The House of the Week

Space Age Playroom Crowns Home State Dredging

The penthouse playroom that features this House of the Week should have special interest for space age youngsters.

Occupying the whole of the home's upper level, it features an honest-to-goodness observatory for junior astronomers, as well as a doll house, a puppet theater and a pair of built-in bunks.

And when the children outgrow you can convert it readily into a family recreation area.

All this is just the frosting on the cake of a solidly-planned seven room house, which we have num-bered HW-97, from the drawing board of architect Samuel Paul.

It incorporates unusual effects

Its long, covered flagstone porc offers weather protection and adds emphasis to the entrance. The large window areas and the long, horizontal lines of the house are in contemporary styling

A deft touch is the high pitch of the roof over the protruding attic in contrast to the lower pitch roof over the main portion

There are large roof overhangs above the entrance porch, the din-ing and lounging porch. A combi-nation of brick, siding and glass is used for exterior materials.

The dwelling's seven rooms and

two baths include a laundry, garage, storage area and a master bedroom with dressing room and wardrobe. An optional bath and dormer may be added to the play-

Located over the bedroom wing the playroom floor is sound insulated with cork and rock wool. Ar chitect Paul says this about the

This room is designed to be informal, where children can par-ticipate in play activities unin-hibited and completely free. A place where cleaning up the toys is not a must. The train tracks

have their place on the floor.
"By means of a plastic, domeo skylight and a telescope, the stars can be viewed as well, perhaps, as earth satellites. Double bunks are provided for sleeping, if de-

"A folding partition around the stair can completely close off this floor from the lower area—and

floor from the lower area—and the main living activities take place all on one floor."

The large foyer, nearly square in shape, leads to all parts of the house. Standing in the foyer, it is possible to look up through the decorative open stairs to the skylighted observatory on the playroom level. room level.

Directly ahead of the foyer is large living room ending in a glass wall through which the garden may be viewed.

The fireplace is of rough brick, contrasting with the smooth plaster of walls.

A built in buffet is

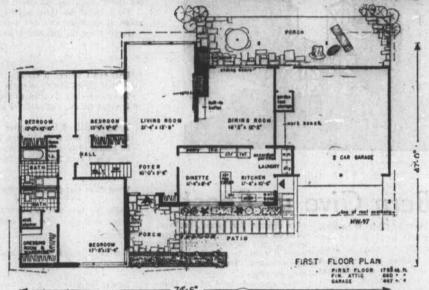

A built-in buffet is a feature of the dining room—and two large aluminum sliding doors open from the dining room onto the rear

The kitchen has modern equipment—built-in oven, built-in range, sink, dishwasher, counter space and cabinets. The laundry is in an alcove off the kitchen.

The master bedroom has a dress-ng room, wardrobe and two

Large roof overhangs are a dominant feature of this contemporary home. An unusual children's playroom is on an upper level above the bedroom wing at the left in this exterior rendering.

The foyer is somewhat square in shape and leads to all parts of the house. All service facilities are

Hearing Date Set On Boat Safety

boating safety of small pleasure craft owners will start today at

the House merchant marine and fisheries committee.

The bill would require the num pering of all motor powered boats for a fee, with penalties for noncompliance, and set up machinery whereby the states and federal gov-ernment may enter into coopera-tive agreements to insure the greatest possible uniformity of oating laws and enforcement pro-

It is a modified version of a bill introduced by Bonner last year. The chairman expressed optimism over prospects of House passage of the measure during this session

of Congress.
At the last session of the North Carolina legislature a study of motorboating was authorized with a view to setting up regulations which would make motorboating safer in North Carolina waters.

March 12 - The Rev. Clayton Guthrie Jr. is now holding a two weeks' revival at the Pentecostal Holiness Church at Thunder. The paster of the Island church is now Washington, D. C.
The hearings will be conducted by Herbert C. Bonner, chairman of

Petitions Ask

Petitions are being circulated in this county by the All Seahsore Highway Association. They request the state to dredge a 1,200-foot channel from deep water to the ferry slip on Cedar Island.

If this channel were dredged, the way would be clear for a car ferry to operate between Ocracoke and Carteret County this summer. No dredging is needed at the Ocracoke berthing point, according to J. A. DuBois, secretary of the highway association.

It is estimated that cost of

It is estimated that cost of dredging the Cedar Island channel would be between \$20,000 and \$25,-

R. S. Wahab, Ocracoke, former president of the All Seashore High-way Association, has been circu-lating the petitions along the coast. The petition was aproved by Dare County commissioners at their meeting this month.

Phone Numbers To be Changed

Telephone subscribers served by the Beaufort and Morehead City exchange are going to get new 2-5 telephone numbers later this

year.

This was disclosed today by L.
A. Daniels, manager for the Carolina Telephone and Telegraph Co.
The 2-5 numbering system consists of two letters and five numerals and conforms to the uniform nationwide numbering system adopted by the telephone industry.
To accomplish this change the name PArk 8 has been assigned to the Beaufort exchange and PArk 6 has been assigned to the More-

6 has been assigned to the Morehead City exchange.

After the change, which is ten-tatively planned for August of this year, telephone numbers in Beau-fort will be PAB-XXXX and PA6-XXXX in Morehead City. Some years hence, telephone sub-scribers will be able to dial their

own long distance calls without operator assistance which is the ultimate plan behind the proposed number change, Mr. Daniels said. Marshallberg numbers have al-

ready been changed to the PA
