St. Peter's Hospital.
As there seems to be a misunder-
standing among our citizens regard-
ing St. Peter's Hospital, we are re-
quested to publish its rules for ad-
mitting patients, and also to give
some items concerning it.

The Hospital has always had room
for all applicants, and has never yet
been filled to its limit. It has beds
for eight patients down stairs, and
has two large airy up-stair rooms,
which are kept for those who are able
to pay board. Any physician who
has patients needing quiet, and good
nursing can have them admitted by
application to the President, and by
arranging with the physician in
charge, Dr. Brevard.

It is said that persons frequently
come to Charlotte for treatment, who
are unable to bear the expenses at-
tending it, or who find difficulty in
procuring proper accommodation
and nursing. If such persons would
visit the Hospital they would see how
convenient a place it is for these pur-
poses; and physicians would confer
a kindness on their patients, by re-
ferring them to it.

A trained nurse will soon be on du-
ty there, and will attend cases in the
city when not needed at the Hospi-
tal.

The rules for admission of patients
are as follows:
1. Accident cases are admitted at
any hour of the day or night with-
out permit.
2. All other patients must apply
for a permit to Mrs. Fox, President
of the board of managers.
3. All patients applying must be
examined by the Hospital physician
after obtaining permit, except in
cases of persons applying for rest and
shelter only.
4. No person suffering from any
contagious disease shall be admitted.
And no lunatic or person of unsound
mind shall be admitted.
5. No applicant for admission will
be refused on account of religious
belief or nationality.

Big Business.
As an evidence of the extent of the
wholesale business done by Char-
lotte, a CHRONICLE reporter was
yesterday showing the shipping books
of Mr. S. Wittkowsky, for the month
of August. The books show that
during that month, this house shipped
1,350 cases and bales of goods,
representing a cash value of \$65,000.
This is the largest August business
yet known in the wholesale circles of
Charlotte.

Carolina, will preach at the Associ-
ated Reformed church to-day, at 11
a. m., and 5 p. m.

A large and enthusiastic audience
was present at the Teachers' Insti-
tute Friday. The exercises were in-
tensely interesting. Prof. Corlew's

marked success. The Institute will

invited to attend.

CHRONICLE CABLEGRAMS.

ANOTHER GREAT EUROPEAN WAR PROBABLE.

Any Interference With Russia in the Balkan Question is Thought Will Precipitate a Struggle.

By Cable to the Chronicle.

LONDON, Sept. 3.-Another great European war is unappreciated, but probable, and any interference with Russia in the Balkan question, will surely precipitate the struggle. Members of the British cabinet admit that Central Asia affairs need constant attention. Russia's plan is to occupy the Afghan frontier, and to provide for the protection of the respective rights of the two countries under the treaty of 1818 has been in contempla-
tion for many months, and from that President Cleveland would have ventured to deal with the commercial side of the subject until instructed by the Senate. If, as we have no doubt it will, the report of the commission and the declaration that American fishermen cannot enter our ports for other than the four purposes specified in the convention of 1818. The United States will be more inclined to enter upon regulations of reciprocity of commercial privileges, such as was enjoyed under the lapse clause of the Washington treaty and it may be hoped that the scope of the commission will be ultimately enlarged so as to include this more important phrase of the subject.

AN IRISH MASS MEETING.
To be Held To-day-The People of Ennis Arrived from the Arbitrary Actions of the Government.

By Cable to the Chronicle.

LONDON, Sept. 3.-The great mass meeting for the purpose of discussing the policy of the government and expressing the gratitude of the Irish people to Mr. Gladstone and his cabinet for their efforts in behalf of Ireland, which, in spite of the proclamation of the Dublin execution, will be held on to-morrow (Sunday) and will be held on the hill of Ballycores within a mile of Ennis. The people in the vicinity of Ennis, for miles around have become thoroughly aroused by the arbitrary action of the government and a large number of persons who otherwise would have refrained from attending the meeting because of the distance they would have to travel and for other reasons are determined to be present. So widespread is the indignation caused by the Edict of Prohibition that the attendance will without doubt be one-third larger than it would have been had the government ignored the preparations for it and permitted the meeting to be held without interference. The English members of Parliament who will be present are determined in their purpose to test the legality of the proclamation and convince the government of its mistake, but unless the instructions which the Irish constabulary have already received are very materially modified there will be a great row, and the meeting either brought to an ignominious termination or continued in triumph after the police have been routed. The presence of the English members may avert a serious assault upon the police, but the temper of the Irish people is such that if they were left to their own impulses they would make short work of any small body of constables that might interfere with the gathering. A great many well informed persons believe, however, that the government will at the last moment reconsider its action, and permit the meeting to be held without interruption. Government stenographers will attend the meeting and take down the speeches of Mr. Cox and the other Irish orators, and will probably also take notes of the utterances of the English visitors.

A Favorable Impression.
By Cable to the Chronicle.

LONDON, September 3.-The settle-
ment of the Baltimore & Ohio deal
has made a most favorable impres-
sion on the stock board. American
stocks and bonds opened buoyant this
morning and advanced on a sharp
buying of 1 1/2 per cent. They made
a further slight advance about 1:30
p. m. on the announcement that the
Baltimore & Ohio had been engaged for
shipment to New York. A feeling of relief is ap-
parent among dealers.

Freemason Strike.

New York, Sept. 3.-The entire
force of the *Volk's Zeitung* press-room

the strike was the discharge of
F. Headman, one of their number,
whom the managers claimed was not
competent to run the press.

COMMERCIAL PRIVILEGES.

A Montreal Paper's Comment on the Fishery Commission.

By Telegram to the Chronicle.

MONTREAL, Sept. 3.-The *Gazette*,
in a long inspired article on the
fishery commission says to-day:
"The Canadian press
assume that the commission is
to determine terms upon which the
American fishermen shall be per-
mitted to enjoy our inshore fisheries
and commercial privileges in our
ports, while the United Press, jump-
ing at the same conclusion, criticizes
the report of the Washington gov-
ernment to occupy a commission ac-
cording to their political learning.
The purpose of the commission has
nothing whatever to do with the
commercial phase of the question,
from the fact that a commission is
to define three mile limit and to provide
for the protection of the respective
rights of the two countries under the
treaty of 1818 has been in contempla-
tion for many months, and from that
President Cleveland would have
ventured to deal with the commercial
side of the subject until instructed
by the Senate. If, as we have no

mission and the declaration that American

ified in the convention of 1818. The

city of commercial privileges, such

Green's Report.
By Telegram to the Chronicle.

New York, Sept. 3.-Green &
Co's report on cotton futures says:
"A pretty full business in cotton con-
tracts for Saturday is the result of
free unloading, the market showing
a decidedly better feeling. The price
of cotton advanced to 12 1/2 cents,
10 to 12 points, closing firmly at
about the lowest. This is due to dis-
appointment over the tenor of the
Liverpool accounts which come in
today, and also to a more favorable
construction of the market. The
tenor of the Liverpool accounts
suggested on a weekly review of the
outlook, the holiday on Monday also
carried some influence and led the
Longo to sell out rather than risk
carrying. The absence on stimu-
lating features."

Terrific Week by the Plains.
By Telegram to the Chronicle.

Woolworth, Texas, Sept. 3.-The
house of F. Buchanan was burned
yesterday with its contents. A
girl about five years old was burned
to death. Another about three years
cannot possibly live. One aged ten
years was recovered. Mr. Buchanan
and her arms were taken to the
hospital. The ten-year-old child was out
in the yard out of all danger, but
looking back she saw the flames surround
her little sister, three years old, and
ran back and brought her suffering
to the general hospital, where she
died to death for her bravery.
