

Trial Dates Set for McLean, Sharp on Manslaughter Counts

Manslaughter cases involving two county residents have been scheduled for the November term of criminal court which opens Monday in Beaufort.

Docketed for trial Wednesday is Robert C. McLean, Morehead City, charged with the shooting of Bill Sample, 15, at the McLean home in Morehead City in June. Sample was fatally wounded. McLean told police that he thought the boy was a prowler. The youth was attempting to waken his friend, Bobby McLean, at a bedroom window when the shooting occurred.

To go before the grand jury is the case of Leamon Sharp, charged with the shooting of his 13-year niece in a home at Beaufort. Sharp said a pistol was discharged during a "friendly scuffle," when a preliminary hearing was conducted in county court.

The grand jury will consider also a breaking and entering case involving Pierson Willis, Beaufort. Willis allegedly broke into the home of his father-in-law in Morehead City after a family dispute.

Other cases to go before the grand jury: Woodrow Wilson, resisting arrest; John Logue, Johnny Pinkham, Dave Anderson, breaking, entering and larceny; Frank Guff Morgan, Frank Grant, assault.

Harvey Lewis, false pretense; Carlton Pittman, public drunkenness; Wilton M. Sutton, speeding; Dennis A. Robinson, Sanford Long, driving drunk; Thomas Wood, hit and run.

Rhonda Wayne, larceny, David and Rhondy Lane, receiving stolen property; Louis A. Hinson, L. W. Gillikin, worthless check; Sadie and Jesse Finch, public nuisance; John Dallas Waters, manslaughter.

Waters, Plymouth, N. C., was driver of a car in which two teenage girls from Virginia were killed on the Salter Path road July 1.

If the grand jury finds sufficient evidence to take the Sharp case to trial, it will be tried Monday.

Also docketed for Monday is the Pierson Willis case. Twelve other cases are also on the docket for that day.

There will be no court Tuesday because Tuesday is election day. In addition to the McLean case, there are ten cases docketed for Wednesday, ten for Thursday and nine for Friday.

In county recorder's court Sept. 25, probable cause was found in a theft case against Everett Ingram Jr., Morehead City, and the case was bound over to superior court. In recorder's court of Oct. 9, the Sept. 25 judgment was stricken. Ingram was given two years on the roads, suspended, told to pay costs and remain on good behavior for five years.

New Registration Total Stands At 10,562; Officials Pleased

Wildwood Will Vote Tuesday On Fire Service

Voters in the Wildwood precinct will receive a ballot that no other voters will be given Tuesday. The ballot is to determine whether they want to be taxed for fire protection.

If they do, they will get fire protection under the Newport Rural Fire association plan. Participants will pay a tax when they pay their county taxes and this revenue will be turned over to the town of Newport with whom a contract for fire service will be signed.

Newport township is now under a rural fire protection plan. Residents outside the town limits of Newport pay 10 cents tax per hundred dollars of valuation for the service, which in turn gains for them a reduction in fire insurance rates.

The town of Newport under its rural plan is now servicing the Wildwood section, but will discontinue the service if the people do not approve the fire protection plan Tuesday, according to Newport Mayor Leon Mann Jr.

If Wildwood residents approve the proposal, the area in which they live will be known as the West Wildwood Fire Protection district. Further information may be obtained by contacting Prentiss Garner, tax supervisor, courthouse, Beaufort; Mayor Mann or fire chief Charles Gould Jr., Newport.

Morehead City Firemen Answer Two Alarms

Wind-whipped wires led to a fire alarm Wednesday night, when Morehead City firemen were called to 11th and Avery street at about 6:45 p.m. Electrical wires were shorting out due to high winds, causing fireballs and bright flashes.

Monday afternoon at about 3 p.m., firemen answered an out-of-town call to the Wildwood area, where a woods fire was threatening three or four homes. The fire was soon brought under control.

Czech Scientist Visits At Duke Lab This Week

Visiting at Duke Marine laboratory, Pivers Island, this week was Dr. Pavel (Paul) Blazka from Prague, Czechoslovakia. Dr. Blazka arrived Saturday by air from Urbana, Ill., where he lectured at the University of Illinois.

Invited here by the American Institute of Biological Sciences, he is the first Czech scientist to come to this country under the AIBS program to familiarize American scientists with the work of scientists in other countries.

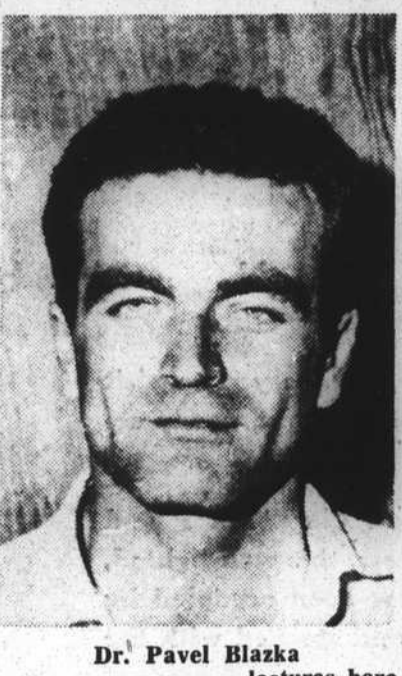

Prior to his visit at the University of Illinois, Dr. Blazka lectured at the University of Wisconsin. From Pivers Island, he went to Duke University, Durham, and from there he goes to the University of Massachusetts, University of Toronto, University of British Columbia at Vancouver, the University of Washington, and the University of California. He will be in this country six weeks.

Dr. Blazka speaks English well. He learned English in the public schools in Czechoslovakia where pupils have the opportunity to study German, French, Russian, as well as English—and sometimes Spanish.

Dr. Blazka, who is a research scientist with the hydrobiological laboratory of the Czechoslovakian Academy of Sciences at Prague is a graduate of Charles university, which was founded in Prague in 1348 by Charles IV. The university has operated continuously since then, except for six years during the second world war.

Dr. Blazka has found the United States as he imagined it would be. Two things which have made a big impression, he says, are the extensive use of aluminum in construction of buildings and the importance of churches in American life.

At a seminar at Duke lab Tuesday afternoon he spoke on protein metabolism of swimming fish and

Dr. Pavel Blazka lectures here

at Duke university Wednesday he spoke on adaptation to anoxia, or the ability of fresh water fish to become accustomed to water where the oxygen content diminishes or disappears.

Papers he has written, as a result of his research, have been published by the journal, Physiological Zoology, Chicago. He is noted for his studies in anoxia and metabolic rate and temperature in small fresh water animals—very small animals, almost microscopic.

Dr. Blazka's visit to Duke lab and a trip Monday to the outer banks was his first visit to an ocean. His scientific interest in water life did not evolve from familiarity with lakes or streams as a child. He says he merely saw interesting scientific problems in fresh water animals.

At the conclusion of his visit here, Dr. Blazka will return to Prague to his wife and two sons, Marek, 4, and Petr, 2½.

The number of persons who registered during the recent registration period totals 10,562, or 73 per cent of the persons in the county estimated as eligible to vote.

Charles Willis, chairman of the elections board, said, "We are well pleased with this registration." The completely new registration squeezed the air out of the old registration figures, which were 15,784. The number grew to that size by new names being added and names of the dead or those no longer living here seldom being taken off the books.

Of the new registrants, 8,178 are Democrats, 2,189 Republicans, 107 independents, and 88 registered who made no commitment.

Only those registered as Democrats or Republicans may vote in primaries. All who registered may vote in Tuesday's election and may vote for whomever they wish, regardless how they may be registered.

A Republican may vote for a Democratic candidate and a Democrat may vote for a Republican.

Here are the registration figures, by precinct, with the name of the precinct first, followed by number of Democrats, number of Republicans and the total (figures on independents and no-party-stated are not given because persons in those categories are so few):

Atlantic 393-50-478; Beaufort 1,780-235-2,100; Bettie 93-13-106; Bogue 132-19-161; Broad Creek 175-54-229; Cedar Island 106-11-117.

Cedar Point 143-42-186; Davis 129-145-277; Harkers Island 402-164-567; Harlowe 161-65-230; Marshallberg 170-148-326; Merriam 94-6-101.

Morehead No. 1-1,092-142-1,280; Morehead No. 2-1,363-257-1,637; Newport 719-218-961; Otway 171-89-260; Pelletier 55-6-61; Portsmouth 4-0-4.

Salter Path 168-10-180; Sea Level 193-44-237; Smyrna 47-36-84; Stacy 59-84-146; Stella 40-24-65.

Straits 101-18-119; Wildwood 244-92-339; Williston 56-127-183; Wire Grass 88-40-128.

Three Women Will Visit UN

Mrs. Hugh Pake, Bettie, Mrs. W. E. Guthrie, Bogue, and Mrs. G. T. Spivey, Russell's Creek, will leave Raleigh Monday morning for a six-day trip to New York City and Washington, D. C. They will represent the county on the annual Home Demonstration club United Nations study tour.

Three chartered buses will take North Carolina's clubwomen to New York, where they will stay at the Hotel Taft. En route they will be briefed about situations they will study at the UN by Mrs. Samuel Levering and Mrs. Hugh Holcomb.

The clubwomen will have two days at the United Nations. There will be a trip to Hyde Park to visit the Roosevelt home and library and a stop at the United States Military academy, West Point. Evening hours will be left free so that the visitors may choose their own entertainment.

En route home they will stop overnight in Washington, D. C., staying at the National 4-H Foundation. They will be taken on a tour of Washington and a special tour of the White house.

The travelers are expected to return to Raleigh about 4 p.m. Saturday, Nov. 10.

Beaufort Rotary Hears Talk on Court Reform

Beaufort Rotarians heard a talk by Dr. Russell Outlaw on court reform Tuesday night. The proposed constitutional amendment to be voted on Nov. 6 along with five other amendments, will change the structure of the state's lower courts.

The amendment will abolish the justice of the peace system, Dr. Outlaw said, and substitute a system of magistrates. Also, district courts will be set up.

Guests at the meeting were Jack Roberts, Fred Lewis, Grover Menden, Frank Cassiano and Thomas Noe, all of the Morehead City Rotary club. The club meets weekly at the Surfside restaurant.

Report on Drum Inlet Will Be Ready This Year

Congressman Gives Report on Projects

Wallace Channel Shoaling Under Study

Army engineers will submit a report on Drum inlet to the division engineer at Atlanta the latter part of this year, according to Col. Joseph Grygiel, district engineer, Wilmington.

In a report to congressman David Henderson, the colonel commented on this and other waterways projects in this area. Action on the Drum inlet project "will have considerable effect," Mr. Henderson said, on the future of the larger project, Waterway Connecting Pamlico Sound and Beaufort Harbor.

That project is to be reviewed to determine the feasibility of providing a 12-foot channel, boat-refuge harbors and side channels in the down east area. Revision and resubmission of the Bogue inlet and Swansboro harbor project is being considered, colonel Grygiel states. A report is being prepared that will determine whether further study is justified on a request for a side channel to Atlantic Beach.

A detailed report on a side channel from the Pamlico sound-Beaufort harbor waterway to Cedar Island bay will be completed by January.

A study of the shoaling in Wallace channel is under way. The Coast and Geodetic Survey is cooperating in measurement of tides and currents. Colonel Grygiel says, "The study, through which we hope to find a way to prevent or retard the rapid rate of shoaling will be complete in nine months."

A report, to determine whether further study is justified, is being prepared relative to a request that the channel in Beaufort harbor be increased from 12 to 15 feet.

Army engineers report that current dredging in Morehead City harbor will be complete in December 1962. Dredging of Beaufort harbor was completed in September.

The latest survey of Ocracoke inlet, the engineers say, revealed a depth of about 12 feet at low water. "With this depth available, dredging to the newly-authorized 18 feet will be delayed until next spring or fall, depending on the results of the study being made of Wallace channel," the colonel reports.

More Than 500 Go to Fish Fry

A crowd estimated at more than 500 were served fish dinners at the Business and Professional Women's club fish fry Wednesday night at the National Guard armory, Morehead City. Proceeds went to the county cancer society.

The fish fry launched the cancer crusade which will continue through this month.

Six hundred pounds of fish were cooked by Sam Adler and Tom Ballou, Morehead City, and Raymond Edwards, Newport. The potato salad was prepared by Home Demonstration club women. Restaurants and fish houses donated slaw, hush puppies and french fries.

Miss Stella Propst, chairman, expresses her appreciation to all who donated to the event. Assisting her was Miss Lyda Piner. Other members of the B&PW club served at the supper.

Chairman of the crusade is Mrs. James C. Smith.

SPA Seeks Federal Funds To Expand Morehead Port

The Month of the Turkey

This is the month the thoughts of all hungry folks turn to turkey. Mrs. Weldon Fulcher, Crab Point, with her 2½-year-old granddaughter, Susan, look over the flock of handsome turkeys on the R. P. Oglesby farm, Crab Point. Susan, the daughter of Mr. and Mrs. Earl Fulcher Jr., Camp Glenn, thinks turkeys are fine as long as they stay on the other side of the fence or are roasted golden brown on a Thanksgiving platter.

Morehead City Stores Will Stage Pre-Holidays Jubilee

JC's to Start Building Repair

Beaufort Jaycees will begin work on the old Beaufort Scout building Sunday afternoon. Donnie Dudley has been placed in charge of soliciting donations and aid from other civic clubs and individuals.

Approximately \$1,500 is needed to put the building back into shape, including a new roof. Mr. Dudley may be contacted at PA8-3147 by parties interested in helping with the building which is now known as the community civic center. Jaycees say donations will be greatly appreciated.

The Jaycees, meeting Monday night at the Duke Marine lab, expressed their thanks to the Beaufort Rescue squad and registrar U. E. Swann for participating in the voter registration. A total of 22 voters were registered by the Jaycees, Mr. Swann and the Rescue Squad.

A membership social is planned for Saturday night, Nov. 10 at the American Legion building. A Christmas dance is planned for Dec. 22, with live music and refreshments. Proceeds will go to the needy family fund. Admission will be \$5 per couple.

Firemen Put Out Oil Heater Blaze Tuesday

Beaufort firemen answered a call Tuesday to the home of Flossie Martin on Marsh street, where an oil heater had caught fire. The call went in at about 7:05 a.m., and the fire was quickly extinguished. No damage occurred, firemen said.

More than \$250 in prizes will be given away by Morehead City business firms during a city-wide jubilee Nov. 8, 9 and 10.

Twenty-one businesses are donating gifts to attract shoppers to the business section during the three-day sales spree—Morehead City Pre-Holidays Jubilee.

Shoppers can register in any of the stores taking part in the sale, without obligation to buy, and names of winners of the free prizes will be chosen Saturday, Nov. 10, at 4 p.m. on the sidewalk in front of the merchants' free parking lot on Arendell street.

The pre-holiday jubilee is being arranged by the advertising department of the Carteret County News-Times with the prize-giving event handled by Morehead City radio station WMBL.

Firms donating prizes are Dom's Lunch, Hardware and Building Supply Co., Beasley's Inc., Hill's, Morehead City Drug Co., Pyrofax Gas Corp., Robinson's Prescription shop.

Morehead City Western Auto store, Rose's, Adams Furniture, Belk's, Parker Motor Co., Leary's, Early Jewelers, Sound Chevrolet, Hardesty Motors, Piggly Wiggly, R & N Furniture Co., Dick's Tire Service, Morehead City Floral Co. and Webb's.

All downtown Morehead City business firms are invited to take part in the three-day sales extravaganza especially designed to give shoppers an opportunity to do Christmas shopping early and realize dollar-savings at the same time.

A complete list of the prizes will appear in Tuesday's paper, as well as a list of the stores that are offering shoppers this unprecedented buying opportunity.

Board Reviews Bridge Plans

Morehead City town commissioners attended a special meeting yesterday afternoon at the town hall to confer with representatives of the State Highway commission relative to plans for the proposed Morehead City bridge.

Merrill Evans, state highway commission chairman, said bids will be requested this month and reviewed at the highway commission meeting Nov. 29 at Raleigh. Estimated cost of the bridge is \$1.9 million and will require a year and a half for construction. While construction is under way, traffic will continue to use the present bridge.

Although the bridge will be situated just a short distance north of the present one, plans are being drawn to allow certain expansion of the port area overland. The state hopes to have the bridge ready by the opening of the 1964 tourist season.

Fifth of an Inch Rain Falls Here Wednesday

Rain, .21 inches of it, fell Wednesday, according to records of the Atlantic Beach weather-station. The weather remained cool, with temperatures slightly above those of last week.

Library Friends Told of Regional Set-Up, Plan Winter Cleaning Work

Attending the Friends of the Library meeting Saturday afternoon at the county public library, Beaufort, were Mrs. John Guion, chairman of the Craven-Pamlico-Carteret divisional library board, and Mrs. Elizabeth Hawkins, librarian, both of New Bern.

The visitors described the new regional library board arrangement under which Carteret was forced to come due to lack of professional librarian service here. Mrs. Hawkins will spend two days a month at the Carteret library. During the business session, Friends of the Library voted to buy

a vacuum cleaner to assist in cleaning chores at the library. Mrs. Gaston Simpson, librarian, also serves as janitor. The Friends decided that they would undertake as a winter project a thorough cleaning of the library, using their own members and hiring help to do the heavier work.

Mrs. William Nicholson presented a proposal for buying insurance on paintings which the Friends plan to display in the library from time to time. On display in the library were paintings by Mrs. M. L. Davis, Beaufort. Mrs. Jack Ward reported on the children's story hour conducted at

Project Eligible, Director Says

The State Ports Authority announced yesterday a major expansion program at Morehead City port. Costing an estimated \$2,150,000, it is anticipated that half the cost will be financed under the federal accelerated works program. Remaining funds will come from SPA sources, according to E. N. Richards, acting ports director.

Mr. Richards, who was in Morehead City yesterday, said that the SPA has received preliminary approval as to eligibility for the federal funds. Formal application is expected to be made within the next 10 days.

Because of chronic unemployment problems, Carteret has been classified by federal agencies as a "depressed area," thereby making it eligible for dollar aid from Washington.

No prediction was made as to when actual work on port expansion would begin, if the application for funds is approved. The government is, however, interested in getting money into the depressed areas quickly. Projects that can be started at once are given priority.

The work proposed at Morehead City has been on the drawing board for months. It would have been in process of construction now if voters had approved last year a \$13½ million bond issue for state ports.

The expansion consists of 1,075 linear feet of dock space to the west of the present docks on Morehead City waterfront, a new 100,000 square foot transit shed and a 90,000 square foot warehouse as well as several other small buildings needed for the efficiency of workers and convenience of customers.

Obtaining the adequate space for these improvements depends partially on getting permission from Fry Roofing Co. to fill in a waterfront area. Fry Roofing Co. adjoins the state ports property on the west. "We are confident this permission will be granted," Mr. Richards said. "The Fry firm has been most cooperative."

"It is anticipated the additional facilities will give the port of Morehead a substantial increase in traffic and consequently provide considerably more employment after completion as well as during construction," Mr. Richards added.

Relative to construction of a new highway bridge near the port, Mr. Richards said that SPA has been working closely with the highway department on bridge plans and if the highway people live up to their promises, bridge construction will not interfere with port expansion to the north, over land.

Newport PTA Plans Carnival

Newport's annual PTA carnival will be held on the school grounds Saturday, beginning at 2 p.m., announces Mrs. Mary M. Scheeler, PTA publicity chairman.

At the carnival will be games, rides and prizes. A bake sale will be held in the school cafeteria, featuring homemade cakes, pies, candies, etc. A barbecue supper will be served at \$1 per plate.

At 7:30 a variety hour will be presented in the school auditorium featuring talented members of the PTA. Admission will be 35 cents for adults and 20 cents for children.

Everyone is invited to come to the school for an afternoon of fun, a delicious supper, and an evening of entertainment.

John Reintjes, chairman of the committee on refurbishing the library, reported on installation of furnaces by the town of Beaufort, painting and cleaning. Miss Gladys Chadwick, president, presided.

Mrs. Holden Ballou and Mrs. Ward served refreshments. The Friends' next meeting will be at the library in April.
