CHICK OUTPUT REMAINS HIGH IN STATE

Commercial hatcheries in North Carolina produced an estimated 6,947,000 chicks during April—four per cent below output during the same month a year earlier, but 21 per cent above the 5-year (1941-45) April average, says the Federal-State Crop Reporting Service.
Production during March, 1947, was estimated at 6,066,000 chicks.
Hatchings during the first four months of 1947—January to April inclusive—amounted to 20,419,000 chicks—only slightly below the output of 20,827,000 during the first quarter of 1946.

NEW SUPER-BRIGHT LUMINOUS FISH HOOKS
At last... here are the sensational new fish hooks that actually invite fish to bite 'em and get hooked. Glo-Hooks not only hold fish after they are hooked, they really lure more fish and bigger fish to your hook. The super bright plastic compound molded on every Glo-Hook is the most highly luminous known to modern science. And it's well known that fish, as well as many other creatures of nature are attracted almost irresistibly to light.
