MOREHEAD CITY PEOPLE
SHOULD THINK ABOUT
THESE THINGS

All through the many years of Morehead City's struggle for its Port, even from the very beginning of its fight in 1933, the Atlantic Coast Line Railroad has been its greatest enemy. If there is any doubt about that in the minds of any people, let them inquire of any among us who are acquainted with the facts.

In the present fight that the Southern Railway, now operating out of Morehead City, is carrying on for equalization of freight rates in the interest of our community and Port, the Coast Line Railroad is still leading the fight against us. Also, the City of Fayetteville, home town of Terry Sanford, is served by the Coast Line Railroad (as is the City of Wilmington) and is reviving her own Port activities. According to the 1960 Law Director (Volume 11, Martindale - Hubbell) Mr. Sanford's law firm is the Coast Line's attorneys.

To be perfectly frank — and harsh as the implications may be — the question for us in Morehead City to ask ourselves in tomorrow's voting still is, CAN WE AFFORD TO SUPPORT FOR GOVERNOR OF NORTH CAROLINA AN ATLANTIC COAST LINE LAWYER?

Why
Mercury
is
the better

MORE VALUE. Just look at these Mercury advantages over other low-price cars:

You ride smoother because Mercury has up to 8 inches more wheelbase . . . and is up to 494 pounds heavier. You're more comfortable because of Mercury's extra shoulder room, leg room, and foot room. You feel safer because Mercury's brakes are bigger (up to 26%), and visibility is better (up to 21% more).

Mercury has at least two dozen extra values. Why not enjoy them all, and save a little money, too?

PRICES START \$65 TO \$66* BELOW EVEN THE LOWEST-PRICED V-8 POWERED PLYMOUTH FURY OR CHEVROLET IMPALA.

And we're not talking about a 'stripped' Mercury. This price comparison is based on a deluxe-appointed Monterey with luxurious nylon interior and deep, soft wall-to-wall carpeting.

This amazing price story is the result of Mercury's dramatic 1960 price reductions (as much as \$174 lower than last year, including extras that are now standard equipment).

Every Mercury is lower priced than last year. All Monterey's are now low-price cars. They are priced below, or within a few dollars of, the other deluxe V-8 series in the low-price field. Come in. See for yourself.

*Based on comparison of manufacturers' suggested 1960 retail base prices for lowest-priced V-8 models.
