Shred Coconut makes excellent pies. For sale at the Progressive Grocery.

Drugs, Toilet Articles.

Bradycrotine is recommended for Headaches. Friend to friend.

WHEN WE HAVE CALLED FOR A BLOOD-PURIFIER and are asked by our customers to recommend one from the numerous patent medicines on our shelves we invariably turn to Nouridine. We do so because we have confidence in the manufacturing chemist, believing him to be competent to prepare a medicine of that character for general use. POLK MILLER & CO., Druggists, Cor. Ninth and Main sts., Richmond, Va.

Nervous debility, poor memory, diffidence, weakness, pimples, cured by Dr. Miller's Nervine. Samples free at Burwell & Dunn's.

READ THIS. We have used Mrs. Joe Person's Remedy in our family, and believe it will do everything she claims for it. It is the finest Nervine we have ever found, will quiet the nerves and give good natural sleep to those who are restless. It is a home remedy, worthy of home patronage. E. T. PIECE, News Ferry, May 24th, 1891.

LATEST FROM ENGLAND.

Six months ago we gave an order for a large lot of the finest English Tooth Brushes. That could be made, to be imported direct to us. They have arrived, and we make this proposition: For 25 cents we guarantee to sell the best brush made, and if there is a single bristle falls out we will refund the money or a new brush. We have a contract with the manufacturer to this effect: Our name on handle of each brush. JORDAN & CO., Druggists.

BURWELL & DUNN, Wholesale & Retail Druggists. Charlotte, N. C.

Keep a large stock of pure, well selected drugs, medicines, paints, etc.

Parties desiring anything in their line would do well to consult them before buying.

Men's Clothing and Furnishings

W. KAUFMAN & CO. Radical Reductions

BOYNE & BADGER, Jewelers and Opticians, Charlotte, N. C.

Drp Goods, Etc.

ONLY A FANCY PARASOL.

For some time past we have been advertising fancy parasols in THE CHRONICLE. Many of these parasols have been sold. We purchased the entire line of samples used by a traveling man for one of the large parasol manufacturers in the United States. He travelled and sold to the southern trade. He finished his trip and wished to sell his samples. We bought them at fifty cents on the dollar. Not at retail prices, remember, but at factory prices less fifty per cent. Up to this time these parasols have been sold at a profit to us. We have too many of them. The season is passing by to us, but just beginning for you to use them. Handsome parasols are expensive when you have to buy them in the regular way. Read what we are going to do with our stock. Take this parasol as an example and judge the rest by this: Manufacturers sell this handsome black polka dot Grenadine parasol at \$9. Retailer then says \$12.50 for it. Behold the contrast. Manufacturers say \$9. We say 50 cents on the dollar cash. That brings it now to \$4.50. We must make something so from now on we say \$6. Do you see the point? Five dollars buys a \$12.50 parasol. All go the same way. T. L. SEIGLE & CO.

Finance, Organs and Pianos.

"THERE IS NOTHING NEW UNDER THE SUN."

I shall not attempt to prove that this quotation is universally untrue, but as applying to the Folding table and Washstand which I have just received, in this part of the country it is in a measure an exaggeration. I am the first to put this very ornamental and useful piece of furniture on the market. In it is combined a handsome center table, a washstand with bevelled mirror, also a towel rack with every one you get. A bowl and pitcher, a receiver and soup dish. I have them in antique oak and walnut at \$27.50 each. Come and examine them. F. M. ANDREWS' The Furniture Man.

The Weather Report.

WASHINGTON, D. C., JUNE 20.—Forecast for North Carolina: Light showers; stationary temperature; southerly winds.

DR. LASH ELECTED PRESIDENT OF C. F. & Y. V. ROAD.

Great Preparations for the Guilford Battle Ground Celebration.

Special to THE CHRONICLE. GREENSBORO, N. C., June 20.—A meeting of the directors of the North State Improvement Company was held in this city yesterday and Dr. W. A. Lash, of Walnut Cove, was elected president of the C. F. & Y. V. railroad to succeed Col. Julius A. Gray. It is supposed that Dr. Lash will move to Greensboro. At this meeting a committee from Oak Ridge met the board of directors of the N. S. Imp. Co. and asked them to run a branch road from Summerville to Oak Ridge. The owners of the school property to grade the road if the railroad will lay the track. The matter was referred to the C. F. & Y. V. R. Co. with instructions to investigate and if the road will pay running expenses the matter will be brought up before the directors again.

Judge D. Schrock is making Havelock efforts to make the celebration of the battle ground on the 4th of July, one of the biggest things the State has ever seen. In an interview with the Judge a few nights ago, he declared his belief that the big man of the State and a great many from a distance would be there. The Judge deserves a great deal of praise for his untiring and unselfish devotion to the preservation or rather the resurrection of the history of our State. He was the first to conceive the idea of making a place of interest out of the battle ground and since then he has made it one of the most attractive places in the State. The following are some of the many attractions for the 4th. A grand parade composed of members of the State Guard, the Third Regiment Band, the Guilford Contingent, in continental uniform, a choir composed of the best voices in Greensboro, twenty-five mounted marshals, carriage containing speakers and important persons. One of the chief features of the day will be a grand bicycle parade under the captaincy of Geo. Fitzsimmons, who is one of the most accomplished riders in the State.

Secretary Foster on Silver.

Secretary Foster wrote a speech for the Republican convention held in the press. The following is an extract: For nearly a year since we have been buying 4,500,000 ounces of silver per month, paying for it with Treasury notes, and have with it sold 9,000,000 ounces per month until the first of July next. After that it is discretionary with the Secretary of the Treasury as to how much will be coined. Since the Allison bill of 1878 was passed, we have coined \$402,878,158, and this whole sum is now in active circulation, mainly in the form of its paper equivalent, the silver certificate. Yet our gold and silver coins and their paper representatives have been maintained at equal purchasing value, and I do not see the slightest danger, under the present policy, of not being able to continue the existing status between the two metals. At the same time it has given us the best currency that is used by any people. Our gold, our silver, our gold and silver certificates, our greenbacks and Treasury notes, are all at par with gold. With all of our silver, and with all our paper money, we are on a gold basis, and there we stay. To get \$60,000,000 of our gold, Great Britain and other European countries paid a premium to get the yellow metal from us, thus putting their own paper money at discount so far as American gold is concerned. Hence it has come to pass in England, which is a single gold standard country, American gold has been at a premium over their paper money, while the United States, with the double standard, holds its silver and paper money at par with gold. But I say to the advocates of free and unlimited coinage that there is the greatest possible danger of their policy resulting in a premium on gold and its consequent expulsion from this country, placing us on a silver basis, and on a level with India and China in this respect. To avoid such a deplorable result, conservative action must prevail.

THAT FREE MAIL DELIVERY.

A Whole Block of Stores to Go up in Winston-Salem. Special to THE CHRONICLE. WINSTON-SALEM, N. C., June 20.—The Board of Aldermen of Winston concur heartily with the resolutions adopted by the Chamber of Commerce and Tobacco Board of Trade relative to a free mail delivery system. It is thought now that the matter is a pronounced certainty.

Winston-Salem is doing a vast amount of building this year. The contract will be let in a few days for the erection of a large and handsome block of stores on Main street. Prof. W. A. Blair, President of the People's National Bank, of this city, left here tonight for Haverford, Pa. College, where he is booked to deliver an alumni address at the Commencement next Monday night. He will also remain over there on Tuesday to hear the graduating address of his youngest brother, who will be awarded the highest honor of his class. Miss Florence Sasser, of Raleigh, who has been visiting relatives in this city, left here yesterday for New York, where she was to set sail today for a visit to Europe.

A telegram was received here yesterday afternoon from Henderson stating that the baseball club which had an engagement to play a game here this afternoon could not come. The news was disappointing to our "blue boys" as well as to many citizens who were looking forward to a very interesting game. The Winston Land and Investment Company, which has made large purchases in North Wilkesboro, held an important meeting this week and issued the Hotel Gordon, and will fit it up in modern style. The company also decided to order at once a complete outfit of material for a newspaper and job office which they propose establishing now in a few weeks. Mr. and Mrs. W. T. Johnston, who have been living in Charlotte for the past year, arrived here last night to spend the summer.

SILVER ADVANCING.

DIRECTOR LEACH BOUGHT LARGELY BECAUSE OF THE APPROACHING ADVANCE.

AFFAIRS IN HAYTI.

The United States Inclined to Let Matters Take Their Course There.

WASHINGTON, D. C., June 20.—Director Leach, of the Mint Bureau, made the following statement this afternoon on the subject of silver: "The price of silver today is \$1.01, five ounces, an advance of three or four cents over the price at which silver has hung for several months. "I bought largely Wednesday and Friday, because I believed from indications that the price of silver was going up and that it was to the interest of the government to get its quota of four and one half million ounces per month at the lowest possible figure, while it is believed that considerable silver represented by certificates on New York stock exchange is held on foreign accounts, the visible stock that is, stock that is for sale has decreased and offers to the government have fallen off largely. "For this and other reasons it is thought that present advance is largely metal. Secretary has not decided yet whether he will continue the coinage of silver dollars after the first proximo, but will make a decision in that matter promptly on his return next week."

If the wheat crop of India should be as reported, it would necessitate increased shipments of silver to pay for it and this would have the tendency to increase the value of wheat. Disturbed republic is being watched with apprehension by our own government, but there is still strong belief that Haytiens will be able to restore order without outside interference.

The treasurer's statement issued this morning, but the bearing date of the 18th instant shows an overdraft of \$834,738 against which there are \$23,287,167 on deposit in the national banks and \$20,192,040, in fractional silver. Apparent deficit is \$100,000 less than appeared in yesterday's statement. The following statement was prepared in the secretary's office as showing the actual situation to date: Available cash balance June 1st, exclusive of deposits in the national banks, \$10,138,478. Receipts to June 30, \$20,072,360. Total \$30,210,838. Payments to June 30 (including \$18,813,105 for pensions) \$29,771,606, leaving an available balance June 30 of \$8,438,932.

No official information has been received here of the mooted intervention of the European powers in Haytian affairs. The fact cannot be disguised that the situation is that natural one with strong probabilities that it will be progressive. The government purchases are evidently making a decided impression on price.

As to the attitude of the United States government toward the reported contemplated concerted action of European nations, nothing can be predicted until it is definitely known what shape this action will assume. It is recognized as a fact here that the "strong" government is about the only government that can maintain order in small semi-tropical republics and that unless the ruler adopts the most vigorous repressive measures his tenure of office and reign of internal peace are apt to be of short duration.

Consequently the government of the United States is not likely to view with unmixed satisfaction, interference of European powers in Democratic affairs of our small sister republics when the conduct of their rulers is repugnant to its own ideas of fair dealing and equity. But if it should be true that the present ruler of Hayti is mentally irresponsible and has unjustly visited his wrath upon foreign residents of the country it is unlikely that the Monroe doctrine will be invoked to protect him from the consequences of his acts. It was never maintained that this doctrine set aside the fundamental right of a nation to protect its subjects from maltreatment and abuse of their property rights when residing in another country, and if the proposed European action is limited to the discharge of that duty, it is impossible that any logical protest could or would be made by the government of the United States.

THE DAMAGE OF THE FLOOD

Which Visited the Country Around Perla.

PERLA, Ill., June 20.—Additional particulars of the flood which washed out Farm Creek and Copperas Creek valleys Thursday night verify the first reports of the heavy damages. People on Fond du Lac were completely hemmed in by the angry waters, but yesterday two men from there rowed to the bridge and reached this city. Farmers for five or six miles up to the river and a mile and a half back to the hills have lost all their crops. In many places water is yet standing nine feet deep over cornfields. Along the Toledo, Peoria and Western road is a terrible scene of the wreckage. The household furniture of people in Farmdale and Hilton was all washed away. Baby carriages, wagons, dead cattle, pianos, tables and fences are piled ten feet high against the railroad trestle. The iron bridge, 300 feet long, over the mill creek, just completed, washed away and has not yet been located. In Fond du Lac Township, where two big brick yards stood Thursday, there is now ten feet of water. The loss of crops, live stock and gear will be enormous. In Limestone Township Bliss Helman was driving home when a blast of lightning killed both his horses, but he escaped.

FLAGS AT HALF MAST

On State Capitol in Respect of Ex Gov. Reid.

RALEIGH, N. C., June 20.—State flags were half mast on the capitol today as a mark of respect to the late Ex Gov. Reid. Rev. Jonathan Wood will, tomorrow morning at the Baptist Tabernacle here be ordained as minister.

THE OPEN SWITCH STORY.

Two Trains on the Illinois Central Crash Into Each Other—the Fatal Result. NEW ORLEANS, La., June 23.—A collision on the Illinois Central railroad last night near Sauve, caused by an open switch where freight train side-tracked and ran into the passenger train. Four men were killed and six severely injured. The killed were: Engineer W. D. Mitchell, Fremont John Lawson, Chas. Munn, all of McComb city, Miss.; and Bill Williams (colored) of Hammond, La. Wounded: Engineer Chas. Coran, of New Orleans, about head; Postal Clerk L. H. Binford, of Jackson, Tenn., spine breast and legs; Postal Clerk T. J. Fraser, of Trenton, Tenn., severely scalded about lower limbs, hands and face; Leon Lewis (colored) severely injured about leg, head and hands; Jim Lewis (colored) of Hammond, severely hurt about head, face and hands; Calvin Neils (colored) badly scalded about head and upper portion of body and both legs broken.

The mail train was behind time and was running very fast when the accident occurred. Some of the passengers were severely shaken up but none seriously hurt. When the passenger train passed into the open switch there was a mighty crash of two great bodies together with grinding metal, the hissing of escaping steam and pitiful shrieks of wounded men. The mail train consisted of a mail car, baggage-smoker, ladies coach and two vestibuled sleepers. The mail car ran on the top of two engines, tearing out the flooring and smashing the tin sides. The smoker was thrown off the track and the ladies coach was partially derailed. Two sleepers remained on the track and escaped serious injury. When the engine met the shock caused the freight train to break in two at the rear end, and shoved back several hundred yards. Six cars remained attached to the freight engine and were smashed to pieces. Three of them telescoped one another nearest car to engineering driven clear through the next two. There was nothing left of them but splinters.

AN IMMENSE CLAIM

Against the United States for Closing Behring Sea to Seal Catchers.

WASHINGTON, D. C., June 19.—The North American Commercial Company by its attorney today filed with the acting secretary and treasury a protest against the United States Government in preventing that company from taking the number of seals stipulated in its contract. The company presents a claim for four hundred thousand dollars loss sustained by reason of being compelled to stop taking seals on July the 20th of last year, when only one-third of the contract number of seals had been taken.

The company also gives notice that it will claim from the U. S. reimbursement for the loss sustained during the year 1891 the operation of Modus Vivendi with England recently promulgated by the President. An additional claim of \$100,000 as presented for expenditures which the company has made in providing for maintenance and education at the Islands of St. George and St. Paul, which expenditures were imposed upon the company under terms of its contract with the United States.

The protest concludes with this paragraph: If it may be assumed, as England has asserted and this Government has denied, that the eastern territory of the United States, but is "High seas" company, respectfully submits that it is not competent for Great Britain or the United States alone or for any other two governments to determine these waters or to prohibit fishing or taking seals on high seas, and the company respectfully points out to Hon. Secretary Treasury, that its rights have been overlooked by said agreement between the two governments, in that it deprives the lessee from taking seals which it is authorized to take by law and its contract with the United States, thereby inflicting severe loss upon said company in order to obtain consent of England to arbitrate the question as to the right of Canadian pelagic sealing.

FUNERAL NOTICE.

The funeral service of Jos. T. Howell will be conducted this morning from the Episcopal church at 10 o'clock. Friends and acquaintances are invited.

BYEN ABREAST WITH THE TIMES.

Charlotte is on Theme of Booming an Artillery Company.

It has been suggested by Mr. Cramer, the U. S. assayer that the new military company, form its self into an artillery company the batteries to be adopted here are light artillery firing guns like one used in Germany and France, and which are also being adopted by the naval brigades of the U. S.

They consist, as a general thing of four Gatling guns, but the best practice now is to put Gatling guns and two Hotchkiss rapid firing guns. That is considered to be the best system. The Gatling guns consist of ten breech-loading rifle barrels grouped about an axle. The gun is worked by a crank, which revolves the barrels, loads, fires and extracts empty shells all in one motion. The maximum number of shots capable of being fired in 1,200 a minute, the actual practice from one to two hundred. They have an effective range of 3,000 yards. The bullets fired are the regulation rifle bullets.

The Hotchkiss gun is a single breech loading gun, firing a projectile weighing over 8 lbs., with a velocity of 3,000 feet per second. The effective range 7,000 yards. The guns are of steel, 7 feet long, with a bore of 11 inches. There are no such batteries in the South and but few in the country, but it is the latest and best thing in military science, and as Charlotte always is always foremost in adopting new schemes, her new military company can make itself and the city famous by adopting the new system of artillery.

The batteries when properly manned, will require 60 men. All will be armed with pistol and saber. The men will not be required to walk, but will ride on the guns. A number of business men have expressed a desire to join the company if it should decide to become an artillery company, and the suggestion of Mr. Cramer is being generally and familiarly discussed.

CONVERSATION WITH CAPTAIN ALEXANDER.

He Thinks the Third Party Will Amount to Nothing in the State.

THE CHRONICLE had a brief, but pleasant conversation with Capt. Alexander, yesterday about politics. In reply to what he thought of the prospects of the new party in North Carolina, he said he heard much about it, but was not able to locate it as taking shape anywhere in the State. He felt sure that it would accomplish nothing in North Carolina. He said the comments of certain papers were calculated to irritate Alliance men. Will the 69 Congress settle the silver question? The House will pass a free coinage bill before Christmas, and it will become a law, if the Republicans in the senate do not amend by striking out the free coinage of silver of foreign countries. So the silver question is likely to figure in the next campaign.

The Captain is of the opinion that if Mr. Cleveland is nominated he cannot possibly carry the States of Virginia, North Carolina and Georgia, and may possibly lose two other Southern States. He thinks Hill is more available because he has the aid of riding astride of all questions and keeping the people in ignorance as to where he is. The West has developed no Democrat of sufficient ability for the race. Who is in the lead for speaker of the House? Mr. Springer, Crip would be chosen, but for the clamor that a Northern man should be speaker to strengthen the Democracy. Mills is over estimated. He is not a very able man. Crip is the ablest on the Democratic side. Democrats made a mistake in their conduct towards Reed at the adjournment of Congress. They will have to adopt some such course as his to carry on business.

I fear the Republicans have got us in Ohio. Campbell has a strong element here, if his own party arrayed against him. All the German element will fight him on account of his position on temperance. Most of the manufacturers in North Carolina are protectionists. The best protection speech I have heard in a time was from a prominent manufacturer and Democrat. These men are Democrats, purely from force of circumstance. It is so with this class all over the South.

BREACH OF PROMISE

Brought Against Henry Halbert by Miss Evelyn—Dismissed.

LONDON, June 20.—The Court of Appeals today refused to grant application of Miss Gladys Evelyn, a new trial of her suit against Mr. Henry Halbert. Appeal was dismissed with costs. Justice Kaywood said: "No decent woman could believe that man was going to marry her who would write such letters as those received by plaintiff." Miss Evelyn sprang to her feet and shouted: "I will bring Halbert to justice yet, and will prove him pur-jurer."

Hayti to be Held Responsible.

PARIS, June 20.—At a cabinet council held today it was decided to demand a reparation from Hayti for the shooting of M. Egard, on Corpus Christi day on the ground that he was a French subject.

The Great Anarchist Receiving Justice.

NEW YORK, June 20.—Herr Mees, the anarchist, was taken from the city prison here today and sent in the "Black Maria" with a number of other prisoners to the penitentiary to serve one year's imprisonment, the court of appeals having affirmed the decision of the lower court. Mees was sentenced yesterday.

Murderers Sent to Jail. Wilmington Messenger. LAURENBERG, N. C., June 16.—(Special)—The murderers of the man who was found dead in the woods here last Sunday morning, were sent to jail today. Darrieh David and Jerry, his son, were, as the coroner's jury believes, the guilty men—another victim of the illegal whiskey traffic. Yes, some say let us have more whiskey, which means more crime, more suffering and more sorrow.
