

Per-Co-Hi Tattler

The Class of '45 entertained the class of '44 at a banquet on Thursday, May 20. The decorations were red, white and blue, carrying out the patriotic motif. The orchestra from Harvey Point furnished music for the banquet as well as played for the Junior-Senior dance at Walker's after the banquet.

The Rotary Club entertained the girls' and boys' basketball teams at a banquet Tuesday, April 18, in the economics rooms. Small gold basketballs were given to the members of the boys' team who were winners in the tournament held at Central High School at the end of the basketball season.

Hearing tests were given to all C. H. S. students on Wednesday and Thursday, April 19-20.

The baseball team of P. C. H. S. traveled to Harvey Point on Saturday and lost the first game of the season, 18-0. Our boys brought back glowing accounts of the Naval base and their trip.

Chaplain Sanders of Harvey Point spoke in chapel to the student body on Monday, April 24, on the topic, "Friendship." Ruth Tucker and Peggy Felton (10-A) sang a duet, "I Would Be True." Curtis Wilson (10-A) read Psalm 15, and Marjorie Rebecca White (10-A) was in charge of the program.

Two of our pupils passed the physical tests at Fort Bragg last week: Carl Winslow (10-B) and Lloyd Bagley (11-A). Carl will be in the Army and Lloyd will be in the Navy. (Charlie Skinner, 11-A, just wishes he were old enough to get in the Marines).

The Seniors, on Friday, voted for their superlatives—watch for the winners in this column next week.

Boys in the Monogram Club are sporting new navy blue coats, with an emblem of an Indian on the back of the coats. Individual names or nicknames were woven over the left pockets. Do you know the nicknames of Monogram Club members, "Butterbean" and "Skeeter"?

Robert Morgan, who is in the Merchant Marine and has just returned from Italy, visited our school last week. "Pinky" Trueblood, U. S. A., who is stationed in Alabama, also paid us a visit. Sgt. George Fields, Louisiana, and Cpl. Douglas Elliott, of Camp Davis, were at P. C. S. last week, too.

MRS. WOOD ENTERTAINS WOODLAND SOCIETY

The Woman's Society of Christian Service of Woodland Church met on Wednesday afternoon at the home of Mrs. Elmer Wood. The president, Mrs. Earl Hollowell, called the meeting to order and "Come Thou Almighty King" was used as the opening hymn.

Mrs. Elmer Wood had charge of the program and read the 55th chapter of Isaiah, after which she offered prayer. The roll was called and the minutes of the previous meeting were read and approved. A short business session was held, after which Mrs. Ernest Cartwright gave the Spiritual Life program for the month. Sentence prayers were offered by all present, and Mrs. Hollowell offered the closing prayer.

"Take My Life and Let It Be" was sung, after which Mrs. Jack Benton and Mrs. Hollowell gave the remainder of the Study Book "God and the Problem of Suffering," which was very interesting. Mrs. Hollowell then offered the prayer of dismissal.

The May meeting will be held at the home of Mrs. Harry Winslow.

The hostess served ice cream and cake to the following: Mesdames Odell Cartwright, John Elmer Wood, Jr., W. M. Mathews, Ralph Harrell, Jack Benton, Earl Hollowell, Ernest Cartwright, Dennis Cartwright, J. W. Overton, E. D. Mathews, Beulah Williams, George Jordan, Ashby Jordan and Elmer Wood.

TAYLOR THEATRE

EDENTON, N. C.
"WE HAVE THE SHOWS"

Friday, May 5—
Eddie Bracken and Betty Hutton in
"THE MIRACLE OF MORGAN'S CREEK"

Saturday, May 6—
Russell "Lucky" Hayden and
Fuzzy Knight in
"FRONTIER LAW"
Chapter No. 3 "Tiger Woman"
Comedy — Cartoon

Sunday, May 7—
Shows 2:30, 4:15 and 9:15
Ann Sothern, Margaret Sullivan,
Joan Blondell and Fay Bainter in
"CRY HAVOC"

Monday-Tuesday, May 8-9—
Anne Baxter and Thomas Mitchell
— in —
"THE SULLIVANS"

Wednesday, May 10—Bargain Day
Joan Davis and John Hubbard in
"BEAUTIFUL BUT BROKE"
"Adventures of Flying
Cadets" No. 4

Coming Thursday-Friday,
May 11-12—
Kathryn Grayson and
Gene Kelly in
"THOUSANDS CHEER"

Minerals Needed In Poultry Diet

Minerals are of vital importance in the poultry diet because 8 to 10 per cent of the live weight of the fowl and 10 per cent of the weight of the whole egg is made up of minerals, says Prof. Roy S. Dearstyne, head of the poultry department at State College.

"Poultrymen using a quality mash, prepared by a reputable feed concern, have little to worry about in meeting the mineral requirements of their birds," says Dearstyne. "However, those who are home-mixing feeds and purchasing ingredients in the open market should give careful consideration to a complete mineral balance in the poultry feed."

He points out that calcium and phosphate are needed for bone building, and additional calcium for egg shells and clotting of the blood. Sodium is needed for the elimination of the excess potassium contained in most poultry feeds. Chlorine is a constituent of hydrochloric acid secreted by the bird and necessary for the preparation of proteins for digestion.

Iodine is necessary for proper thyroid functioning. Sulphur is found in relatively high amounts in the feathers and eggs. Manganese is present in the blood and tissue, and is necessary to prevent slipped tendons, according to Dearstyne. Iron and copper are important constituents of the blood and enter into the eggs.

"Poultrymen should expect a decrease in calcification of egg shells in spring as birds are going out of production. Unless thin shelled eggs are found on a large scale, the diet should not be blamed for the condition," Dearstyne says.

PINEY WOODS NEWS

E. N. Chappell returned home on Monday from Lake View Hospital, Suffolk, Va., after undergoing an operation last week.

Mrs. W. P. Chappell is improving after an attack of pneumonia.

The Rev. and Mrs. R. H. Milliken of Belvidere; Mrs. J. T. Chappell; Mrs. Luther Chappell and daughter, Doris Faye; Mrs. Shelton Chappell; Mrs. Louis Winslow and daughter, Lois Violet; Mrs. C. V. Ward, C. C. Chappell, Mr. and Mrs. W. D. Perry and son, Dewey, Jr.; Miss Maggie Chappell; Mrs. E. N. Chappell and son, Thomas; visited Mrs. W. W. Chappell, who remains very ill, last week.

Miss Mary Lina Raper spent last Thursday night with her sister, Mrs. Marvin Lee Simpson, in Hertford.

Mrs. Shelton Chappell visited Mrs. Ida White Sunday afternoon.

Mrs. Anna Lane is spending some time with her sister, Mrs. W. P. Chappell.

Tests Reveal Early Planted Grain Best

Experiment Station and field tests in North Carolina show that the early planting of small grains and the use of fertilizer at planting, except where grains follow heavily fertilized crops, are necessary in providing a good winter cover and producing high yields, says W. H. Rankin, in charge of small grain fertility work for the Experiment Station at State College.

Fifteen field meetings will be held about the middle of May and farmers will be given the opportunity of studying the results of fertilization, varieties, and other factors in small grain production.

There are two official tests in each of the following counties: Stanley, Rowan, Davie and Guilford. Others are located in Hoke, Moore, Anson, Cleveland, Iredell, Wake and Johnston counties. Farmers will find announcements of the meetings appearing in the press.

"In spite of the fact that later planted grains have come through the winter in good condition and made exceptionally fine growth, still the early planted grains and those receiving fertilizer at planting are showing decided gains," Rankin reports.

Many farmers count on selling the majority of their tobacco and finishing the picking of cotton before they turn to the sowing of small grains, or even the preparation of the land for the crops. This throws the crop late and results in lower yields.

Rankin suggests that farmers plan along in July and August as to which fields will be put into grain and work out plans for breaking the land and seeding the crop at a relatively early date. This practice will also help to give better fall and spring grazing, especially when it is combined with adequate fertilization at planting.

FELLOWSHIP GROUP MEETS

The Youth Fellowship Group of the Winfall Methodist Church met on Monday evening, April 24, at the church. Harriet Lou Layden, president, called the meeting to order. The program opened with all singing "Jesus Calls Us." Lena Mae Sawyer led the devotional. The Rev. J. D. Cranford gave the Bible story. "Have Thine Own Way, Lord," was sung and Stephen Elmore, who was in charge of the program, gave a reading, "A Wedding in Budapest, Rumania." Dorothy Faye White and Harriet Lou Layden rendered a duet, "Ivory Palaces."

The "Kingdom Is Coming" was the last song and the meeting closed by all repeating the League Benediction.

11 to 1
"How do you afford such long vacations?"
"Easily. One month on the sands and eleven on the rocks."

Steel Replacing Wood

Lumber and paper used in packing have become such critical items in connection with war use that the Army Ordnance Department will ship loaded artillery shells abroad in steel tubes.

The quantity of steel that will be used to provide these tubes is enormous. It is estimated, in some quarters, that about seven million tons of steel will be required. This is more than the automobile industry used in 1941.

The farmers of this section who have been urged to provide pulpwood, will readily see from this announcement that there is a great need for their continued exertions along this line. The pulpwood campaign is not based upon imaginary needs or to provide newsprint. It is a vital raw material of warfare and every farmer who makes it his business to provide pulpwood contributes to relieving a serious shortage.

JOE AND BILL'S
Official Tire
Inspection Station

Bring your car in today for a careful inspection of your tires. It is important you care for your tires. Our service is the best.

If you need new tires . . . and have the proper certificate . . . we can supply you tires.

6700 CARS

WILL BE JUNKED

TOMORROW!

Tomorrow and the next day and the next 6700 cars will wear out and have to be junked. Will your aging car be one of them? It may be unless you give it all the care it needs.

Right now that care should include changing over winter-grade lubricants to lubricants of summer grade. All key parts should be serviced to save wear. To do that job in the way your car manufacturer recommends, Sinclair Dealers offer Sinclair-ize for Summer Service. Have your car Sinclair-ized now.

Naturally you want
NATURAL SODA

The Natural Side Dresser

Over 500,000 tons of Chilean Soda have been brought in for this year's crops. More is expected in time for side dressing, but there are distribution complications. The War Production Board and the War Food Administration control distribution of all nitrogen supplies under an allocation program. Principally, this program takes into account three things: (1) total supply of nitrogen products; (2) their respective locations and capacities; (3) crop requirements. So, if Chilean Soda happens to be scarce in your section, it is a war-time dislocation, a temporary scarcity.

If you haven't been able to get the Chilean Soda you need for top dressing and side dressing, don't blame your fertilizer man. Put the blame where it belongs . . . on Hitler and Hirohito.

A vast supply of natural soda is right where nature put it—in Chile. Large quantities are ready for shipment. Every possible ton of this vital material is being brought here in time for this year's crops.
