

# Theatre Manager Tells Of Town's Magic Island

By O. J. MORROW

The theatre is a beckoning island in a world tormented with hurry and cares. Only a step and you have come into a place as far as any palm fringed, flower scented stroll of the blue South Seas, into an atmosphere as soft as twilight in the Vale of Kashmir, into a hall of magic as wonderful as the Grand Vicer's palace in storied Bagdad.

Movie magic makes it so. The theatre is a Treasure Island, too. It is laden with allures, as rich and real for their hour as any loot that ever poured through pirate hands toying with a trove of gems and doublooms.

For youth there is adventure and romance, love and thrills—a brimming, sparkling glass for eager lives all afloat.

For maturity there is all that, and added footnotes of experience, grave and gay.

For the old, there is happy remembering and, at times, the balm of forgetting.

For everybody there is beauty, color, music, laughter, sometimes dew-eyed emotion.

For your entertainment the talents of the world have been sifted and brought to gleam as gemstones of stardom in settings of drama and story produced with lavish skill and all the miracles of the arts and sciences.

The gifted, the beautiful, the alluring, the glamorous—all that diligent search can find, are assembled into that endless stream of fact and fancy that flows across your theatre screen.

The millions spent in this pursuit are all royally yours, in this democratic art, for the time you elect, at the price you pay for a seat. Never has so much been yours for so little.

This weekend, starting Sunday at the Morehead and playing through Tuesday, movie magic takes you to the Orient, for all the magic and splendor of the Far East. The Bar-

barian and the Geisha starring John Wayne and Eiko Ando.

John Wayne plays the part of Townsend Harris, and his arrival in Japan in the mid-19th century to negotiate a treaty to open Japanese ports to foreign ships and introduce Japan to foreign ideas.

Dramatically, it shows how one man, without force, using only his courage, determination and understanding, changes an entire nation's view toward the rest of the world.

Another jewel in entertainment starts Wednesday and plays through Saturday at the Morehead Theatre. This picture, too, has a touch of the Far East as Glenn Ford and Ernest Borgnine co-star in Torpedo Run, telling the story of a submarine commander and his relentless search for His Imperial Japanese Majesty's Aircraft Carrier, the Shinaru, flagship of the Pearl Harbor attack.

Getting back to the western part of the United States, the City Theatre presents Gary Cooper as the Man of the West, playing Sunday through Wednesday.

The film, in Cinemascope and color, is Cooper's first western with scope and imagination in a long time. It brings him back to the range he rides so well. It sets him on a horse, and it lets him walk down western streets looking for trouble as only Cooper can.

On Thursday and Friday at the City Theatre, movie magic takes you to the top of the world, the Alps. High Hell starring John Derek and Elaine Stewart is the picture which was filmed on the 12,000-foot high peak of the rugged Jungfrau in the Swiss Alps.

Based on a novel by top action writer Steve Frazee, High Hell is the high voltage tale of five desperate, gold-hungry men, led by Derek, who risk their lives and the destruction of a town to work a mine high above the clouds, to look for gold.

Ending up the week at the City Theatre, playing Saturday only Ride a Violent Mile starring John Agar and Penny Edwards and on the same program a picture that takes you from the golden gates to the gutter dives—in a super chase that leads you straight to The Line Up, starring Eli Wallach.

Through action of the bureau, congress has passed a poultry inspection act, expanded the REA program, and increased funds for vocational agriculture. It has improved the farm credit bill, made allowance for a farm gas tax refund, extended the farm credit bill, made allowance for a gas tax refund, extended reciprocal trade agreements, passed acts to expand and develop foreign trade and protected farmers' rights in the field of transportation.

On the state level the Farm Bureau has helped promote increased appropriations for experiment stations and extension service, removal of farm machinery tax, improved dairy program and prevented state tax on cigarettes and other tobacco products.
