The diaing- living area is formed by in-line rooms with a 36-footopen space. The rooms are ded by low planters.

A fireplace is located here and the back of its chimney provides a brick wall for the kitchen. There is direct access to both the dining and living rooms from the kitchen.
One end of the kitchen opens into the foyer which is just five steps up a six-foot-wide staircase from

the entrance foyer. The bedroom steps lead from the upper foyer level.

Directly below the bedroom wine is the entrance level with a ter-race-family room and a room which may be used as a maid's room, a guest room or a den.

The terrace-family room has a tiled concrete floor and directly to its right are two shower rooms, one for women and one for men.
A lavatory also is lecated on this level. The cabana lounge lies between this area and the swimming ned.

USCG Reports Rise in Number Of Rescue Calls

The Fifth Coast Guard District Rescue Coordination Center appeared headed for another recordbreaking year as assistance cases for the first half of 1958 totaled 1,153, which was 62 above the previous high set in 1957.

In releasing these figures today, Rear Admiral H. C. Moone, Com-mander of the Fifth Coast Guard District, indicated that the first six months of 1857 had, in turn, been approximately 40 per cent higher than the first half of 1956, and that the trend was toward continued climb.

A contributing factor to the 1958 rise was the unusually serious ice conditions in February which led to 73 calls for assistance by icebound shipping in the Fifth District area of Virginia, North Carolina, Maryland and the District of Co-

The primary cause, however, was the increasing use of the waterways by recreational bosters.
