### FabFisherman Gives Tips For Economical Vacation

"People with the most money don't always have the most fun," declares FabFisherman Bob Simpson. He says, "The purpose of the Fabulous Fishermen is to bring people to this area to spend money. We realize that some folks have less than others and many members of our organization cater to economy-minded vacationists."

"A person within driving distance of Morehead City can have a great time for less than \$5 per day. In fact a family of four could get by on that minimum, excluding transportation down here, of course."

"For \$2 a day the family can rent a skiff from one of the fishing camps. If dad is energetic enough, he can row the family to one of the many islands around here for a picnic lunch and a swimming party."

"He can drop a line overboard and fish for cobia — about the best scappers in this area. Catching a 25-pound cobia (not uncommon) is like catching a much larger deep sea fish."

"A tour of historic Beaufort or Fort Macon costs nothing. Collecting sea shells is great fun and there are many varieties of shells along our beaches."

"If the family wants to head for home late at night, dad can rent a lantern and gig after dark and go flounder fishing. That is great sport for the novice and experienced fisherman alike," Simpson concluded.

An impromptu survey yielded another way to have a good time for little cash. A young man with a camera walked by. A big smile indicated that he had enjoyed his day.

"How much money did you spend today?" he was asked. "Not a cent," was the reply, "and I had the best time you could imagine."

He continued, "It would have been nice if I had been able to put some film in this camera but the girls at the beach didn't know it was empty!"

Meeting Postponed

Collins is a young fastball pitcher who serves them up from the right side. He has been bothered by a sore arm this season but appears ready to go now.

Tootle is a veteran righthander who has been playing shortstop this year. He is the team batting leader with a hefty .417 average. Al Anderson, batting at .378, is in second place and William Becton is in third place with a .333 average. Tom Jones is batting at an even .300.
