

White, Scouts Thanked For Cooperation

The committee which was responsible for the operation of the playground for small

children on Church street during the past summer, today expressed appreciation to those who had aided in the work. The playground was sponsored by the Red Feather as an activity of the Buncombe county community chest.

Those who were singled out for praise included C. I. McDougle and the boy scouts, E. E. White, and

the members and officials of the Methodist church. Under the direction of Mr. McDougle the boy scouts cleaned up the grounds at the start of the season and after the close last week cleaned up the grounds and put away all of the equipment. Mr. White was thanked for allowing the group to use the grounds for the project and the Methodists for their cooperat-

ion in allowing use of the building during rains and for use of the rest rooms.

The past season proved to be very successful and leaders are looking forward to an even better program next year.
