

Have You Ever Wished Someone Would Just Go To Heaven?

The feelings may be the most difficult any of us could face. A loved one who is dealing with the final battle of life. Hoping to go on with as little pain, but more importantly, as much dignity as is humanly possible. That is what Triangle Hospice helps someone accomplish. To find peace and comfort at home with loved ones, as well as support for those left behind. But what of those who don't have anyone at home for them? How can they be helped to heaven with courage and dignity?

For them, we hope to offer a Hospice home away from home. At the Meadowlands, a beautiful and historic home, surrounded by magnificent trees and a lovely pond in nearby Hillsborough.

With your help, we can provide a place for people who would rather face death on their own terms. Not in a hospital. But in a place like home. Where family can visit. Where friends can come to say goodbye. Where a person can prepare for the final journey surrounded by love and kindness and caring.

We hope you will join us in making this dream a reality. Please call with a pledge of whatever you can afford. Or simply send your check made out to "Capital Campaign" to Triangle Hospice. And know that we will continue to make it easier for people's heavenly wishes to come true.
