

126 Students Enroll in Driver Education School

H. L. Joslyn, superintendent of county schools, has announced that driver education classes are being organized and will start in the county next Monday. Funds are not available for all boys and girls desiring to take this course, so it has been limited to those 15 years of age. A total of 126 have been selected for the summer course.

Each driver must have 36 hours of classroom work and 18 hours of driving experience, 6 hours of which must be behind the wheel. No high school credit will be given. For boys who satisfactorily pass the work, there is a special concession in liability insurance on the car they hope to drive.

S. M. Daniels, principal of the Smyrna School, will work with prospective drivers from Atlantic and Smyrna.

John Duncan, teacher in the Camp Glenn School, will work with the Morehead City prospects and those of Newport whom he can work in.

The teacher for the Beaufort area has not been selected, pending the completion of training courses for instruction.

The board of education appreciates the cooperation given by the Paul Motor Co., the Sound Chevrolet Co., and the Parker Motor Co., who are each furnishing a car to be used for behind the wheel training.

"Through this program, we hope to establish safe drivers from our high schools and thus reduce traffic accidents in the county and the highways of our state and nation," Mr. Joslyn said.

"Our thanks go also to Carlton Fleetwood, associate in Safety Education, State Department of Public Instruction, for his aid in setting up the courses and in scheduling the work for the various instructors," the superintendent concluded.
