W. D. Heaths Honored At Easter Open House

The children of Mr. and Mrs. Walter D. Heath of Newport held an open house for them Easter Sunday afternoon, in honor of their approaching 41st wedding anniversary, April 25.

In spite of the rainy weather, approximately eighty friends called during the afternoon. The guests were greeted by Mr. and Mrs. Harold Chartley in the hall, where there was an arrangement of small palms and narcissus around a piece of driftwood.

Mr. and Mrs. Heath greeted friends in the living room, where more spring flowers were attractively arranged. Mrs. Raymond Heath and Mrs. W. D. Heath Jr. presided in the dining room and served pink punch, decorated block cake, pink and white mints and nuts.

The table was covered with a white lace cloth over pink. Ivy entwined with pink blossoms encircled the punch bowl and trailed across the table to a pink and white bird cage holding white birds. Pink candles in crystal holders completed the picture.

Pupils to Make Education Survey

A selected group of Morehead City High School juniors and seniors will visit various business establishments in Morehead City soon to make a survey of occupational opportunities and business needs in the community.

This survey is being made in conjunction with the proposed plan of the State Board of Education to locate a number of Industrial Education Centers throughout the state, according to Lenwood Lee, principal. "The information gained by this survey will, it is hoped, enable our school to better meet the needs of our students and the community from the standpoint of preparing them to take their places efficiently and effectively in the local economy," Mr. Lee commented.

Students have been carefully selected to make this survey, which will necessitate an interview with the person in charge of the various firms. It is felt that the students will gain valuable experience in the process. All of the student interviewers will be members of the Beta Club, a national scholastic honor society.

Persons in charge of the various firms are urged to cooperate in furnishing the requested information which could lead to an enriched program in our schools, Mr. Lee said. The information obtained will be treated confidentially.
