

Submarine Gadgets Baffle Mayor

Photos by Bob Seymour

"Who knows what knobs to turn," asks mayor George Dill who declared he had never seen so many gadgets in such a small place in his life. Lt. Cdr. Willett White, skipper of the submarine USS Argonaut, laughed and said there was room for everything but a mistake.

Sub's Skipper Writes Mayor

Mayor George Dill this week received a letter from Lt. Cdr. W. E. White, commanding officer of the Argonaut, submarine which visited Morehead City last weekend for Armed Forces Day.

The letter follows:
U.S.S. Argonaut (SS-475)
Fleet Post Office
New York, New York

18 May 1958

Mayor George W. Dill, Jr.
Morehead City
North Carolina

Dear Mayor Dill,

I wish to thank you for the most friendly greeting we received upon arriving at Morehead City. The key is a gift I will always cherish. The city and all the people were very good to the crew of the Argonaut and all hands thoroughly enjoyed themselves.

Should you ever be at a port where the SS-475 is located, feel free to come aboard and make yourself at home; even without a key. My best wishes to you, your

family and to all the people of Morehead City from the Argonaut. Sincerely,
W. E. White

The submarine made a big hit. Many people who wanted to go through had to be turned away when visiting hours closed Sunday.

Morehead City authorities had requested a visit from a submarine for several years, Mayor Dill remarked, and finally it arrived!

Surplus Solution
Firth, Idaho (AP)—If everyone in the United States ate an adequate breakfast, there would be no food surplus, says Mrs. Stanley Dye of the Bonneville County Farm Bureau.

B. J. May, ASC, Releases County Figures for Soil Bank

B. J. May, county ASC office manager, has released a final report on the county's soil bank acreage reserve program. A total of 473.86 acres will be removed from production of allotment crops (tobacco, wheat and cotton) in the county this year.

Tobacco farmers put the most acreage into the soil bank. They took 404.76 acres from production. Their payments from the soil bank will total \$101,841.98. That will leave 938.79 acres of tobacco in the county.

Cotton farmers will receive \$3,708.60 for leaving 53.8 acres out of cotton production. There will be 18.4 acres of cotton in production in the county.

Only three wheat farmers placed any acreage in the soil bank. They put in 3.7 acres and will receive 89.28 in payments from the government.

Mr. May pointed out that wheat farmers can put only their allotments in the soil bank while they can plant up to 15 acres without penalty. "Most farmers had rather plant 15 acres of wheat than get paid for leaving two or three acres out of production," he stated.

The state report, given by ASC official E. W. Avent, shows that a total of 434,100 acres will be removed from production of allot-

ment crops in North Carolina this year. The total acreage under the program for 1958 is made up of 195,990 acres of cotton, 115,700 acres of corn, 85,200 acres of wheat, and 37,300 acres of tobacco.

Mr. Avent called attention to the fact that one of the primary objectives of this Soil Bank Program is to assist farmers in reducing their production of surplus basic commodities.

Using average per-acre production that prevailed in this State last year, he estimated that our surplus stockpiles will be reduced by the following amounts through this Soil Bank participation: tobacco, 55.7 million pounds; cotton, 127,300 bales; corn, 3.7 million bushels; and wheat, 1.6 million bushels.

Should Help
Sudbury, Ont. (AP)—A teacher here has his own idea of helping a pupil to mend his ways. The pupil is required to take a "memory improvement course," which means he has to write a 300-word essay on "improving the memory."
