**Discuss Plans For Reopening Bank.**

A mass meeting of the stockholders and depositors of the closed Citizens Bank of Yancey was held at the courthouse Saturday afternoon, when plans were discussed for reopening the bank. A representative body of the stockholders and depositors was present. Leaders in the movement said the meeting was harmonious, so much so, that as a result of the discussion they will proceed with the task of working out details for the renewal of business. No definite date can be set for the reopening, it was given out, as plans have not proceeded far enough to give any definite information.

Two other cases, involving charges of false pretense and issuing a worthless check, were nolle prossed.

Cornett entered appeals to the Supreme Court from both sentences.

### Why Not Make the Burnsville Men's Club a Success?

The regular meeting of the Men's Club of Burnsville was held in the entertainment room of the Methodist Church Monday night. A very inspiring talk was made by Solicitor J. W. Pless, Jr., of Marion, N. C. Among the business items attended to, was a plan submitted to put on a drive in the city from 50 to 75 new club members. Dr. C. M. Chandle, one of the prominent members of the organization, was selected to write an article which will appear in next week's Burnsville Eagle, outlining a plan to increase the membership and to make the club a going concern. There is no reason why the organization should not be made a decided success. There are various opportunities the club could take advantage of to assist in the upbuilding of Burnsville along civic and moral lines. A (marked) tree copy of the Eagle will be mailed next week to every citizen of Burnsville eligible for membership. This will be done at the expense of the club. The paper will contain the article referred to above. You are asked to read it and then decide to line up with the club and help make Burnsville a better and bigger town.

### Bitten Seven Times By a Mad Dog.

Assistant Game Warden Gaddy, whose duty it is to traverse the territory embraced in the Mt. Mitchell Game Refuge and see that everything goes well, had a frightful encounter with a mad dog on the reservation one day last week. The dog attacked Mr. Gaddy and before the animal could be shaken off the man was bitten seven times, it is related. The canine's head was sent to Raleigh for examination and it was determined that the dog had a bad case of the rabies. The injured man is being given proper treatment, but it has not been determined yet if he will recover. The mad dog was finally killed by another party, but not until it had bitten other dogs, it is said. As a result, the people in the extreme East end of the county are on the lookout for mad dogs and animals that show the least symptoms of rabies are either being confined or killed.

The party who told us about the above incident says he is satisfied there are more dogs in Yancey county at this time than there has been at any period within the past twenty years.

### Board of Elections.

There was only one change made in appointing the Yancey County Board of Elections. R. W. Ramsey was substituted for D. R. Fouts, the former chairman. The new Board is R. W. Ramsey, J. M. Edwards and Dr. W. B. Robertson. As is generally known, the Board of Elections in each North Carolina county is recommended by the Democratic county chairman to the State Board of Elections and the appointment is made by that body. Mr. Ramsey, the new member, is an attaché of the Board of Education office.

### County Republican Convention.

The Republicans of Yancey county held a county convention in Burnsville last Monday. The convention was called primarily for the purpose of selecting delegates to attend the Senatorial convention which will be held at Bakersville April 20th. Mitchell county will have the honor of sending the next Senator to Raleigh from the Thirtieth District, and there are three or four Mitchell gentlemen seeking the nomination. Other business transacted by the convention Monday was to elect R. S. Roland Chairman of the Yancey County Republican Executive Committee for the next two years, and Hobart Ray was elected Secretary.

### Yancey County Makes Farm Survey In April.

Of the 2039 farm operators in this county, how many are actual owners, Any way, each land owner is due to report to his tax lister the number of acres of each crop that he will probably grow in 1932.

No, this is nothing new. It has been being done since 1918. Most counties are reporting these surveys for practically all their farms. This is probably news to non-farmers.

The Federal Farm Census was secured from farm operators (mostly tenants). Our county farm survey is asked of the owners. The best information is from the owners.

More than 200,000 farm owners made reports for each of 1929, 1930 and 1931. These showed acreages that are amazingly good. The cost of these surveys is extremely little due to the Commissioners using the tax listing machinery. While considerable inconvenience is experienced by those "waiting" to list their taxables, yet the need and value of this farm "inventory" is too great for the farming interests to be overlooked.

Farmers should observe the following:

- (1) List your taxes early.
- (2) Be prepared to report each crop acreage and numbers of mature livestock.
- (3) Go prepared to "wait" your turn, if you go late in the day or on Saturdays.

U. S. taxpayers spent \$4,000 last year to record the Indian sign language, a news item says. They ought to spend about that much more and teach it to congressmen.

A colored preacher in South Georgia recently, in trying to describe the infernal place to his congregation, clinched his argument with, "Brother, it am so hot down dere dat hot melted lead tastes just like ice cream!"

### TAX SALES JUST BE HELD

Raleigh, March 29.—Sale of land for taxes must take place on the first Monday in June as provided by chapter 213, public laws of 1927, Attorney General Benjamin G. Brummitt held today's session.

The ruling clearly upholds the contention that has arisen over tax sale dates because the 1931 legislature authorized postponement of the sales last year until not later than the first Monday in November.

The attorney general pointed out that the authorization of delay contained in chapter 342 of the public laws of 1931 was limited to sales for the year 1931, and that there is nothing in the statutes authorizing postponement of sales this year.

### Call For Republican Convention—30th District.

The Republican Senatorial Convention is hereby called to meet at the Court House in the town of Bakersville, Mitchell County, on Wednesday, the 30th day of April, 1932, at 11 A. M.

The District is composed of the counties of Madison, Yancey, Avery and Mitchell. The Republicans of the counties above mentioned are requested to elect and send delegates to the above mentioned convention for the purpose of nominating a candidate for the State Senate for the said District, and transact such other business as may properly come before the Convention.

This the 28th day March, 1932.

JOHN HENDRICKS, Chm.  
Republican Ex. Committee,  
30th Senatorial District.

### Jailed For Killing His Wife.

Harrison Holt, a resident of the Meadow Fork section of Madison county, is in jail at Marshall charged with the shooting to death of his wife Friday night of last week. Holt is a man appearing to be about 40 years of age. He was arrested by Deputy Sheriff Marion Brown and brought to jail Saturday morning. The shooting is said to have occurred about 12 o'clock Friday night. The entire upper part of the woman's head was completely blown away by the load of shot from a shot gun, and powder burns indicate that the gun was at very close range. Following the lodging of Holt in jail, Sheriff Burnett, accompanied by Jerry Rice and Les Bryan, went to the place where the shooting took place to investigate, and our information is from the Sheriff and the other two men. They found the woman lying in the bed just as she had been shot. Neither eye nor ear was shot off but practically all the upper part of the head above the eyes, and ears had been blown away and scattered against the bed pillows and clothes. It was said that the youngest child, about 15 months old, was in the bed with Holt and his wife. The three other children, oldest 8 years, were sleeping in the opposite side of the room. The house was a sawmill camp about a half a mile above the Roaring Fork school-house and was very near other log camps. Holt claims the shooting was accidental. He says that he heard a noise at the window near the bed and got up and in getting his gun, it went off accidentally killing the woman. He understood the oldest child says that "Harrison" (the name the boy calls his daddy) shot his mother. He says that "Harrison" first went out of the house and then came back into the house and shot the woman. Reports are to the effect that the man and his wife had had some trouble before and that he had recently choked her, leaving the imprint of his fingers about her throat. When the Sheriff arrived, the brother of the dead woman was there, Mr. Cogdill, and he exhibited to the officers the youngest child with spots of blood about his face. He had taken into his care the four children. According to the neighbors, Holt was not a drinking man, and it is not believed he had been drinking at the time of the shooting.—Marshall News-Record.

### Tell Him Now!

If with pleasure you are viewing any work a man is doing;  
If you like him or you love him, tell him now;  
Don't withhold your approbation till the parson makes oration  
And he lies with snowy lilies o'er his brow;  
For no matter how you shout it, he won't really care about it;  
He won't know how many tear-drops you have shed;  
If you think some praise is due him, now's the time to slip it to him;  
For he cannot read his tombstone when he's dead.

### How a Dollar Bill Wanders All About.

Kinston.—A dollar can get into a lot of places in a week, the Rotary club here has discovered. It placed a \$1 bill in circulation last Monday, and kept up with its journeyings around town. A note was attached to it, asking persons who received it to spend it immediately and notify a member of the club of its whereabouts. Scores possessed the bill during the six days the note was attached.

The Salvation Army had the bill twice during the week. A single bank had at least twice. Druggists, hardware dealers, clothing and others reported having received it.

For 24 hours in the middle of the week the dollar was out of circulation. A cobbler ignored the note and kept it in his pocket until almost the last hour of paying his monthly light bill, when he turned it over to the water and light department. An official deposited it immediately in order for it to go back in circulation.

If you keep up with the Yancey news, you must take the Eagle.

### THE DUTY OF VOTERS.

The Legislature that will be selected at the primaries to be held this year will be the most important that has convened in North Carolina in a generation. Tax policies of North Carolina will be fixed by that body for weal or woe for years to come.

When this body meets it will face a deficit in the State's revenue variously estimated from \$5,000,000 to \$10,000,000, a thing unparalleled in the past. This deficit must be met and the State's budget balanced for the next biennium and a repetition of this situation forever made impossible. At the same time the McClean law must be made an actuality and if humanly possible other taxes on land must be reduced. This will add to the difficulties of the situation.

When the 15 cent tax now levied for school purposes is taken from the land this will necessitate the raising of at least \$4,000,000 additional revenue each year.

In short, the situation is as follows: North Carolina is in a serious plight. We are running behind at the rate of \$3,000,000 to \$4,000,000 each year and when the additional \$4,000,000 arising through the abolition of the 15 cent school tax is added, we will have, at the very least, \$7,000,000 of new money that must be raised if the State is to preserve its credit and continue to function. Unless this money is raised by taxation of some kind it means the loss of the State's credit and the ruin of the school system that we have so laboriously built up for the past 30 years.

Be sure that the men you send to the Legislature are willing to accomplish these things and that you send men who are incorruptible, men who will stand steadfast and men who can stand temptation in all its forms. Every man who is a candidate for the Legislature should be required to declare himself on these matters. If he refuses he is unworthy of your support. No man should be sent because he is a good fellow.

Find out whether he stands for the schools, for a selected commodity tax or for "getting the money where the money is," or both, or "other sources." If he does not agree with sound views on these matters send a man who does.—News and Observer.
