

# 'Lucky' Four-Ball Golfer To Win A Set Of Wheels

It's guaranteed: A car will be given away this year during the South Brunswick Islands Chamber of Commerce annual Four-Ball Champion-

ship Tournament, scheduled June 1-2.

"You know how people say they're going to give a car away for a hole-in-one and they never give it away because there's no hole-in-one," explained chamber co-director Karen Moshoures. "Well, we ARE going to give a car away."

It may not be the latest model, she continued, "but it will be something that runs." And it will be a "gag" sort of prize for the ball landing closest to the pin.

During the tournament, the fifth in the annual series begun in 1981, golfers will once again have an opportunity to play two of the Carolinas' finest courses while helping out the chamber of commerce.

There will be 18 holes played Saturday at the par-72 Carolina Shores Golf and Country Club near Calabash and 18 holes played Sunday at Oyster Bay Golf Links at Sunset Beach, a par 71 course.

Ms. Moshoures said additions to this year's program include breakfast snacks served during registration before the 8 a.m. start of play.

The \$100 per person registration fee also includes the 18 holes of play at each course, complimentary beverages daily, plus a cocktail party, dinner and social at Oyster Bay on Saturday night. Since all the money collected is used to support the not-for-profit chamber, entry fees are tax-deductible.

Daily prizes will be awarded for the ball played closest to the hole at each course (the specific hole will be announced on tournament day) and for the longest drive on each course.

Door prizes will be given away at the dinner. Trophies and prizes will be awarded to tournament winners and runners-up in the championship and three additional flights.

A four-ball match, by the way, is one in which four players compete,

with two on each side, and in which the better scorer between the two partners on one side is matched against the better scorer from the other side for each hole.

All registrations, for two-person teams or individuals, must be received at the chamber no later than May 28; play is limited to 144 people.

Interested golfers can request registration forms from the South Brunswick Island Chamber of Commerce, P.O. Box 1380, Shalotte, NC 28459, or by calling 754-6644.

"Arnold Palmer and Lee Trevino will not be here, so you will have a chance to win," quipped Ms. Moshoures.

Ernest Hewett of Supply and Charles Todd of Shalotte won the 1984 tournament, followed by runners-up Lang Rivers and Danny Williams of Augusta, Ga. In 1983, top honors went to Bob Floyd and Dirk Maust; runners-up were Cary Stoffel and Rick Cline.

DR. MULHOLLAND concentrates on a putt.

## Practice Makes Perfect

Ocean Isle Beach Golf Course professional Jim Campbell suggested a visit with the doctor. It wasn't that I was sick, just curious about what makes some people better golfers than others. Taking Jim's advice, I located Dr. J.V. Mulholland chipping golf balls to the practice green with an 8 iron.

His height and build appeared similar to that of Tom Weiskopf. And although the doctor isn't a touring professional or TV announcer of the game, his 13 handicap indicates he is also no duffer.

For almost half an hour he chipped golf balls from various distances. And, in most cases, he left himself makeable putts. He preferred not to be quoted, but it is obvious he would agree that practice makes perfect.

The doctor is from Holden Beach

and has been playing golf for more than a quarter of a century. His concentration is demonstrated when putting.

### Hole-In-One

Back in the Pro Shop, Jim Campbell told of another golfer who practices regularly or carries a rabbit's foot. Mike Nardone, from Sparta, New Jersey, scored a hole-in-one on the 179 yard long par 3, 2nd hole on March 28 while playing with friends John Zasno, DeWhite Greer and Bob Nay.

## Waters Closed To Allow Relay

Twelve acres of the Shalotte River were closed to shellfishing as of sunrise Monday by order of the N.C. Division of Marine Fisheries because polluted shellstock is being relayed into the two areas.

One area is well inside the section upriver from Carter's Landing called "the Swash," while the other is near the opening.

It is against the law to take or attempt to take, to sell or offer for sale or to possess any oysters or clams taken from the areas.

## This Week's Tide Table

# MERCURY OUTBOARDS

## THE INDUSTRY'S CORROSION PROTECTION LEADER

Inside and out. Mercury outboards are the toughest corrosion fighting outboards... anywhere. Here are the corrosion facts.

**Stainless Steel Protection**—Propeller, shaft and drive shafts exposed to water are made from high-grade aerospace-quality stainless steel.

**Phantom Black Finish**—Fourteen steps to an outer layer of protection that resists chipping and fading.

**Total Resistance**—Mercury uses non-corroding plastic and fiberglass. A special corrosion-resistant bronze prop hub insert for easy prop removal. Stainless steel bolts and fasteners.

**Streamline Design**—Castings are designed with rounded edges for the best possible paint adhesion and to reduce chipping.

Mercury outboards. To take on big water and win, see your Mercury outboard dealer.

## New Fishing Club Organizing

An organizational meeting for a proposed South Brunswick Islands Fishing Club will be held Saturday, April 6, at 3 p.m. at Ocean Isle Marina on the causeway.

Spokesman Bill English said

memberships are being solicited. All who are interested in becoming members are invited to attend.

Among other projects, the saltwater fishing club is expected to promote an artificial reef program.
