insure perfect heating comfort for you and your family all winter long.

SOUTHEASTERN NORTH CAROLINA'S FIRST JUNIOR DAIRY CATTLE SHOW WAS A BIG SUCCESS

It was splendid showing of area effort and area farming. This is just the first of such shows... we hope it is the leader for more and more progressive meetings between farm and civic groups.

We'd like to say "Good Work" to all who took part:

Tide Water is proud of this "budding industry." We know that "green pastures" and the growth of the dair industry will mean increased income and a more abundant life in our farm lands. We also have a feeling of personal pride in Neil Bolton, our agricultural agent who has gone all out to work with the county and state agricultural agents in promoting pastures and dairying.

Southeastern North Carolina will grow with its agriculture.
