Pictures Tell This Story Well

'Watch Out For Falling Rocks'

Pictures are better than words,  
the man said.

These photos show the sidewalk  
beside the new stretch of four-  
lane 64 West out of Murphy.

Evidently, somebody goofed,  
or else the engineers planned to  
either hire a sweeper or build a  
strong awning.

It's not a laughing matter, though.  
Any pedestrian foolhardy enough to  
make the walk better wear a helmet  
and armor.

Could the sidewalk have been

built on the other side of the road?  
Was this sidewalk really necessary?

The community planners could  
take a text on this mess.

We're always proud of improve-  
ments and new additions to the  
town, but we're not so sure this new  
feature is an improvement. . . at  
least not in this condition.

But the message that comes  
through most clearly is to see that  
better planning in the future will  
eliminate such errors as this one.
