Inventor Says Thief Needs Two Years to Open Lock Florence, Italy.—(AP)—A burglar would need up to two years to open his new type lock, says Dr. Mario Materozzi. That's if he has the key. Because this lock requires both a key and a combination. There is almost no mathematical limit to the number of combinations possible, depending upon the number of notches on the key and tumbler in the lock. It is believed that gunpowders made by the ancient Chinese were incendiary but not explosive and that true gunpowder was invented by Roger Bacon about 1248 A. D.
