He has a hired man who says, "Mr. Levi 's queer; he wants me to work all the time he has me hired for." Mr. Levi also has a young horse that balks. "If you would just let me take a whip to him once!" the hired man expostulated, exasperated and yet dominated by the other's point of view. Mr. Levi looked at him uneasily; stood first on one foot, and then on the other. "Ain't there nothin' else you could be doin'?" he asked, "till he gets ready to start?"

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable ompound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a and pains in both sides and such a soreness I could scarcely staighten up at times. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an opera-tion. I commenced taking Lydia E. Pinkham's Vegetable Compound and

I had a growth which the doctor said was a tumor and I never would get well unless I had an operation. A friend advised me to take Lydia E.
