

Pastor Invites Lutherans To Worship at St. Timothy's

A. B. Cooper Announces Plans for New Resort

A. B. Cooper, Atlantic Beach, has announced plans for a new beach resort between Money Island Beach and the Dunes Club. Mr. Cooper says, "If we go according to present plans, work will start on a 40-unit motel, bath houses, coffee shop, fishing pier and miniature golf course a week from Monday."

The development will be along a 350-foot frontage on the ocean that extends back about 800 feet to the Fort Macon Road. The motel will be situated on a location allowing for addition of 60 more units later.

Mr. Cooper has applied to the Corps of Engineers for permission

to build a pier 20 feet wide extending 1,500 feet seaward beyond the mean low water line. If the pier is built according to plan, it will be about 500 feet longer than any of the other four ocean piers, which range from 800 feet to about 1,000 feet in length.

Mr. Cooper also announced that work is nearly complete on the oceanarium at Sound Beach. Visitors will be able to walk into the building and watch the fish through portholes. Smaller aquariums will line the walls of the building. These aquariums will have smaller fish, including some of the rare varieties.

Farm Agent Announces National Honey Week

County Farm Agent R. M. Williams announces that this week, Oct. 28-Nov. 1, is National Honey Week. Mr. Williams points out that the production of honey brings North Carolina farmers more than two million dollars a year.

Mr. Williams says, "Not only is this an important industry, but the use of the honey bee is very important to all farm people in the pollination of various farm crops. Many of our crops are cross-pollinated and are dependent on the honey bee and other insects for pollination."

"The fall is the time when the largest supply of honey moves to market. The color and flavor of honey to a large extent depends on the floral vegetation that our bees have available."

"Most of our honey is made from a mixture of flavors. The

light-color, mild-flavor honey is the most popular type. The dark color honey is associated with darker flavors.

"There are four types of honey sold on the market. These are extracted honey, comb honey, chunk honey and creamed honey. Even though honey is a wholesome and popular product, we have been told that our consumer pattern has changed little in the past 40 years."

"The per capita consumption has been estimated to be from one to one and a half pounds per year. The retail price remains relatively stable throughout the year, even though the largest supply of honey is marketed during the fall months. The excellent keeping quality of honey tends to level off the supply, preventing any seasonal fluctuation of price."

Canvassing for College Money to Begin Next Week

The committee for Christian Higher Education at First Methodist Church, Morehead City has been hard at work preparing to begin canvassing next week for pledges to the Christian Higher Education campaign.

Committee members are as follows: Rufus Butler, chairman, Mrs. Truman Kemp, W. P. Freeman, James B. Webb, Grover Menden, W. B. Chalk, Bud Dixon, Judge Luther Hamilton, George W. Dill Jr., and S. A. Chalk Jr.

Of the five million dollars to be raised, First Methodist Church has been asked to contribute \$41,634.00 over a three-year period. The communities of Fayetteville and Rocky Mount have already contributed over four million dollars to the Christian college building program.

The need is great for additional colleges. Between 1910 and 1950 the population of America increased 65 per cent, but the number of college graduates increased 690 per cent. In other words, college graduates increased ten times as fast as the population. There are now 3,232,000 enrolled in colleges, but estimates are that we will have 8,200,000 enrolled in 1975, or a gain of 154 per cent in the

next eighteen years.

Friends of the Methodist Church in this area who would like to contribute to the Christian Higher Education building program may do so by contacting one of the members of the committee as named above or by calling the church office Park 6-3541.

Federal income tax laws permit individuals to deduct up to 30 per cent of the adjusted gross income if 10 per cent of this is given to colleges, churches or hospitals. Gifts of real estate or securities offer very distinct advantages to the donor. The need is great for additional college facilities and the need is just as great for help to this inspirational movement.

The children's choir which was to meet Saturday, Nov. 1, has postponed the practice scheduled for that time. They will meet for regular practice on Saturday, Nov. 8.

Due to the illness of the Rev. J. F. Herbert, pastor, Dr. A. J. Hobbs, New Bern, will deliver the sermon at the 11 a.m. service Sunday and the Rev. Chester Brown, pastor of the Havelock Methodist Church, will speak at the evening service at 7:30.

Queen Street Students Report Class Activities

Our class, which is the 7th B and 8th A, have been studying about the salamander. We have found out that salamanders breathe by lungs, like frogs. Salamanders, like frogs, have a smooth skin without scales. Baby salamanders hatch from eggs which are laid in the water.

These baby salamanders breathe with gills, just as tadpoles do. They can live only in water; they cannot live on land, at first. A salamander eats small earthworms and small snails as well as certain kinds of insects.

We have also been studying about planets. Compared with the earth, the sun is huge. One million balls the size of the earth could be dumped into it. Yet the sun is only a middle-sized star. It is neither the smallest nor the largest one known to us.

The sun is yellow, as are thousands of other stars. As you know it is round. Like the earth, it rotates on an axis. In every way the sun is just an average star.

The sun is a good example of a star which has been studied to see what chemicals are found in it. Many of the ninety-odd elements known to us are in the sun. Iron, lead, and tin are among these elements. Others found in the sun are magnesium, silicon, sodium, potassium, and calcium. Hydrogen gas is known to be present in the sun in great quantities.

We are also working hard toward the homecoming drive. We

have selected our classroom officers which are as follows: Jonathan Becton, president; William Ellison, vice-president; Yvonne Teel, secretary; Gloria Murrell, treasurer; Loretta Murrell, sergeant-at-arms.

The 9th Grade A is having a wonderful time. First comes just about our most important thing, our Homecoming Drive. We have been working very hard the past weeks trying to do everything in order to win the drive. Winning the drive is not an easy job because you have so many other classes to work against.

But in order to win anything you must have cooperation. As we always say, "You can make it if you try."

Students in our class 9A have an average of 80 or above for the first six weeks. They are as follows: Louverta Davis, Ethel Fulford, Godfrey Ellison, Christley George, Vinson Godette, Johnnie Hazel, and Joe Jones.

—Ethel Fulford, Reporter

The 10th Grade B is progressing very well. We are proud to say that only a few failed the first weeks. Our class motto for the year of 1958-1959 is, "You can make it if you try."

—Alice Pasteur, Class Reporter

Digging of the Erie Canal started at Rome, N. Y., on July 4, 1817.

Newport FFA Wins Contest

The Seashore FFA Federation met at the Farm Life School in Vaneboro last Thursday afternoon. Representatives from the FFA chapters in Smyrna, Newport, Pamlico, Jasper, Dover, and Vaneboro were present.

The feature of the meeting was a parliamentary procedure contest put on by the boys. Newport was judged the winning chapter with Dover second. Judges of the contest were teachers of agriculture F. G. Lewis of Aurora, J. L. Patrick of Chocowinity, and J. M. Worrell of Washington.

Members of the Newport parliamentary procedure team are Ronnie Edwards, president; Dicky Garner, vice-president; William B. Allen Jr., secretary; Lewis Forrest, treasurer; Jimmy Mann, reporter; Eric Gray, acting sentinel, and C. S. Long, chapter advisor.

They were presented a federation banner in blue and gold.

Federation officers were selected for the present school year. Each school present was to elect an officer, the president to be from Newport, the secretary from Pamlico, the treasurer from Dover, the reporter from Smyrna, and the sentinel from Jasper.

T. B. Elliott, the district supervisor, was present and introduced McVernon Prescott as a new agriculture teacher in the Pamlico School.

C. S. Long of Newport announced that the next contest will be a tool identification contest at Newport at 2 p.m. Dec. 18.

—Horace Lawrence, Acting Reporter

The charter roll for membership will be opened Dec. 1 and about 50 members have been obtained, the mission will file a petition to organize as a congregation. Mr. Lippard said the organization of the church should follow, then, in about two months.

The pastor reported a record attendance of 113 in church last Sunday, Reformation Sunday. "The reception of the mission has been good," he added. "There is a great deal of enthusiasm. The renovating is being done by mission members at night."

In addition to the sanctuary, there are five Sunday School rooms, a pastor's study and kitchen. There is space for two additional classrooms on the second floor.

The sanctuary can seat 140, and 175 can be accommodated in Sunday School.

Sunday School begins at 9:45 a.m. and the worship service at 11. There are five Sunday School classes for children and young people and one adult class. Twelve young people are now enrolled in a catechetical class; there is a morning and evening circle of United Lutheran Church Women, a junior and senior choir.

Mrs. Michael Popow is pianist and Mrs. Aaron Lippard directs the junior and senior choirs. The pastor gives a sermonette for children prior to his regular sermon each Sunday.

The mission, affiliated with the United Lutheran Church in America, was started in the summer of 1957. Serving the mission have been Carl Fisher, a seminary student; the Rev. Glenn Barger of New Bern, and Chaplain Pauling. Services used to be held in St. Christopher's Episcopal Church.

Mr. Lippard came to Havelock July 1 as mission developer. A native of Salisbury, he is a graduate of Southern Seminary, Columbia, S. C.

Mr. Lippard is in the Beaufort-Morehead City area once a week. He can be contacted at his home in Havelock, 120 Nunn St., phone GI 7-8325.

The junior play books came

See you all next week.

Jaycees Sponsor School Contest

The Morehead City Jaycees heard plans for the My True Security contest at their meeting at the Blue Ribbon Club Monday night. Explaining the program was Norris Edge, who with Dr. Russell Outlaw, is in charge of the contest.

My True Security is a script-writing and delivery competition which encourages high school seniors to think, write and speak on the importance of initiative and self-reliance in providing a secure future for the individual.

Entries are judged on the content, originality and delivery of a five-minute script on the subject My True Security—The American Way.

All seniors graduating in calendar year 1959 are eligible to enter. In school eliminations a winner will be selected to represent Morehead City in the state finals. The state winner will receive an all expense paid trip to Washington, D. C. in July.

During a three day awards program there, a national winner and two co-equal runners-up will be selected and honored.

The national winner will receive a \$1,000 scholarship while the runners-up will each receive a \$500 scholarship.

The project is sponsored nationally by the US Jaycees and the Mutual Benefit Life Insurance Co., Newark, N. J.

Beaufort Jaycee treasurer John Young reported Monday night that the Jaycees took in \$88 at the concession stand at the Beaufort-Ayden game Friday night. The gate receipts, he said, were \$350.

George Thomas reported that about 100 tickets have been sold on the 1951 Plymouth the Jaycees will give away at the Swansboro game. He said that many more if they were to break even on the car.

Mr. Thomas made a motion that the club pay all state and national dues.

President Guy Smith Jr., Hobart Kelly, Bobby Martin, Jessie Taylor and Mr. Thomas attended the district meeting in Jacksonville Tuesday night.

The club will meet for a brief work detail at the Scout building at 2 p.m. Sunday.

Power to Flow Over New Line

Carolina Power & Light Co. will "hot up" its newest, and one of eastern North Carolina's longest high-voltage power arteries in early November, it was announced this week by Wilmington district manager A. A. Johnston.

Construction crews who had been hampered by seemingly bottomless marshes, wide expanses of river and swamp water, Hurricane Helene and last week's unheralded northeaster, pulled out of lowlands along New River at Jacksonville last Saturday.

They had completed the last difficult link in the 47-mile line connecting the Jacksonville-Morehead City load center and CP&L's Louis V. Sutton steam electric generating plant at Wilmington.

The new 110,000-volt transmission line will add sinew to CP&L's power loop between the generating station at Wilmington, the Jacksonville-Morehead area and CP&L's generating plant at Goldsboro. It "shores up" the power supply for all of eastern North Carolina, and supplements CP&L's present Wilmington-Jacksonville transmission line which swings farther east near the old Camp Davis site.

Case Continued

The theft cases against William Bonner Willis and William (Willie) Willis, both of Crab Point, were continued in county court yesterday. They are now scheduled for Nov. 13. The defendants are charged with stealing \$250.

There will be selling of barbecue, pig's feet, chitterlings and pies every Saturday and Sunday at the home of Mrs. Mary E. Truman, 1006 Bay St., Morehead City. All proceeds from the sales will go to the Christian Star Church of Morehead City.

Pastor Speaks; Juniors To Get Rings This Spring

By EVELYN HARRIS

Hi, this week I have just a few important facts that will interest you all, I hope.

Last Thursday the high school was very pleased to have as its speaker Mr. Quidley of the Baptist church of Atlantic. I guess we as high school students, didn't realize how important our lives really were and how important it is for us to live good clean lives.

Mr. Quidley made us see how important it is for us to live good lives and how to prepare for the worst things in life that could happen to us. We all enjoyed his talk and we'd like to have him back again.

Last Thursday also, the juniors were measured for their graduation rings. Everyone was so excited they couldn't make up their minds on what color they wanted. But they finally did and everyone is getting the color of their choice.

The Junior class would like to thank Mr. Johnson for making it possible to get our rings at the end of this school year.

Thursday and we were all excited wondering who would get what parts. We've decided, but we mustn't tell until Nov. 18. Look for these parts and the presentation of "Where's Laurie".

Our school pictures arrived last Friday and some of them were very good. It reminds me of annual time, except everyone is swapping photo's instead of autographs.

Hear ye! Hear ye! Parents, this year we expect to have a working, understanding, unexcelled PTA. We, as a student body, beg you to attend every meeting of this new version of our PTA. The students need our parents here in our school. We cannot show you our program of scholastic work unless you will visit us, cooperate with us, and back up with your presence. Our next PTA meeting is very important. It could mean the life of our school. Please attend.

The first meeting of the FHA was Oct. 16, 1958. Thirteen were present. Devotion was led by Linda Gaskill. The officers of the coming year are president, Linda Gaskill; vice-president, Sarah Mason; secretary and treasurer, Peggy Hamilton, and assistant secretary, Agatha Day. The meeting then adjourned.

The junior play books came

See you all next week.

School Bands to Cooperate in Half-Time Show Tonight

The Morehead City and Beaufort High School bands will entertain during the half time at the Beaufort and Morehead City football game tonight.

Band director Ralph Wade with his band has worked hard in preparing the half time show. They have provided entertainment for all home games. The Beaufort band will give a pre-game routine.

Following the show, the varsity queen will be crowned and each band will play two selections while the majorettes from both schools will circulate among the audience seeking donations. The funds will be equally divided between the two school bands.

The band associations from both towns have voted to make this an annual affair and the money will be used to offset the cost of music for football games and other incidents.

"Let's have a big crowd and give generously to help support these fine bands of which we are most proud. They have worked hard to bring us fine entertainment as well as support their football teams," the band directors said. Director of the Beaufort band is Charles B. Jones.

Hit and Run

Robert Lee Hanes, 1906 Shepard St., Morehead City, reported to the police that an unknown car hit his 1956 Plymouth this week while it was parked in front of his house. Damage was estimated at \$50. The police are investigating.

Robert Lee Hanes, 1906 Shepard St., Morehead City, reported to the police that an unknown car hit his 1956 Plymouth this week while it was parked in front of his house. Damage was estimated at \$50. The police are investigating.

Port Calendar

Poseidon — Docked yesterday with a cargo of petroleum products for Standard Oil. Due to sail today.

Eastern Prince—Due today to load tobacco for Germany.

Black Tern—Due today to load tobacco for Rotterdam.

Kinderdyk—Due Tuesday with cargo from Europe. Will pick up a load of tobacco for Germany.

Southland—Due Wednesday to load tobacco for Hamburg.

Takehima Maru—Due Thursday to load tobacco for Japan.

Esse Greenville—Due Nov. 10 with a cargo of petroleum products for Standard Oil.

Dr. R. E. Coker Visits At Fisheries Institute

Dr. R. E. Coker, founder of the Institute of Fisheries Research, Morehead City, and its first director, visited at the institute this week.

Dr. Coker is now director of research at the University of Puerto Rico and acting as consultant for its marine laboratory. Dr. Coker is well-acquainted with this area, having been here in 1888. He worked for several years on Pamlico Sound.

Dr. Coker, now 82 years old, arrived here Tuesday afternoon and left yesterday. He is former head of the zoology department at the University of North Carolina.

Trinity Sails

The grain ship Trinity, the first to be loaded with the new mechanism at Morehead City port, sailed Tuesday. The ship had been at docks more than a week while quirks and bugs were being worked out of the loading equipment. She took 7,500 tons of corn to Rotterdam.

CD Unit to Get Office Furniture

John Valentine, county Civil Defense director, announced yesterday that equipment for the CD office in the Beaufort courthouse annex has been obtained through the state surplus property division at Raleigh.

Mr. Valentine was in Raleigh Tuesday conferring with CD officials regarding the equipment. A truck will go to Raleigh next week to pick up desks, filing cabinets, chairs, tables and light fixtures.

Mr. Valentine also announced that Percy Davis has accepted chairmanship of Marshallberg Civil Defense, and David Hill, chairmanship of Beaufort.

George McNeill, chairman of county communications, was in Raleigh last week to discuss the communications program in Carteret.

The county CD unit has applied for a car to be used in CD work. Colonel Dawson and Major Smith, Civil Defense officials, will speak in Beaufort Tuesday night, Nov. 28, to all county Civil Defense personnel. The meeting will begin at 7:30 p.m. at the school.
