Local motorists will be affected by this order and the procedure for obtaining the new books will be announced shortly by the local ration

Series A-12 coupons now in the hands of local motorists will not be used. # THIS WEEK'S HEADLINES

Allied headquarters had not, up to Wednesday, made an announcement following the German claim that heim area had been liquidated. However, reports were that American British airborne troops in the Arntransport planes were rushing men and supplies into that sector, after two weeks of hard fighting. The Nazis have resisted stubbornly at this northern end of the West Wall, but indications were that the British Second Army was gradually breaking through the Seigfreid line into Ger-

All along the rest of the Western front the American First, Third and Seventh Armies were reported making small gains against strongly held German forts. General Eisenhower, this week, called upon the 12 million slave laborers inside Germany to rebel against the Nazis, telling them how to use weapons at their disposal. Some authorities report that the Germans are evidently making that last stand at the West Wall, which separates Germany from France and

The Russians, according to Moscow, have all but regained most of the Baltic area. Three big Russian armies are reported converging upon the city of Riga, capital of Latvia, in an attempt to conclude the Baltic fighting. Russian ships were reported to have steamed into the Baltic Sea during the past week and born barded Nazi installations on islands located there.

In the Pacific Admiral Halsey's Third Fleet took a terrific toll of Jap ships and planes in a smash at Ma-nils in the Philippines. One hundred three Jap ships were reported sunk or damaged and 405 enemy planes were destroyed. Fighting on Pelelio Island continued as reports announce U. S. Marines have trapped Jap troops into two pockets. Fighting is reported there as diminishing.

### **ACA Obtains Lumber Priority For Repair Damaged Buildings**

### Applications Must Be Made By Saturday; Storm Loss Grows

Perquimans County farmers, who had farm dwellings or other farm buildings destroyed in the storm two weeks and, may obtain priority for lumber to repair or rebuild the buildings, provided they make application at the AAA offer in Hertford on or before Saturday, September 30, W. E. White, eccetary of the County Agricultural Conservation Associa

He also stated that applications for the lumber will be accepted only from those who acsuffered damage from the

Farmers who need this lumber for repairs, but who, at the present time, do not have time nor sufficient labor to carry out the repairs may apply for lumber and leave their priority with lumber mills for later delivery.

It was also announced that farm ers who have dwellings or other buildings in need of repair, or any new construction costing less than one thousand dollars, which is necessary to take care of their farm products, may also make application for the necessary lumber not later than this Saturday.

Additional surveys last week have shown that property and crop damage from the storm, here in Perquimans County, is greater than first estimated. It is now estimated that loss to both property and crops will run between three and four hundred thousand dollars. A number of Hertford residents also suffered considerable damage to their cottages at Nags Head.
