A Great Geolus. 1065

Of the hundreds of cyclists assembled around.

Equipped for the start, on that morning serene, To one all the others bowed down to

the ground,

A fellow was he of the lordliest mien-"Wherefore pay you homage unto him?" I cried,

"Of what doughty deed doth this personage biag?"

In accents of awe his admirers replied: "He knows how to use all the tools in his bag."

Baseball Notes:

The Louisville club has traded Infielder Johnson for Second Baseman Smith, of Paterson. Catcher Butler has been released.

Umpire Kelly believes that Gettman will develop into one of the best outfielders. "He lights under a ball and gobbles it up with the case and grace of an old-timer, and he can play any sunfield," says Kelly.

One of Zeke Wrigley's strong points is a quick recovery after a fumble, and these recoveries are further aided by his anappy, nervous throws, and the knack of sending the ball across the diamond without any superfluous moves, such as a leng swing and a rise to throw from a standing posture.

"I will work Mercer ageinst the Pirates again on Thu sday," said Manager Tom Brown last night. "We are playing for a respectable place in the second division, and we want to win all the games possible on the home grounds.

Ed. Hanlon may be unaware of it, but the fact still exists, burns, and thrives, that there are certain players under his charge who believe that their light is scintillating 'neath the proverbial bushel. And these players are desirous of breaking away from the bonds that makes them Orioles, and secu ing jobs as managers.

Seven strike outs was Winnie Mercer's record at fanning yesterday, and the Pilates fell to his slow ball, that tantalizing dew drop of a curve that equals in deception the lazy geroll of Eddie Beetin's or Tim Keefe's. At the same time, Winnie, on many occasions, works his. alow bender too often, especially against the Spiders and Orioles.

Tim Hurst's criticism of certain teams and their methods of playing is calculated to incur the displeasure of every player in the League, and by his remarks criticising the poor showing of t e tail-enders. . Tiny Tim is in danger of making enemies in every player an the major League.

What the Orioles know about baseball was taught them by Ed. Hanlon, and Ed. knows more about the game than he has already imparted to his apt pupils. Thus, and ergo, Orioles, beware of Ed., you among you who are desirous of

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence, to care the disease the cause must be removed, and in no other way can a cure ever be effected. Warner's SAFE Cure is established on just this principal. It realizes that 95 PER CENT.

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of
