Chicago (AP)—The largest YMCA in the world, in Chicago, notes on its 100th birthday that it is thoroughly infiltrated by women. Founded to improve the "spiritual, intellectual and social conditions of young men," the Young Men's Christian Association of Metropolitan Chicago has 22,000 women members among its total of 119,000. During the Civil War, with so many members in the Army, the association sought to strengthen itself by admitting women as auxiliary members.

used their own tools to build both structures.

The Franklin Memorial Church, Morehead City, gave the new church 29 pews, enough to fill the auditorium. Several persons contributed money to buy song books and other furnishings for the church.

The Rev. James Howard of Newport came to the church as a full-time pastor the first Sunday of June last year. Other officers of the church are John Ebron, treasurer, and Miss Brenda Smith, clerk.

Deacons are Mr. Eborn, Edward Buck, Warren Ellis, Mr. Bennett and Martin Smith. The trustees for property are Mr. Ellis, Mr. Buck and Willie Howland. There are 56 members on the church roll.

While the exterior of the building has not been completed, the interior is well on the way to completion. The members of the church are convinced that the condition of a man's heart determines his relationship to his Creator rather than the condition of the church building he uses.

They don't use this as an excuse to quit working on their church building, however. "We want this building to be a monument to the people who have been so gracious in contributing their time and money to build it," the members say.

Register of Deeds Records 47 Real Estate Transfers

(Editor's Note: In recording real estate transfers, the law does not require that the amount paid for the property be stated in the deed. A token amount, such as \$10 or \$100, may be stipulated. Attached to each deed, however, must be United States documentary stamps, the value of the stamps based on the price paid for the property. Property which changes hands for less than \$101 requires no stamp, according to Irvin W. Davis, register of deeds. Property which brings a price between \$101 and \$500 must bear a stamp valued at 55 cents. From \$501 to \$1,000, the stamps affixed to the deed total \$1.10, and thereafter for each additional \$500 paid for the property the stamp value goes up 55 cents. From the value of the stamps placed on a deed an estimation of the price paid for the property can be determined. In the transfers listed below, the seller is listed first, the buyer second, and finally, the value of the stamp affixed to the deed.)
