

**Dealer Lends New Car**

Halsey Paul, owner of Paul Motor Co., Beaufort, presents the keys of a new Plymouth to H. L. Jostyn, county school superintendent. Looking on is John Duncan, who will teach in the county driver training school, using the car.

**State President Tells of Cancer Research Funds**

Wilmington — In an interview here today, Dr. Donald B. Koonce, president of the North Carolina Division of the American Cancer Society, reported, "The American Cancer Society initiated the first scientific and organized approach to cancer research. In 1945, only a total of \$1,000,000 was available for research, but by working hand in hand with the Public Health Service, almost \$100,000,000 is being poured into this attack yearly now."

The voluntary legislative efforts of the American Cancer Society have helped to promote this increase in funds and the generosity of the American Public through the society's annual crusade has aided substantially.

"Sixty million dollars has been spent in cancer research by the American Cancer Society since 1945. Eleven million dollars was spent by them last year. The federal government allocated \$56,402,000 for cancer research this year, while \$338,400 was allocated by the Damon Runyon Fund Dec. 1, 1957 through April 25, 1958, and \$981,371 was allocated the previous year," Dr. Koonce declared.

In North Carolina, \$364,000 has been raised for cancer research by Tar Heels through four annual Cancer Crusades since 1954, while \$506,001 has been returned to the North Carolina Medical Schools by the American Cancer Society for four years since 1955 for cancer research. \$1,036,844 has been awarded to North Carolina Medical Institutions by the National Cancer Institute for two years, 1957 (\$702,860) and 1958 (\$333,984). In commending the volunteer Crusaders who are now winding up the Annual Crusade of the American Cancer Society, Dr. Koonce said, "This dedicated group is determined to conquer cancer and go out of business."

The Passion Play at Oberamergau is given once every 10 years.

**Travel Council Meets at Morehead Biltmore**

Mrs. H. T. Willis, registrar, and Capt. Tony Seamon, right, welcome Marley Melvin, left, and C. J. Edwards to the North Carolina Travel Council meeting at the Morehead Biltmore Hotel Friday. Mr. Melvin is executive vice-president of the NC Association of Quality Restaurants. Mr. Edwards is president of the association. Capt. Tony, Morehead City restaurateur, is a past president.

**New Pastor**

The Rev. Alec Thompson, formerly of New Bern, has begun his pastorate at the First Baptist Church, Beaufort. He succeeds the Rev. W. T. Roberson.

**Auxiliary to Meet**

The Woman's Auxiliary of the First Free Will Baptist Church, Morehead City, will meet at 7:30 tonight at the church. Each circle member is invited.

**Drunk Driving Case Heard**

Less than an hour after criminal court began yesterday morning, Judge William J. Bundy was hearing evidence in the first case—the state vs. Bernard A. DeGuire, charged with driving drunk.

Court began at 10 a.m. and by 10:35 the grand jury had been called, sworn in, instructed and sent to the jury room. The judge gave instructions for finding true bills and returning indictments. He did not tell the jury to inspect schools or other county buildings.

Otto Slaughter was named foreman of the jury. Other members are Jefferson W. Faircloth, Ross A. Willis, Leslie G. Fulcher, Susan Bridgman, Emma Simpson, Karl L. Stiles, Bary Bell Eubanks, Mrs. A. N. Bell, Herbert Kelly, Norman T. Wade, Clarence Styron, E. P. Oglesby Jr., Warren Beck, Aaron T. Bowen, James W. Salter, Steve Beacham and Arnold E. Gray.

**Trash Burns**  
Morehead City firemen put out a trash fire behind El Nelson's store at 3:30 p.m. Sunday. There was no damage to the store.

**With the Armed Forces**

**Ivey M. Gaskill Finishes Training at Cape May**

Cape May, N. J. — Ivey M. Gaskill, seaman apprentice, son of Mr. and Mrs. Ivey M. Gaskill, Harkers Island, has completed 13 weeks of basic training at the Coast Guard Receiving Center, Cape May, N. J. Gaskill entered the Coast Guard six-month reserve program last February.

Seaman apprentice Gaskill will report for advanced seamanship training aboard the Coast Guard Cutter Unimak and at the Coast Guard Training Station, Groton, Conn. After completing his six months' active duty, he will return to his home reserve training unit.

Before entering the Coast Guard, Gaskill attended Smyrna High School, Smyrna, N. C.

Ivey M. Gaskill, Harkers Island

Fort Jackson — Pvt. Perry M. Taylor III son of Mr. and Mrs. Perry M. Taylor, 1706 Shackelford St., Morehead City has been assigned to Co. C, 8th BN, 2nd Trgn. Regt. at Fort Jackson for his basic infantry training.

During his basic training he will be taught to fire the M-1 rifle. Also included in his training will be instruction in such subjects as military courtesy, first aid and personal hygiene.

Upon completion of his basic training, he will receive further advanced infantry training or will be assigned to an Army school. Fort Jackson offers schooling in several specialties associated with an Army division.

**Cub Scouting School Opens Tonight, Beaufort**

The Eastern Carolina Council, Boy Scouts of America, will conduct a training school for the parents of Cub Scouts and prospective Cub Scouts at the Ann Street Methodist Church's educational building tonight and tomorrow night, June 10 and 11, at 7:30.

All parents of Cub Scouts in either of the Beaufort Cub Packs, or those who have sons who expect to become Cub Scouts, are invited to attend these courses. They are a "must" for den mothers and prospective den mothers.

**Boy Kills Rattlesnake With His Garden Hoe**

Little Rock, Ark. (AP)—Mrs. W. C. Almond returned home from a visit to a neighbor and her 2½-year-old son, Jimmy, told her he had killed "a thing" with his hoe, explaining:

"It was moving around looking at us. We didn't like the way it was acting, so I killed it with my hoe."

The "thing" was a rattlesnake.

**Port Calendar**

**Luna Maersk** — Sailed from state port Sunday with a cargo of tobacco for Bangkok and Hong Kong.

**Black Heron**—Sailed from state port yesterday with a cargo of tobacco for Antwerp, Bremen, Hamburg and Rotterdam.

**Motomar**—Due at state port Sunday to load cheese for a CARE shipment to Spain.

**Johannes Maersk** — Due at state port Sunday to load tobacco for the far east.

**Radio Amateurs**

(Continued from Page 6)

since most foreign "hams" speak English. Those that don't use the CW (Code) Standard International Abbreviation system of transmitting. Under this system, code takes the place of words common to all languages. What do they talk about? Almost anything except controversial subjects like business, politics, and classified information.

Colonel Mitchell operates his own SSB transmitter from his home in Newport, N. C. He has been an operator since 1934 and has been on the air from at least 15 countries including North Africa, Hawaii, Japan, Johnston Island, Kwajalein, Guam, and Okinawa.

Another important member of the Cherry Point SSB team is Herman P. Jolitz, a NAESU—Naval Aviation Electronics Service Unit—electronics engineer employee of the Philco Corporation assigned to Marine Training and Replacement Group-20. Jolitz has been a radio operator since 1928 and at one time owned a broadcasting station in

Clinton, N. C. He can usually be found accompanying the two Marines on their forays.

All three members of the team agree that amateur radio transmitting has given them many enjoyable hours of interesting talk with persons they wouldn't otherwise have known.

Sergeant Rima stated, "It is fascinating to meet people you have talked to so often but have never seen." By means of the navigation flights to the countries they have contacted, Mitchell, Rima, and Jolitz are among the very few amateur radio operators who actually meet the operators on the other end of the line.

With SSB becoming popular throughout the world because of its economical utilization of power, lighter equipment employed, and a power output nine times that of conventional equipment, more operators will be transmitting by SSB.

Until the day that there are 100 countries with SSB, Colonel Mitchell and Sergeant Rima will probably be found wandering to the far corners of the earth providing their service to SSB radio operators wherever they happen to be.

**Captain Grows Roses**

Capt. "Pappy Joe" Fulcher of Morehead City finds time to train climbing roses in his yard even though he operates a party boat out of Morehead City all summer. Roses in this section are especially beautiful this year. Captain Fulcher is 82 years old and says he is the oldest native-born Moreheader around.

**PCA Directors Meet Here**

The Production Credit Association had a director's conference at the Morehead Biltmore Hotel Tuesday and Wednesday. Here three speakers get together to discuss the program. They are, left to right, Dr. C. E. Bishop, head, agricultural economics department, State College, R. A. Darr, president, Federal Intermediate Credit Bank, Columbia, S. C., and H. R. Osborne, president, Washington FCA.

**Garden-Time**

By M. E. GARDNER

A friend brought in a shoot from his sasanqua camellia which was infested with leaf and bud gall disease. This disease is caused by mold-like airborne fungi and is quite prevalent on both azaleas and camellias this year.

The leaves become thickened, curled, fleshy and pale green to white, or pink in color. Frequently a white powdery surface will develop on the leaves. The disease is usually worse on the lower leaves but may also appear on any part of the plant, especially under humid conditions and in shady locations.

Flower parts may be affected on some species of rhododendron. The trouble seems to be more prevalent on sasanqua than on the japonica camellia.

The disease is more alarming from the standpoint of disfigurement than from actual damage to the plant. However, it may become severe if weather conditions are favorable for the development of the organism.

Around the home, the galls should be removed from the plants and burned just as soon as they are detected. Bordeaux mixture may be used effectively if removal of the galls by hand is not feasible. Prepared Bordeaux may be purchased from your local seedsmen or hardware store and mixed according to instructions on the package.

If you only require a small quantity of spray, use one and one-half level teaspoons of powdered copper sulfate and one and one-half teaspoons of fresh hydrated (builders) lime to one gallon of water. To this solution add about one-half cup of skimmed milk which will serve as a spreader and sticker.

Side dress your leafy vegetables with nitrate of soda. Keep all vegetable and ornamental plantings free of weeds. A good mulch will help control moisture, soil temperature and weeds. Stake and mulch tomatoes.

WHOLESALE PRICES

There Are **NO PROBLEMS**

When You Shop at **General Wholesale**

**NO PARKING PROBLEMS...**

There's always plenty of parking space... you just drive in and take your time.

**NO PROBLEM FINDING YOUR NEEDS**
