

Democrat Women Reorganize Today

Efforts to revitalize the working elements of the Brunswick County Democratic Party structure are continuing.

A reorganizational meeting of the Brunswick County Democrat Women will be held Thursday, May 23, at 7:30 p.m. in the public assembly building at the Brunswick County Government Center at Bolivia.

First Vice President Linda R. Phillips urges all interested Democrat women to attend.

Party Chairman Rex Gore said new officers will be elected and that the role the organization will play during the next several years will be discussed.

"This is a complete reorganizational meeting. There is not a functioning women's structure," said Gore. "The same thing with the Young Democrats—there is not a functioning group."

"We've got a lot of work to be done. I didn't know there was this much to

be done. I thought there were some things in place."

Supply Precinct was reorganized last week and efforts will continue over the next several weeks, Gore said, to reorganize Shallotte and Southport I as well.

Apathy in the local party apparently stems in part from the Republican Party's national successes, he suggested, though the party held even in local elections.

On Thursday, the students were entertained at a dinner at the government complex in Bolivia, open to the public, where they also spoke about their native countries.

West Students Build Better Dog House

Building technology students at West Brunswick High have literally built a better dog house.

Beginning with reading the blueprint, they estimated materials, time, cost and labor needed to complete the project, then actually constructed the dog house, a miniature of an original drawing of a salt box style house.

In the course, students get actual "hands-on" experience with electrical wiring, masonry and carpentry, under the direction of Bill Brown, instructor.

The curriculum is designed to develop skills that will help students enter the building trades in Brunswick County, which is experiencing a rapid growth rate in building and construction.
