

# CANE RIVER HIGH SCHOOL

## NEWS

Mr. E. D. Wilson, Principal, wishes to thank the following people for services rendered to Cane River High School: The Holcombe Bros. Funeral Home for furnishing ambulance service for our home games; the Yancey Medical Association for having a doctor present for our ball games; Mr. J. F. Robinson for having our games broadcast on the air, Radio Station WKYK for the coverage of our games, publicity for our school activities and giving our school activities and giving our students an opportunity to participate in an afternoon program for local school special thanks to Dr. Stanley P. Urruhart for services to our athletic teams; and to the Yancey Record for the publicity we have received during this school year.

While striving to have the Youth of today think more for themselves, Mr. Wilson, declares most every week in the school year a certain important title, any student wishing to participate may write a paper on the subject of the week. At the close of the week the papers are taken and graded by a committee of teachers and the best one

chosen and given a cash prize. During "Fire Prevention Week," Donna Ogle was chosen as having the best paper and received a prize of \$5.00. As a climax to this week, a fire drill was staged.

Last week was "Health Week" and Janice Towe was chosen for having the best paper. As a climax to this, Cane River was fortunate to have a special program on cancer and lung disease. Tuesday afternoon, October 31. This program was given by Dr. Tate (M.D.) from the University of Miami. He is a specialist in these two fields.

This week is "Good Citizenship Week" and Mr. Wilson wants each student to take an inventory of himself or herself and strive to be a better school citizen. A \$5.00 cash prize will be given for the best paper. He told them that Halloween was a good opportunity to show their citizenship in every aspect; by having a good time, but not destroying private or public property.

All these different things give the students of Cane River a chance to prove their abilities and become a real part of their school.

## Cane River Science Club Takes Trip

By: Judy Phillips, Secretary  
On Thursday, Oct. 26, the Cane River Science Club went on its first scheduled trip.

The first stop was at the Bell Telephone Company. During this tour they enjoyed a lecture on the laser, its properties, origin and possible future uses. The group was also taken on a tour of the power room, engineering department and traffic department.

The club sponsor, Mrs. Cara Cox, had asked the members to make notes on the trip in order to write a short summary on each place visited. The Bell Telephone Company helped out by distributing pamphlets to the eighteen members making the trip.

After touring the Bell Telephone Company, the Club went next door to the Asheville Citizen-Times building for a guided tour. They watched the process of printing a newspaper all the way from the collecting and assembling of the news to the rolling of the paper off the press. Although this press could roll papers off at the rate of 40,000 per hour, it is slowed down to run only 10,000 to 12,000 per hour due to the fact that it is impossible to remove the papers from the press when operating at its maximum speed. The personnel of the Citizen-Times also gave members of the Club valuable information to be used in the summary of their trip.

While visiting the newspaper the Club also toured Radio Station WWNC. A highlight of the trip was a visit to the first sound-proof room in North Carolina.

The trip was voted a great success. The students not only learned a lot, but enjoyed themselves immensely. This is only the beginning of a series of trips planned by the Science Club. During the remainder of the school year it is going to visit as many places of educational and scientific interest as possible. Some of the places they plan to visit are the Gerber Company, the University of Tennessee Science Department, and the Science Department of Mars Hill College.
