Announcing New Services From

A ATLANTIC TELEPHONE MEMBERSHIP CORPORATION

TAME YOUR TELEPHONE

WITH ADVANCED CALLING SERVICES

REPEAT DIALING

End the Pain of Redialing Busy Numbers

How many times have you dialed a number only to hear a "busy" signal? So you sit there and dial again. And again. And again.

With **REPEAT DIALING**, you simply dial a code and your phone dials the last number you called. If the line is busy, **REPEAT DIALING** continues to dial until it gets through, then lets you know it has.

With **REPEAT DIALING**, you don't have to sit by the phone to keep dialing. **REPEAT DIALING** does it for you.

CALL TRACE

Tame Those Harassing Calls

Harassing, threatening or obscene telephone calls make us all feel very vulnerable. If only you could trace those calls back to the originator and report the telephone number to the police.

With **CALL TRACE**, you can. Simply dial a code after you receive a harassing call and the telephone number of the caller is printed out at the telephone company. The information can be turned over to the police for investigation.

CALL TRACE gives back your right to privacy, peace of mind and a good night's sleep.

CALL RETURN

End the Annoyance of Missed Phone Calls

How many times have you rushed to a ringing phone—dripping wet from the shower or with a path of groceries strewn behind you—only to hear dialtone?

With **CALL RETURN**, all you do is dial a code and your phone dials the number of the party who last called you. No more frantic rushes to answer the phone or wondering whether that missed call was the sweepstakes or Prince Charming.

End the annoyance of missed phone calls with **CALL RETURN**.

PRIORITY RINGING

Don't Drop Everything Whenever the Phone Rings

Everyone has people they always want to hear from: family, close friends, business associates, kids, grandchildren. But how do you know these "favorite" callers are calling *before* you answer the phone?

With **PRIORITY RINGING**, your phone rings with a distinctive pattern every time you get a call from someone on a special list that you prepare. All other calls ring the normal way.

And if you have **CALL WAITING**, you will hear a distinctive call-waiting signal when your "favorites" call when you're on the phone.

With **PRIORITY RINGING**, you'll know by the ring that it's someone you want to talk to.

PREFERRED CALL FORWARDING

Don't Leave Special Calls When You Leave Home

You're away from home for the evening. You want to make sure that your sister can reach you by phone but you don't want all those calls—solicitations, etc.—to be forwarded. How do you do it?

With **PREFERRED CALL FORWARDING**, you decide which calls follow you and which calls will ring at your regular number.

CALL SCREENING

Tame Those Unwanted Calls

Are there some calls you'd really rather not answer? With **CALL SCREENING**, you can list the specific phone numbers you do *not* wish to receive calls from. When calls from these phone numbers come in, they will be answered with a recording. And you can add the last number that called to your list even if you don't know who it was.

CALL SCREENING helps ensure your privacy.

Also available, **CALLER ID**, you can decide which calls to answer with **CALLER ID**. A special display unit attached to your phone displays the calling number.
