went over the needs of our school, and discussed them. From the response, we should have a very good PTA.

Group pictures were taken Wednesday of the high school and let's hope they turn out better than some of the single photos taken a few weeks ago.

Some people ask just what is education and why should I try to get an education. This poem I think will give you a very good idea of what education really is.

I AM EDUCATION

I am Education. I bear the torch that enlightens the world, fires the imagination of man and feeds the flames of genius. I give wings to dreams and might to brawn and brain.

From out the silent shadows of the past I come, wearing the scars of struggle and the stripes of toil, but bearing the triumph of the wisdom of all ages. Man, because of me, holds dominion over earth, air and sea; it is for him I leash the lightning, plumb the deep and shackle the waves of ether.

I am the parent of progress, the creator of culture and the molders of destiny. Philosophy, science and art are my handy works. I banish ignorance, discourage vice, disarm anarchy.

Thus I have become freedom's citadel, the arm of democracy, the hope of youth, the pride of adolescence, the joy of age. Fortunate the nations and happy the homes that welcome me.

The school is my workshop; here I stir ambitions, stimulate ideals, forge the keys that open the door to opportunity, the master of human destiny.

I am the source of inspiration, the aid of aspiration, for I am irresistible Power.

Please look in again next week when I'll bring you more news from AHS.
