

*"What Do You Think Will Happen
When You Die?"*

*"How Will You Feel When It's Your
Turn To Go?"*

*"How Do You Want to Be
Remembered?"*

Difficult questions. Or perhaps uneasy answers. But if you think about it, you'll probably realize that every day you help other people around you live better lives.

Now you have a chance to help people face death with dignity and courage and love because we'd like you to invest in a place that helps people manage pain and live well until the end.

The place is Triangle Hospice Home. It will be built on a historic site at The Meadowlands near I-40 east of Hillsborough. Surrounded by majestic trees and overlooking a pond, it will be a place that will feel like home to people with a short life expectancy.

Those who have no one to care for them at home will be able to take advantage of hospice care in a comfortable room that opens up to the beauty around Triangle Hospice Home. Their families and friends, and even their pets, can come to visit. And they can face death on their own terms, in a place filled with special care and love.

How you want to be remembered may well be a difficult question. The way we would like to remember you is for your empathy, your kindness, your generosity. Please join us in making the dream of Triangle Hospice Home a reality. Call today with your pledge. And thank you for caring.

TRIANGLE HOSPICE, INC.

1804 MLK Jr. Parkway, Suite 112, Durham, NC 27707
