BUDGET OUT OF BALANCE? ... here's sure way to solve your problem!

Budgets-out-of-balance probably cause more family arguments than almost anything else! Usually the trouble is that the amount budgeted for SAVINGS has a way of simply disappearing into the thin air. The argument then is about how or why this happened and who was responsible! The solution is as simple as this: If you would make it a practice to DEPOSIT your budgeted savings FIRST thing every payday, they couldn't disappear, and there'd be nothing to argue about. In the interests of family harmony and a growing bank account, always do your saving BEFORE you do your spending... starting very next payday!
