FROM YOUR GRAIN AND ROUGHAGE

Balance with
PURINA STEER FATENA

You feed cattle to make money... and the more pounds of gain you get from your grain and roughage, generally speaking, the more money you can make.

Feedlot tests prove that Purina Steer Fatena makes grain put on more pounds gain. At the Purina Research Farm it took 117 pounds less grain feed to make 100 pounds of gain than with a single protein supplement. And hundreds of cattle feeders also report top results: proof that Steer Fatena pays off in the feedlot — pays off in saving grain.

So, before you buy feed ask us about Purina Steer Fatena. It's priced right for profit!
