13-0 Victory

HAYESVILLE--The Hayesville Yellowjackets handed the winless Franklin Panthers their fifteenth defeat in as many starts Friday night on the Yellow Jacket Field.

Larry Sellers, Fleet Hayesville Halfback intercepted a pass on the Franklin 35 Yard line and went all the way to account for Hayesville's first score. The try for the extra point by Allen Moore was wide and Hayesville was a Head 6-0 at the end of the first quarter.

In the second quarter Jerry Moss broke clear of the Panther line and went Forty five yards for the Hayesville second score. This time Allen Moore's kick split the uprights and the scoring for the night was over. Hayesville has a 13 to 0 lead at the end of the first Half.

The second half of play was pretty much even with both teams trying to penetrate each others goal line, but neither team was able to do so. This victory over Franklin gives Hayesville a 2-2-1 record and they will be traveling to Andrews Friday night to face the undefeated Andrews Wildcats.

The Hayesville Backs ground out 148 yards rushing and completed on pass out of six attempts that was good for 20 yards. While the Panthers ground out 184 yards rushing but failed to complete a pass out of six attempts.

Mr. and Mrs. Willard Patterson of the Shooting Creek community announce the birth of a son Wednesday, September 23, at the Angel Hospital, Franklin.

Water And Sewer System Const. Underway In Clay

HAYESVILLE- Construction of a new water and sewer system is now well under way in the Town of Hayesville. Hobson Construction Co. of Asheville and Smith & Jones Inc. of Atlanta started work on the project, May 19th. Total cost is \$116,600.00. Of this amount \$80,290.00 was provided by a Federal Grant, \$36,310.00 is the cost to the Town of Hayesville.

Since 1959 the Mayor and the Town Board of Commissioners have discussed the town water and sewer problems, hoping to get new facilities when money was available. The Mayor and Commissioners realized that the water and sewer system were in need of extensive improvements. During this time efforts were made to obtain Federal assistance to improve these systems. The Town of Hayesville could not do this without outside help.

The present storage tank for the water system for the Town of Hayesville is 50,000 gallon capacity. The new storage tank will have a capacity of 150,000 gallons. The present tank is old and has a wooden roof that is about ready to collapse. The town has two septic tanks serving the sewerage system, one of which has been condemned by the Public Health Department and by the State Stream Sanitation Committee. The Town of Hayesville was granted a temporary permit to continue use of this condemned tank until 1965 with the agreement that a new disposal plant be constructed.

After Federal Grants became available through the Accelerated Public Works Program, the town Board of Commissioners, through the leadership and encouragement of Mayor Donald S. Weaver, hired engineers to draw plans and specifications for the improvements needed for the water and sewer systems, and also filed two applications for Federal assistance. One application was filed with the Housing and Home Finance Agency for water improvements, including a water tank, water lines and sewer collector lines. The other application was to the Public Health Service, through the State Stream Sanitation Committee for the disposal plant and interceptor sewer lines.

A bond election by the citizens of the Town of Hayesville for water and sewer bonds of \$30,000.00 was held in the Spring of 1964. The bond ordinance passed by better than 90% of those voting.

Mrs. Larry Kitchens Was Honored With Stork Shower

HAYESVILLE- Mrs. Larry Kitchens was honored with a stork shower at the Shooting Creek School, Saturday night at 7:30 p.m. The co-hostess were Mrs. June Ledford, Mrs. Madge Moss and Mrs. Shelby Jean Anderson.

Mrs. Kitchens is the former Miss Mary Jane Hogsed of Shooting Creek community.

MEMBERS of the Mobile Team of the Employment Security Commission now conducting a Labor Survey in Clay County are: (L to R) Bob Mull, Team Manager; Bob Mooneyham, Interviewer; Neil Woodard, Typist; L. C. Carlton, Office Manager; and Joe Britt, Interviewer.

ONE OF CLAY'S OLDEST CITIZENS, "Aunt Maggie" Moore (in wheel chair) was anxious to do her bit for Clay County, by registering with the Labor Survey that is now being made in Clay County. She was 95 in February and is the oldest child in a family of 10. The other lady is her sister, Mrs. C. L. Smith, better known as "Miss Nannie, or Aunt Nannie." She was 76 in August. She is the youngest member of the family. Mr. L. C. Carlton is a member of the Labor Survey Team who interviewed the two.

Over 500 Registered In Clay Co. Survey

HAYESVILLE- The Mobile Team of Employment Security Commission located in the Tiger Building in Hayesville, registered their 508th applicant for work Saturday. One hundred and forty-five people were given the General Aptitude Test Battery. According to Team Manager Bob Mull, the response of Clay County residents is good.

The purpose for registering everyone in the county sixteen years of age and up is to learn of all possible labor forces in order to attract new industry into the county. All residents of the county should register whether they are: Working and do not want to change jobs; retired and do not want work; housewives and cannot hold public employment; or unemployed and want work, either full-time or part-time. Registration can be completed in about ten minutes.

The test battery can be taken in approximately two and a half hours. The purpose of the test is to learn of the potential abilities of the county's population where industry is concerned. The results of the test will help in attracting industry to Clay County that its people could best serve, said Mull.

The oldest applicant ever to be registered with the team for work was Aunt Maggie Moore, 95, who stated she didn't want work and couldn't work, but was willing to do her part to help Clay County. Eighty-four seniors of Hayesville High

School registered and completed the aptitude test. Mull lists sixty-two people as scheduled for tests this week. Office hours are 8 A.M. to 5 P.M. Monday through Friday and 8 A.M. to 1 P.M. on Saturdays.

Two test sessions are scheduled at night.

Boat-Motor Taken At Lake Chatuge

HAYESVILLE- A boat and motor owned by Mr. and Mrs. Nelson Vanhook of Canton was stolen from the banks of Lake Chatuge Thursday night. The boat was anchored near the home of Ernie Patterson, in the Elf Community. Clifford Eller's store was broken into the same night. Only a few items of feed was taken.

The boat and motor was recovered by Sheriff Neal R. Kitchens, in the Scrogue town section on Lake Chatuge, Saturday afternoon. The Sheriff said there was evidence that another boat had pulled in at the Patterson place and oars had been used to paddle the Vanhook boat out into the lake. Both boat and motor were recovered undamaged.

Harold Norton and George Martin assisted the Sheriff in patrolling the lake and bringing the boat in.

An investigation is continuing in the Eilers Store case, the Sheriff said.

Bids were solicited and Hobson Construction Co. of Asheville, was awarded a contract to construct all the project, except for the construction of the 150,000 gallon water tank, the construction of this was awarded to Smith & Jones Inc. of Atlanta, Georgia.

The main purpose of the Accelerated Public Works Program is to alleviate unemployment. Local labor is being used in the construction of these projects, with the exception of jobs requiring training where local labor is unavailable.
