NOTICE OF HEARING DEPARTMENT OF ENVIRONMENT, HEALTH AND NATURAL RESOURCES

DIVISION OF ENVIRONMENTAL MANAGEMENT

Notice is hereby given of a public hearing to be held by the Department of Environment, Health and Natural Resources on behalf of the Environmental Management Commission. The hearing concerns a request for a variance from the Compliance Boundary requirements of 15A NCAC 2L.0107 for Permit Number WQ0005790; the Town of Yaupon Beach. The variance application was received for review by the Department on December 22, 1993 from the the Town of Yaupon Beach. On March 14, 1994 the Town of Yaupon Beach made a resolution request-ing a variance to meet the application requirements for public bodies in 15A NCAC .0112(0)(1).

<u>a1.0112(c)(1)</u>. The property location is as follows: Approximately 1/2 mile on the east side of State Road 1101 (Fish Factory Road); approximately 100 feet west of the Carolina Power and Light discharge canal and Dutchmans Creek. Take NC 133-87 SOUTH into Southport, North Carolina and get onto NC 133-211; follow NC 133 SOUTH (Long Beach Road) when it branches left; go approximately 2.0 miles and turn left onto State Road 1101. The facility is located on the left side of the road. The following variance is proposed with a background summary: 1) Change the compliance boundary to allow the expansion of the town's waste-material to the state and the facility is allow the expansion of the town's waste-ter the test method.

1) charge the compliance boundary to allow the expension of the town's wasterwater treatment facility. The Town of Yaupon Beach presently operates a High Rate Infiltration Wastewater Treatment and Disposal System (HRIWTDS) with a treatment capacity of 400,000 gallons per day. The effluent is discharged into a 125,000 square foot infiltration lagoon. The Town has proposed to increase the 125,000 square tool inititation lagoon. The town has proposed to increase the wastewater treatment capacity of this HRIWTDS by 100,000 galions per day increasing the total capacity to 500,000 galions per day. In order to expand this facility, the Town has proposed the addition of a new wastewater treatment facili-ty and the expansion of the infiltration lagoon by an additional 70,000 square feet. The Town of Yaupon Beach has proposed that the expansion area of the infiltra-tion lagoon be within the property boundaries of the HRIWTDS and towards the southeast due to a lack of on-site property suitable for locating wastewater treatment facilities This expansion will encroach on adjacent property owned by the Carolina Power and Light Company (CP&L). The adjacent property is situated on the banks of the CP&L discharge canal adjacent to Dutchman's Creek. Due to the proximity of the expansion area to this adjacent CP&L Property, the Town's HRI-WTDS facility will not meet the distance requirements of 15A NCAC 2L.0107(b) if the infiltration lagoon is upgraded and expanded as proposed. The Town of Yaupon Beach has secured an easement agreement with CP&L to allow access to the property adjacent to the infiltration lagoon expansion area. The variance, if granted will reduce the possibility of noncompliance with 15A

NCAC 2L .0202 at the Compliance Boundary. This hearing will conform to procedures in 15A NCAC 2L .0113. The hearing will be held as follows

Yaupon Beach

June 23, 1994, 7:00 PM - Fellowship Hall Ocean View United Methodist Church, 606 Yaupon Drive Oral comments to this proposed variance may be made during the hearing, or written statements may be submitted to the agency by July 25, 1994. Written copies of oral statements exceeding three minutes are requested. Oral statements may be limited at the discretion of the hearing officers
