

# 'Pearadise' Success Salad Brightens Dairy Month Meal

Here's the ideal salad for that buffet supper you're planning during June, traditional Dairy Month. It's easy to prepare, delightful to see, and delicious to eat—a combination of canned pears and cottage cheese.

You've undoubtedly eaten many pear and cottage cheese salads. You've also probably served pear gelatin salad, and cottage cheese gelatin salad.

This pretty dish combines pears, cottage cheese and gelatin, and for good measure includes a bit of sunny crushed pineapple and some perky maraschino cherries. The result is a nutritious, attractive salad which will be a favorite with both men and women.

Incidentally, if you belong to a bridge club whose members are inveterate calorie counters, this is an excellent luncheon salad to serve them.

Canned bartlett pears and cottage cheese have long been favorite foods with busy homemakers, for they are both wonderful alone, served together, or in combination with many other foods.

Low in calories, high in nutrition, and with the delicate flavor and creamy texture that combines well with stronger flavors and colors, it is no surprise to find these two high on the list of favorites for year 'round service.

In fact, pears are a natural to serve with all the foods featured during Dairy Month. A refreshing sundae of canned bartlett pear halves topped with scoops of rich ice cream and your favorite topping is always a hit with young and old; milk desserts such as custard with pear halves, or a quick packaged pudding served warm over cold canned bartlett pear halves will be a boon to hurried homemakers.

Broiled pear halves with brown sugar—sour cream topping is only one way of using this dairy product with the versatile pear.

So whether you're a busy mother, a busy hostess, or a young bride just getting the hang of cooking, you'll find canned pears the first step to many a quick, easy and appetizing dish during Dairy Month and all the months to follow.

## Register of Deeds Records 36 Real Estate Transfers

(Editor's Note: In recording real estate transfers, the law does not require that the amount paid for the property be stated in the deed. A token amount, such as \$10 or \$100, may be stipulated.

Attached to each deed, however, must be United States documentary stamps, the value of the stamps based on the price paid for the property.

Property which changes hands for less than \$101 requires no stamp, according to Irvin W. Davis, register of deeds. Property which brings a price between \$101 and \$500 must bear a stamp valued at 55 cents. From \$501 to \$1,000, the stamps affixed to the deed total \$1.10, and thereafter for each additional \$500 paid for the property the stamp value goes up 55 cents.

From the value of the stamps placed on a deed an estimation of the price paid for the property can be determined. In the transfers listed below, the seller is listed first, the buyer second, and finally, the value of the stamp affixed to the deed).

## Man Discovers Bull has Temper

Kewanee, Ill. (AP) — The next time James L. Krause poses his registered Holstein bull for pictures, he'll stay clear of the consequences.

He landed in the Kewanee Hospital with two fractured ribs and internal injuries when photographer Richard Ogorzalek attempted to take the bull's picture.

The bull battered Krause against the barn in the first attempt, but he rolled with the blow on the second charge. Before he was attacked again, Ogorzalek grabbed the bull's nose ring and another man helped force the bull back in the barn.
