

Petitioners Want Better Cable TV

Some Shallotte residents who receive cable television through Atlantic Telephone Membership Corp. want town officials to use their influence to get the service improved. Alderman Morris Hall recently received a petition signed by more than 100 people who live in his neighborhood, Brierwood Estates, or play golf regularly at Brierwood.

"What the petition mainly states is they want better service and they want to know what the town can do about it," Hall said, adding that one of his neighbors started the petition.

Hall said most of the cable TV customers have told him they want better service from ATMC. They want to get rid of the small "boxes" needed to receive cable, and they want more stations.

Alderman Wilton Harrelson said he would like Atlantic Telephone to

offer more channels when Hall mentioned the petition at a recent town meeting. Harrelson said he'd enjoy a station that provides news from Raleigh.

Hall said the biggest complaint he's heard about Atlantic Telephone is that the company requires customers to use cable boxes.

Without two boxes, Hall said you can't watch one station and videotape a program on another station. Also, advanced TV sets with "windows" that allow viewers to scan other stations can't be used without two boxes.

"Those are the drawbacks on the company more than anything else. The box limits you," Hall said. He said some cable companies don't require customers to use any boxes.

Hall said the cable TV issue will be discussed more in July. Town officials plan to invite Atlantic Tele-

phone cable representatives to an upcoming meeting. Shallotte's cable franchise agreement with Atlantic Telephone expires in May 1995. The town entered into the contract in 1980.
