Two Gloucester Women Will Leave for New York Sunday

By FLOY GARNER
Home Agent

Miss Josie Pigott and Mrs. Dolly Taylor, members of the Gloucester Home Demonstration Club, will leave Sunday for Raleigh.

They will join 82 other North Carolina club women in Raleigh early Monday morning for the annual North Carolina Home Demonstration Educational tour of the United Nations.

Buses will leave the Sir Walter Hotel at 6:30 for New York and the Hotel Manhattan, which will be delegate headquarters. In addition to a planned study tour of the United Nations, the delegates will have a tour of a few places of interest in New York City.

They will visit Radio City Music Hall, Frick Gallery, Franklin Roosevelt's home at Hyde Park, Statue of Liberty, hear Mrs. Eleanor Roosevelt, have dinner at the Waldorf Astoria, and on the return trip will lunch at Mellon Art Gallery, Washington, D. C.

Mrs. Samuel Levering, Ararat, Va., will brief the delegates en route in order that the tour will have as much meaning as possible.

Miss Pigott is the selected delegate of the Home Demonstration Council and Mrs. Taylor is a volunteer delegate going at her own expense. Each county is allowed two delegates and we are delighted that we will have two attending this year.

When these delegates return, they will be available to pass on to you what they have seen and learned about the activities of the United Nations. We hope that they will ask them to tell your organizations of their trip.

This is an educational trip and we hope that many people will get a better understanding of the United Nations at work as a result.

This is the fifth year Home Demonstration women from our county have taken this educational tour. Mrs. D. R. Arnold, Mrs. R. L. Searle, Mrs. G. T. Spivey, and Mrs. Will Dail are former delegates.

These women are constantly serving as UN interpreters to the people of our county. They are glad to share with you their first-hand understanding of the United Nations.

Home Demonstration leaders and club presidents are busy making plans for November activities. November club meetings will be conducted by the craft leaders. Some of the clubs will hold special crafts workshops while others will have a "learn-how" session at their regular club meetings.

In either case, those attending will learn a craft that will help to keep the Christmas gift list within the family budget. In addition to saving money, hand made gifts give us an opportunity to give a bit of ourselves.

Woods Owners To Meet Nov. 6

Governor Hodges announces that at the request of the North Carolina Forestry Association, he will call a conference on Small Woodland Management at North Carolina State College, Raleigh, Thursday, Nov. 6.

One thousand landowners and others connected with forestry are being invited to this conference to determine why more small woodland owners in North Carolina are not practicing good forestry management and to determine what needs to be done in furthering the practice of forestry among small woodland owners.

The governor explained that North Carolina's income from non-industrial timber holdings, now \$35,000,000 annually, offers a potential income of \$100,000,000 yearly. Developing this untapped \$65,000,000 for the benefit of private timberland owners through modern forestry practices will be the ultimate objective of the Nov. 6 gathering.

The conference will open at 9:20 a.m.

An exciting new kind of car! Makes history by making sense

Add it up. You get solid new distinction rivaled only by cars costing much more! Bold new vertical grille. Strong new lines. Graceful new rear sight deck.

You get beautiful new efficiency. Wonderfully spacious interiors—with less length outside. Six adults ride in comfort, but Edsel's compact 120-inch wheelbase fits any normal garage, swings easily in and out of tight spots.

You get lots of go for little gas. Pounds and pounds of useless car weight are gone. And four new Edsel engines are here! Including a thrifty six with a powerful test track record. And a new kind of economy V-8 that uses regular fuel

and wrings big mileage from every ounce! You get all the magnificent quality that marks a superior car. Super-smooth ride. Big, self-adjusting brakes. Luxurious carpeting, electric clock and four other customary "extras"—at no extra cost.

Yet the challenging new 1959 Edsel is priced with the most popular three! For example, you'll find that a new Edsel Ranger is priced almost exactly the same as many models of Chevrolet, Plymouth and Ford. See for yourself—this comparison is actually based on the factory suggested list prices.
