## Sheriff Forbids Necking in Jail

Charleston, W. Va. (AP)—Torril necking on visitors' days at the Kanawha County jail has been forbidden by Sheriff Pat McGovern.

A warm embrace by a couple—shocking to observers—led the sheriff to issue this order to his chief jailer:

"You will immediately instruct all visitors under your supervision that demonstrations of affection, other than a kiss of greeting and a kiss goodbye, are out of line in the lobby. If any prisoner has visitors and they proceed to such demonstrations of affection (necking), the visitor will be immediately ordered to leave the lobby and the prisoner will be immediately returned to his cell."

## Ripped Bag Costs Man Two Bags of Groceries

Suffolk, Va. (AP)—When Willie White's grocery bag ripped, he wasn't left holding anything.

White told police he left a grocery store with two bags of groceries when one of them started to rip. He set the bags down and went back into the store for a new bag.

When he returned the groceries were gone—ripped bag and all.

Player Omitted  
Sally Morris of the Morehead City Eagles received two votes for All-County honors from county coaches. This was enough to place him at the top of the honorable mention list from which his name was accidentally dropped.

## Seadogs Move into Quarter-Finals Of District Basketball Tournament

The Beaufort Seadogs moved into the quarter-finals of the district basketball tournament with a 55-41 victory over Burgaw Saturday night at Kenansville. The Seadogs will meet Mt. Olive at 8:30 p.m. Thursday.

Butch Hassell was the key man in the Seadog victory. The classy Beaufort guard sank 18 points and was credited with several assists. Pud Hassell was second high in the scoring column with 12 points.

The Seadogs were in the driver's seat all the way. They took more shots from the floor and hit for a better percentage than the losers. Beaufort players shot 60

times from the floor and hit on 26 shots for 43 per cent accuracy. Burgaw's foul shooting kept that team in the game. Eleven free throws accounted for more than a fourth of their points. Burgaw players shot 50 times from the floor and hit on 15 for 30 per cent accuracy.

Beaufort took a 14-11 advantage after the first eight minutes of play. A second-quarter rally by Burgaw cut the Seadog lead to one point, 24-23, at the half.

In the third quarter the Seadogs held Burgaw to 6 points while scoring 14 to go ahead by nine points and put the game on ice. The fourth quarter saw the Sea-

dogs stretch their lead to 14 points as they hit for 17 points and held Burgaw to 12.

Raymond Gilikin, Alex Copeland and Danny Willis scored seven points each for the Seadogs. Frank Potter added four points to the total. Allen Autry was the only Seadog player who got into the game and did not break into the scoring column.

Beaufort, with Pud Hassell and Copeland under the baskets, controlled both backboards during the contest. Willis, Butch Hassell and Gilikin picked off most of the rebounds that went beyond the reach of their teammates under the baskets.

## Register of Deeds Records 31 Real Estate Transfers

(Editor's Note: In recording real estate transfers, the law does not require that the amount paid for the property be stated in the deed. A token amount, such as \$10 or \$100, may be stipulated.

Attached to each deed, however, must be United States documentary stamps, the value of the stamps based on the price paid for the property.

Property which changes hands for less than \$101 requires no stamp, according to Irvin W. Davis, register of deeds. Property which brings a price between \$101 and \$500 must bear a stamp valued at 55 cents. From \$501 to \$1,000, the stamps affixed to the deed total \$1.10, and thereafter for each additional \$500 paid for the property the stamp value goes up 55 cents.

From the value of the stamps placed on a deed an estimation of the price paid for the property can be determined. In the transfers listed below, the seller is listed first, the buyer second, and finally, the value of the stamp affixed to the deed.

Dear Sir: You could learn many things if you lowered yourself by working in a gasoline service station a few days.

I acknowledge that there are some very poor gas pump jockeys but there are also a great many good operators with good employees and I venture to say that there may be a few faulty newspaper editors.

Yours truly,  
A. Gasoline Service Station Operator

## D. L. Williams Now Cleared For Ports Job

D. Leon Williams, Savannah, Ga., will be the next executive director of the state ports. He will step into his new position March 15 and will attend a meeting of the State Ports Authority Monday, March 17, at Morehead City.

Mr. Williams is the third man to hold the directorship since the state took over operation of Wilmington and Morehead City ports. The first was Col. G. W. Gillette, followed by Col. Richard S. Marr. Mr. Williams breaks what appeared to be the beginning of a train of retired Army colonels in the ports director job.

The full State Ports Authority approved Mr. Williams' hiring Friday. When his appointment was first announced, a Raleigh newspaper revealed that Georgia ports, under Mr. Williams' supervision, were being investigated by a Georgia Senate committee.

This made the North Carolina SPA withhold "final approval" of the new appointee until a further check was made.

The Georgia committee has since issued a report which states that Williams "executed his duties in an efficient and intelligent manner."

North Carolina will pay the new ports director \$18,000 a year.

## Chamber Office Is Lively Place

Miami, Fla. (AP)—Bothered by Monday blues?

You ought to work for Verne Barnes, secretary-manager of the Hialeah-Miami Springs Chamber of Commerce.

He says he hates to go to work on Mondays himself so he tries "to take the curse off for the people who work with me." For two years now he's been giving his employees what he calls the "Monday surprise"—a little gift for each worker.

Sometimes the presents are outright foolishness—like using window shades, frayed rope and so on. At other times, they consist of home-made fudge, passes to various attractions or invitations to dinner.

"We never know what's coming next," says his employees.

## Band Raises Money By Selling Peanuts

Belleville, Pa. (AP)—Most of the money for the support of the Belleville High School band comes from peanuts.

Each fall, members of the band canvass the school district selling peanuts. The proceeds go toward general band expenses. Band director Bruce I. Garner says it is practically the only means the band has for raising money.

## Cherry Pointers Fight Major Blaze Near Base

By S/SGT. A. W. STEELE

Cherry Point—The first major forest fire of the year in this area was squelched recently when the base crash crew, military police detachment and heavy equipment operators were pressed into service by Cherry Point Fire Chief Mike Jowdy to assist the U. S. Forestry Service in combating an uncontrolled blaze five miles southeast of the air station.

The fire, thought to be under control until about noon Tuesday, Feb. 18, crossed a creek between Camp Bryan property, where it had been set to burn off grassland and the base mess hall, a private game area.

The consuming flames burned across nearly four thousand acres of land between Long Lake and Little Lake before it was brought under control.

The fire burned almost to the doorsteps of the Camp Brinson area before back fires could be set and fire breaks cut to turn the blaze. Twenty six members of the MP detachment manned water and tank-trucks and fire extinguishers around the camp to hold back the blaze until the forestry service could bring into play its caterpillar plows to cut breaks around the camp.

Members of the Camp Brinson hunting club arrived on the scene to help in the fight. One member pointed out a hidden cache of dynamite that had to be unearthed before dangerous flames reached the area. This task was undertaken by S/Sgt. T. R. Walling, NCO in charge of the firefighting detail. The dynamite had been buried underground a few yards away from the cabins and sheds.

The fire was brought under control about 5 p.m. in the vicinity of the camp and all personnel were accounted for during a muster before leaving the charred and burnt area.

The only casualty suffered during the afternoon firefight was a punctured radiator of a pickup truck. The quick thinking of Cpl. B. R. Trantham of the MP detachment soon had the vehicle in operating condition. A piece of soap found near the cabins was used as a make-shift radiator plug and rendered the truck usable.

Chief Jowdy praised the work of the volunteer firefighters, many of which were in the off-duty MP section and had begun to check out on liberty in civvies; but in record time they were changed into their dungarees and ready as firefighters.

Chief Jowdy warned that with the coming spring winds, grass burning gets increasingly dangerous. He also cautioned that local laws forbid open fires and burning off of property without first obtaining a permit. The only exception to this rule is burning between the hours of midnight and four o'clock in the morning.
