Names of Beaufort, Carteret Originated with Nobility

When the Assembly of the Colony of Carolina came to the naming of Carteret County, set off as a precinct in 1722, and the changing of the name of its one settlement, "Fishtown," to that of Beaufort, establishing it as a port of entry they drew upon the names of two prominent members of the nobility.

The name of Sir George Car-teret, one of the original eight Lords Proprietors, was applied to the county, and that of Sir Henry Somerset, Duke of Beaufort to the settlement which became the county seat of the new precinct.

Of the eight men, known in history as the Lords Proprietors, who in 1663 were granted extensive holdings in the Colony of Carolina by Charles II, Sir George Car-teret is credited with rendering to his King a service far greater than any of the Proprietors. Naming of a county in the new colony was a small honor for his loyalty and dedication to both Charles I and dedication Charles II.

It is of interest to follow the Carteret line through four generations and to its close for it brings into prominence the setting off of the famous Granville Line, a botte of contention in the affairs of the English government until after the close of the Revolution when the land was claimed by the state.

the close of the Revolution when the land was claimed by the state. With the death of Sir George Carteret, his one-eighth of the original grant was inherited by his son George II, who in 1681 was created Baron Carteret of Haunes. He in turn passed the grant on to his soil, John, who from the maternal side of the family received the title, Earl of Granville.

As a Proprietary of Carolina by inheritance, John Carteret refused to sell his share of the Crown in 1729, as the other holders were willing to do. After fifteen years of unrest among the early settlers of the colony, as to rights and claims of property, the Crown in 1744, set off what has been known for over two hundred years as the Granville Line.

Granville Line.

This line embraced a strip sixty miles south of the Virginia border and from the Atlantic Ocean westward to an unlimited boundary. The line running east and west passed south of the town of Bath. At the death of Sir John, the title of Earl of Granville passed to his son, Robert who died in 1776. The title was then extinct.
