

Mr. Clean's Green Team Is Here!

Your One Stop For

TOTAL PROPERTY CARE

HOME CLEANING

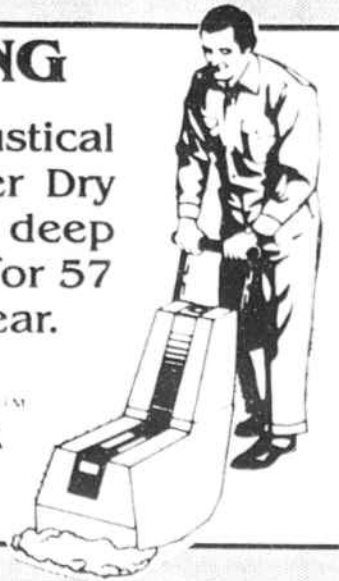

The WorkEnders Way. We do best, what you hate most. Thousands upon thousands of homes cleaned this way every week, every month—for special occasions. It is your choice. Our employees are responsible, bonded and insured. And yes, WE DO WINDOWS.

CARPET CLEANING

Upholstery cleaning, walls, acoustical tile ceilings. By the VonSchrader Dry Foam method. Total, thorough, deep down cleaning. In the business for 57 years—and getting better every year.

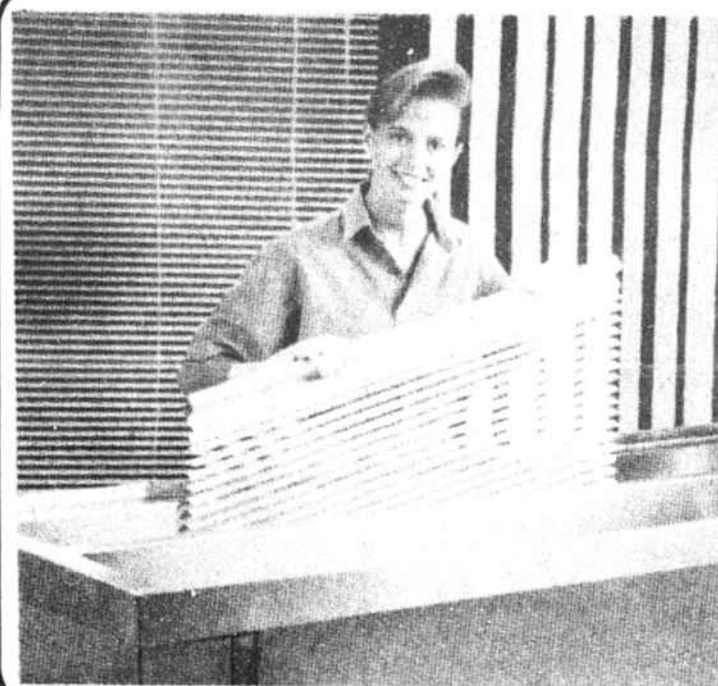

TOTAL PROPERTY CARE

"If it can be done, we will find a way to do it." For all those little jobs you have been trying to get done by yourself or others. All types of repairs and home improvements. We build right, first to last. For all your lawn and grounds maintenance. Our mowers are all mulchers. We mulch the clippings as we mow and return them to Mother Earth as fertilizer. Dead limbs, tree trimming, shrubbery. The limbs and such are run through our chipper and returned to you as mulch for your trees and shrubs.

BLIND CLEANING

Venetian, pleated, verticals. By the Shine-A-Blind Ultrasonic system. Blinds look like new again. YOU HAVE NEVER SEEN CLEANING LIKE THIS!

CHIMNEY SWEEPING AND REPAIRS

By the August West System. 17 years of quality and know how. There is none better. Home heating is the #1 cause of residential fires in the United States. Over \$400,000,000 in property losses last year, not counting the thousands of injuries and hundreds of lost lives. Most of these fires were caused by the build-up of creosote and soot in the chimneys. All were preventable. Let one of our qualified technicians clean your chimney using the latest state-of-the-art technology and equipment. Oil, gas, wood stoves and fireplaces. "We have a cure for the flue."

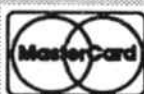

THE INSPECTORS

Home inspections. New, old, during construction. For most people the purchase of a home is the largest single investment they will ever make. KNOW WHAT YOU ARE BUYING—OR SELLING. Our inspector is a graduate of the PRI Institute of Residential Inspection. A former master builder and real estate broker—he knows construction. You receive a written on-site report covering all major areas. Roofs, exterior, foundations, plumbing, electrical HVAC systems, interiors and materials. Over 400 check points in all. We give you a written estimate of the cost of any repairs or improvements. We are uniquely qualified to provide you with peace of mind in buying or selling your home.
