It's a Fire

Moo! Moo-ooo! Moo-ooo!

cow. FIRE!

What does the fire alarm mean to you?

Do you hear the alarm and idly wonder where the fire is?

Do you carefully count the alarm signal and refer to the chart to see where the fire is?

Do you immediately become frantic, jump in your car and follow the fire trucks?

If you're a volunteer fireman, you're honor-bound to follow the fire trucks.

No matter who you are, the fire call should send a little shudder of fear up your spine. Fire is a terrible thing. Many little fires are kept from being big fires because of the alertness and efficiency of our fire departments.

Even a little fire is costly. It may destroy a car, a mattress, damage the sill of a door. But it also costs money to send the fire trucks to the scene. The drivers are paid week in and week out in Beaufort and Morehead City whether they are called to a fire or not.

There is always the risk of an automobile accident to and from a fire. And sometimes, of course, the firemen are called when there is no fire whatever. This, in some people's minds, is labeled "Fun".

Do you know that this is National The fire alarm bellows like a giant Fire Prevention Week? The observance started Sunday and will continue through Saturday.

> This is a good time to check your attitude toward fire. Lots of emphasis is placed on checking your home, business and other buildings to get rid of fire hazards. That is important. But it is also important to check your mental attitude.

If you think fire is none of your business, if you think turning in false alarms is fun, if you believe that it matters only if your house burns, but not the other fellow's, you need a "housecleaning" of your mental attitude toward fire.

When the other fellow's house or business burns, you pay. What you pay is reflected in your fire insurance rate. You suffer if you don't teach your children to be extremely cautious about fire.

How seriously you take National Fire Prevention Week, and how you view fire prevention through the other 51 weeks of the year, depends first of all on your mental attitude.

If you have a healthy fear of fire and use all means at your disposal to prevent it, you get an A plus on your mental attitude. If you don't rate A plus, the first fire prevention project this week is to change your attitude.

Women Make a Difference

By membership in the Carteret Business and Professional Women's Club, women of the county join forces to improve their respective towns and the county. The club is sponsoring observance this week of National Business Women's

Until the Carteret club was organized in 1947, there was no organization in this county devoted specifically to the interests and abilities of business women.

Since organization, the club has made cash donations to school bands, school lunchrooms, conducted March of Dimes and cancer drives, aided the Morehead City Hospital, and urged individuals to apply for Social Security benefits.

n the 48 states, Alaska, Hawaii, the District of Columbia and Puerto Rico there are 3,355 Business and Professional Women's Clubs.

National headquarters of the organization, Washington, D. C., were dedicated Sept. 22, 1957.

Every woman who receives a salary in industry, business or who receives compensation in her profession, and is approved by the local B&PW Club, is eligible for membership.

St. Louis, Mo., is the city where the and Professional men's Club was organized in 1919.

Since 1928, National Business Women's Week has been observed nation-wide. The week spotlights women who work, their responsibilities in their home towns, the nation and the world.

Women who are employed are a basic part of the economic structure of the nation. Almost 90 per cent of the members of the National Federation are bread-winners for themselves and members of their families.

Over one thousand laws today discriminate against women. The organization maintains one woman, employed full-time in Washington, to screen legislative bills for such discriminatory clauses.

Emphasis is placed in five fields: career advancement, health and safety, international relations, na-

To dedicate my life, my youth, my all,

This is my prayer.

This is my prayer.

Look upon every day as God's day, and not the Devil's. Then you will serve God and not another. Get it out of your system that you are right, and that everybody else is wrong. Because it is not so. Remember the prescription of Jesus. Lose your life if you want to find it. He who helps most finds most happiness.

Don't forget this: true riches belong to the heart, rather than to the bank vault. Store up wealth in your heart and you will be happy.

If you want to be happy, keep company with God. God wants you to be happy. Therefore do right, work hard, give generously, be friend-
