FUEL OIL—Period 4 and 5 coupons, good through September 30. New Period 1 coupons now good.

SHOES—Airplane stamps 1 and 2, good indefinitely.

OPA Changes Point Values
No more ration points for utility grades of beef and lamb will be required through September 2, and for the same period point-values have been restored on pork loins, pork hams and canned fish, the Office of Price Administration has announced. Cheeses were increased from two to four points a pound and farm or country butter from 8 to 12 points a pound.

Laundry Stoves Unrationed
Ration restrictions have been removed from coal-wood laundry stoves and gas ranges with non-metallic outside back or side panels, OPA reports. The adequate supply of the small, flat-top laundry stoves, usually made of cast iron and used in many homes for laundry and auxiliary heating, made possible removal of rationing restrictions on these stoves.

Your Motor "Pings" for Victory
If your motor car engine "pings" a bit when you go up a hill or accelerate rapidly, just remember that the tetraethyl lead you and other civilians might have had in your gasoline is helping to produce each month an extra 210 million gallons of 100-octane aviation gasoline for military use, according to the Petroleum Administration for War.

Rural Homes Need Better Water
More than five million rural homes need new or improved water supplies, according to the current issue of

Public Health Reports. A like number of rural homes need sanitary privies. The Public Health Service says that 846,148 rural homes are entirely without toilet facilities. A total of 1,530,097 rural homes are without a water supply within 50 feet, and the water supplies of an additional 3,763,903 homes have sanitary defects. Public Health Service sanitary engineers estimated that it would cost \$265,000,000 to provide safe water supplies for the rural homes that need them.

OPA Cannot Use U. S. Grades
A rider to the OPA appropriation bill which prevents use of U. S. grades established by the Department of Agriculture in connection with price control of any canned fruits and vegetables will make OPA's enforcement job harder, according to Price Administrator Crester Bowles, but, he said, "we propose to use our utmost efforts to secure compliance in this difficult field."

Sees Threat to German Industry
The Polish territories so far conquered by the Russians are chiefly agricultural, Leo T. Crowley, Foreign Economic Administrator, said in a statement explaining the economic importance of the Polish areas still under German domination. German loss of the largest part of the District of Galicia, Central Poland, Polish Silesia and the northwestern provinces of Poznan and Pomorze would help the Allies in three ways: 1, It would deprive Germany of coal, iron, oil, timber, zinc and such important war industries as iron and steel, engineering and oil refining; 2, It would deprive her of a large source of war labor; 3, It would deprive her of an area hitherto comparatively free from Allied bombing in which she had been developing new war industries.

"Bravery Alone Is Not Enough"
"Bravery alone is not enough to win battles," declared General A. A. Vandergrift, Commandant of the Marine Corps, in urging youths of pre-military age to return to high school this fall. "To have bravery without knowledge is to be only half prepared. If you have been employed in the factory or on the farm this summer—you should plan to go back to high school this fall. We in the Marine Corps feel you can best serve your nation and your fellow men at school, now, building the sound mind in the sound body."

JOE AND BILL'S SERVICE STATION

"Where Service Is A Pleasure"

W. H. WHITE, Prop. PHONE 8601

September 15 to October 15 has been named "Christmas Mailing Month" by the Army and Navy, which this year have 33,000 uniformed men and women in their postal services to handle an estimated 70 million Christmas presents—three times as many as last year, the Office of War Information says. Packages mailed during "Christmas Mailing Month" should reach their destination by Christmas day. Packages should weigh no more than five pounds and have combined length, width and depth of not more than 36 inches.

Round-up
OPA announces: Mark-ups ranging from \$3.50 to \$8 a hundred pounds for quality cleaned grass and legume seeds when sold by the farmer-producer to a planter—Maximum prices to be established on cabbage sold by growers on the average will cause no increases in retail ceilings—Maternity dresses that will retail for \$1.98 and \$2 and slips that will retail for \$1.05 and \$1.15 have been added to the list of garments in the low-priced garments that meet WPB specifications.

WFA says: When you get a basket containing fruit or vegetables, give the empty basket back to the peddler or groceryman from whom it came so that he can send it on its way to the farmers, who this year will have to send part if not all of their crop to market in used containers—Almost none of 800 housewives interviewed in one survey started working members of their families off with a well balanced breakfast, the needed fruit or cereal generally being missing.

WPB says: Only in extreme emergencies such as damage caused to dwellings by fire, flood, tornado, earthquake, storm or similar catastrophe, may home owners get preference ratings from their nearest Federal Housing Administration field office to obtain lumber for repair work—In no month have waste paper collections met the goal set by WPB, and the drive is 450,000 tons short of its 1944 objective.

PINEY WOODS NEWS
Guests in the home of Mr. and Mrs. Louis Winslow on Monday were Mr. and Mrs. Harry Wilson, of Norfolk, Va.; Mrs. Noah Winslow and children, Chester and Ruth, of Gates.

NEW AVIATION GASOLINE UNITS of most modern design at Sinclair refineries, are now producing 100-octane gasoline. Sinclair's output of this vital fuel runs into thousands of barrels a day.

TO BACK OUR BOYS in the Army, Navy and Coast Guard, Sinclair is also producing vast quantities of fuel oil for battleships, lubricating oil for planes, tanks and jeeps, toluene for bombs and butylene for synthetic rubber.

SINCLAIR DEALERS have a war job, too. Four out of five workers use private cars to get to their jobs. Sinclair Dealers are giving these cars the kind of service they need to keep running. Let the Sinclair Dealer care for your car, too.
