A DEATH FROM HYDROPHOBIA

A Kegro Girl Dies in Convulsions at Steel Creek.

Dr. A. M. Herron, of Steel Creek, was in the city yesterday, and told A CHRONICLE reporter of the horrible enth, Monday morning, at one o'clock, of a negro girl, twelve years old, named Cora Herron, daughter of Anderson Herron, of Steel Creek.

The girl was bitten by a mad dog about three weeks ago. Butler's mad done was applied, but had no effect. stone was applied, but had no effect. The first symptoms of her approaching fearful death was a slight headache, which gradually increased in severity until she fell into convulsions towards the end. She drank no water, nor anything else, for two days previous to her death. If the word "water" was mentioned in her presence, she would appear to be sufficiented and gasp for breath. If a glass of water was held before he she would go into convulsions. During these she would foam at the mouth and snap with her teeth, after the fashion of a dog. Her father, a strong man, held her with her arms pinioned under his during the last three or four agonized hours of her life, until her limbs relaxed and he knew that she was dead. Drs. I. W. and A. M. Herron were present when she died, but could do nothing to relieve her sufferings.

THE PORTUNE TELLER IN LIMBO. Burton Braham Sent on to the Criminal Court Yesterday.

The negro Burton Graham, who professes to be a fortune-teller, was arraigned before Esq. Maxwell yesterday morning for stealing money from Charity Brown. The latter, who has been in Mississippi, not long ago heard that her husband had suddenly dropped dead, at Washington, N. C., leaving six helpless young children at home. Being poverty-stricken she began working her way home along the lines of railroad.

At Charlotte she worked for William ray, until Monday, when she intend-l to start out again with the money

ed to start out again with the money she had earned.

Burton Graham meeting her at the Racket store, and perceiving her to be a stranger, gained her confidence by telling her that he was going in the same direction as she, offering to purchase her ticket for her, and if her money proved insufficient, to add more to the amount from his own pocket book. [Obtaining her wages, she gave him \$1.25, afterwards adding 50 cents, and made an appointment to meet him at train time. At the time designated he did not appear. After fruitless inquiries she went to the police, who recognized Graham from the woman's description, and before long he was arrested by Officers Orr and McNelis, having spent all but 50 cents of the money.

In default of \$50 bond he was sent to jail. The woman will have to await the trial, which comes off at the August term of Criminal court, but Mr. Gray kindly offered to employ her, and Esq. Maxwell to pay for her railroad ticket.

NO WINE AT THE SACRAMENY.

A More of the W. C. T. U. of Bushie which the Clergy do not Enders.

A Bushalo dispatch to the New York Sun says: An interesting controversy has been created here by the action of the Women's Christian Temperance Union in trying to have wine at the accrament abolished. The Union believing that there is danger of the spread of intemperance at the very altar, propose to limit that danger by preventing the use of wine, and have appointed a committee to interview all the clergymen as the city on the subject. Most of the ministers here have already been interviewed. The Rev. Mr. C. J. F. Wrigley, of St. Mary's Episcopal Church, said:

"The movement is a species of crankism Move of the W. C. T. U. of Buffale

Church, said:

"The movement is a species of crankism and fanaticism with which the Episcopal Church will have nothing to do. Our Church believes in temperance in all things. The teachings of the Bibleand of the fathers go to show that the wine used at the Lord's Supper was the fermented juice of the grape. We believe the Lord's practice is a safe one to follow. If one cannot use with pradeuce he can and should refrain from usine it as a beverage. I always dilute sacramental wine about 100 per cent. I believe it is generally so diluted."

The Rev. S. S. Mitchell, of the First Presbyterian Church, said the movement was zeal begotten of ignorance, if not impertinence, and that the Saviour knew what He was doing.

The Rev. M. C. Hyde, of All Saints Church, said he would not dare use a substitute for fermented wine.

substitute for fermented wine, The Rev. Mr. Egbert, of Calvary Delaware Avenue Presbyteriau Church said he used fermented wine and should do so. Three former drunkards who had drank it at the sacrament told him it gave them no temptation. One Bap-tist and two Presbyterian ministers use unfermented wine, but almost all the other clergymen are for the real article.

The report of the Commission of post-office department officials to examine the New York postoffice recommends liberal increases in the number of clerks and carriers, larger accommodations gener-ally for the office and the service, in order to meet the demands occasioned by the great and rapid growth of the city's postoffice business, but still recommends much less increase in these directions then was urgently demanded by the late postmaster, Penrson, and the pres-ent postmaster, Van Cott.
