FRIDAY, FEBRUARY 8, 1946.

Indians Win Fourth Straight Victory
 Continued From Page One

The Indians opened the game by scoring two goals in the first minute and hit again to hold a six to nothing lead. The Chowan boys came back to tally five points, while most of the Indians were collecting fouls. Coach Max Campbell replaced Wood and Berry with Elliott and Layden. During the second quarter the Indians rolled up 14 points while holding Chowan scoreless. Coach Campbell substituted his reserves into the game during the third period and these players continued to pile up points. The score at the end of the third canto was 28 to 10 for Perquimans. In the final period the Indians did more fine shooting and scored 16 points. Webb, Tucker, Elliott and Berry were chief point getters for Perquimans. The Indians counted for 18 field goals and 8 foul tosses to score their points while Chowan hit only three field goals and nine foul tosses.

In the preliminary game the Indian Squaws were victorious over the Chowan girls, winning by a 22 to 8 score. The entire Squaw squad played during the game and each gave an excellent account for herself while in the game. The Squaws opened by scoring first and continued to hold a lead throughout the game. At half time the local girls were leading 13 to 3.

Indian Squaws Win From Columbia Girls

The Indian Squaws continued to hold their first place in the rural conference girls basketball league by downing the Columbia girls in their game last Friday. The final score was 42 to 21.

The Squaws gained a 10-2 lead during the first period and the outcome of the game was never in doubt. The local girls continued to roll up points at the expense of the visitors and Coach Anne Garris, giving the younger players experience, used her entire squad during the game.

The score at half time was 23 to 11 in favor of Perquimans and during the second half the reserves for Perquimans gave a good account of themselves by scoring an additional 19 points to make the Perquimans total 42. The Columbia girls counted for ten points in the second half.

CIRCLE NO. 4 MEET

Circle No. 4 of the Hertford Baptist church met Monday evening with Mrs. Tom Mardre at her home. The Chairman Mrs. Mardre presided. The meeting opened with a hymn, "We've A Story To Tell To The Nation." The roll was called and minutes read and approved. There were 11 members and 4 visitors present.

Mrs. Tom Perry was in charge of a very interesting program and lead in the opening prayer. Mrs. Will Mardre gave the devotional.

Mrs. Young Berry, Mrs. Colon Jackson and Miss Nettie Lee Gregory were enrolled as new members. A hymn, "Revive Us Again" was then sung.

Mrs. I. A. Ward gave a very splendid talk, her subject being, "Sign of Spiritual Awakening." The meeting was closed with a song and a prayer. The hostess served delicious ice cream and cake.

BURGESS CLUB MEETS

The Burgess Home Demonstration Club met Wednesday afternoon at the home of Mrs. J. B. Basnight.

The meeting was called to order by the new president, Mrs. Josiah Proctor.

Mr. Nesbit gave an interesting explanation of the locker plant now being planned to be built in Hertford in the near future.

Minutes of the last meeting were read and the roll called by the newly appointed secretary, Mrs. Tommie Mathews.

Dues for the members were collected and a donation made to the March of Dimes. Year books were distributed and filled out.

A birthday fund was begun to remember each member with a gift at her birthday.

Miss Maness gave an interesting discussion on "Blood Building Foods" and demonstrated baked creamy omelet and frozen corn.

Mrs. Sidney Layden was the winner of the prize in a tree contest.

Those present were Mrs. Winston Lane, Mrs. Josiah Proctor, Mrs. J. B. Basnight, Mrs. Arthur Copeland, Mrs. H. S. Davenport, Lellah Overton, Miss Francis Maness and Mrs. Sidney Layden. The hostess served a salad course.

discharged or returning home on April 30th and that the same would be true on June 30th for two-year-men. He seems to be somewhat pessimistic about getting enough volunteers to meet the responsibilities and commitments given to the Army in foreign countries.

The complex task of occupation requires the patrol of 2,000 miles of Germany and Austria, the force to prevent renewal of resistance and men to guard billions of dollars worth of property in all parts of the world.

We have doubts whether the Army will be able to get the volunteers necessary to maintain its strength at 1,500,000 men. If the volunteer system fails, the nation has the choice of continuing the Selective Service or of abandoning obligations that arise out of victory in Europe and in the Far East.

Bread Prices And The OPA

Reports coming out of Washington indicate that strong pressure is being applied on congress, by interested lobbyists, in an effort to permit the law under which the Office of Price Administration operated to die a natural death on June 30.

These lobbyists are being paid to live in Washington and to apply this pressure on congress by certain people and parties who would like to see this nation undergo inflation.

We believe that now, five months before the present law expires, is the time for the people of this nation to let congress know the desire of the majority. We can not conceive that the average American, and there are far more of them and any other type, wants to see uncontrolled prices in this country.

We believe that far too little thought is expended by the average American on such matters, and still less time spent in letting representatives in Washington know what the majority wants.

It is our belief that if this law is not extended by Congressional action, and prices are left to be set by manufacturers, wholesalers as well as retailers, according to prevailing conditions, that many of us will find the costs of living a prohibitive situation.

Bread for instance is called the staff of life, and goodness knows it's used by every human at almost every meal, but how many Americans would find themselves financially able to use bread along with other necessities if the price of a loaf of bread should rise to say 50 cents per loaf. Of course, that seems like a ridiculous figure, when now we pay only a few cents for the item, but multiply that increase, in proportion, to the prices you pay for other foodstuffs, you can quickly see that your daily bread could be a costly item.

The time has come for us to realize that the OPA was more than a wartime bureau that said when we could and could not have a tire, a gallon of gas, or a pound of sugar. It was, and is, an organization which is protecting all of us by the control of prices. It is true that costs of living have risen during the past three years, even with OPA, but the increase has not been as great as it might have been had we not had price control.

Prices throughout the world, even in countries allied with the U. S. during the war, have gone sky high and the average individuals are finding it very difficult, in those countries, to provide themselves and families with even the bare essentials of life.

We urge our readers to think this situation through and then to write the representatives in the congress to vote to keep price control in effect, so long as the danger of wild cat inflation is a menace to the country.

It would mean the different of eating bread and not eating bread.

May Ease Strike Situation

The United Automobile Workers Union, which demanded a 30 per cent wage increase, has settled with Ford and Chrysler for 15.1 and 16.2 per cent, respectively.

This represents a major contribution to the early end of industrial disputes and eases the tension considerably. It is likely that the example will be followed elsewhere and that many big plants will get back to production.

The settlement refutes the assertion of labor leaders that big business is in a conspiracy to destroy unions. Obviously, this is not tenable in regard to the Ford and Chrysler companies.

Eisenhower Warns Nation

General Dwight D. Eisenhower, Chief of Staff, says that the Army intends to discharge every eligible soldier by next June 30th and if it is left short of the 1,500,000 men needed on that date, the policy-making agencies of the Government will have to decide what vital function, now assigned to the Army, will be dropped.

The Commander of our forces during the war in Europe says that men with thirty months of service will be

OPA Director Clears Misapprehension As To Ceiling On Cotton

To avoid some misapprehension among cotton growers, resulting from an apparent misunderstanding of proposed ceiling prices for 1946 cotton crop, Theodore S. Johnson, State OPA director, has clarified several points.

Johnson quoted Chester Bowles, OPA administrator, as saying that the proposed ceilings in the advance notice represent the legal minimum levels at which ceilings would be established if it became necessary later. The prices in the notice are the lowest ceiling prices that can be established, not the highest, he added.

Pointing out that the advance notice is only legal action required to be taken 15 days before the normal planting of a crop, Johnson quoted Mr. Bowles as saying, "It is sincerely hoped that a program of ceiling prices will be unnecessary after the beginning of the 1946 marketing year. If it becomes evident that the price of cotton is becoming stabilized because of improvement in supply or other reasons, no ceiling will be imposed."

More Pulpwood Needed In 1946 To Meet Goals

A further increase of nearly 1,000,000 acres in 1946 crop goals, recently approved by Secretary of Agriculture Clinton Anderson, were pointed to this week by the Perquimans Victory Pulpwood Committee as evidence of the enlarged national demand that will be made this year for paper, paperboard and other pulpwood products.

The new and final goal set by the Department of Agriculture calls for 296,011,000 acres to be planted with various cultivated crops. This compares with an earlier tentative figure for 1946 of 295,087,300 acres, and with 286,831,900 acres planted last year.

"With demands for food holding at peak levels," the committee declared, "the additional pulpwood needed just to supply the cartons, containers and other forms of packaging necessary to handle the nation's increased produce will soar into thousands of cords."

"And this does not take into account the greatly expanded demands by manufacturers other than food processors for pulpwood products, nor does it take into account the growing use of pulpwood in the manufacture of rayon, staple fiber textiles and plastics," the committee said.

"Farmers have pointed the way toward a full, balanced production," Mr. Anderson was quoted as saying. "They are ready to do their part in using the great productive capacity of America to achieve the high standard of living of which we are capable."

With more pulpwood production needed in 1946 than ever before in the nation's history if these living standards are to become an actuality, the committee stressed the importance of the recruitment program currently being conducted by the pulp and paper industry and the United States Employment Service to secure new workers in woods and mill jobs, and also emphasized the urgent need by mills in this area for more top quality pulpwood now.

SOCIETY MEETING

The Y. W. A. Society of the Bethel Baptist church met Friday night, January 25th with Miss Evelyn Long at her home with eight present. The meeting was opened with a hymn, "Come Thou Almighty King" and the president gave the Scripture reading. Mrs. Ernest Long gave a very good program with Evelyn Long, Mary Ines Chappell and Mrs. Julian Long taking parts. During the social hour the hostess served a salad plate. The February meeting will be held with Mrs. Ernest Long.

State Firms Buy Government Cotton

A total of 31 North Carolina cotton firms have bought an aggregate of 5,158 bales of 15-16ths inch flat cotton from surplus stores offered this month by the U. S. Department of Agriculture. The Tar Heel concern bid against cotton companies throughout the nation for the line which was offered by the government at the stabilization price of 23.62 cents per pound and above.

Cotton prices on most southern markets have been consistently above 25 cents a pound (for 15-16ths staple) for sometime and many observers predict that if parity floors continue to rise, domestic prices may rise as high as 28 cents per pound, a condition which State College Extension Service specialists have warned may break the back of southern cotton markets and open the door for up-and-coming domestic synthetics and foreign products.

State firms which bought cotton and the number of bales bought by each are:

Austin-Ogburn Cotton Company, Smithfield, 331; J. A. Baker and Company, Charlotte, 74; A. J. Hammill and Company, Gastonia, 250; Kincaid Cotton Company, Gastonia, 849; J. K. Long, Jr., Gastonia, 482; Proximity Manufacturing Company, Greensboro, 494; Pell Cotton Company, Charlotte, 1,246; Alexander Sprunt and Son, Inc., 1,659; O. B. Taylor, Whitakers, 18.

Exhibits Show Wide Variety Of 4-H Work

Exhibits of the varied 4-H activities by North Carolina boys and girls have been made at 4-H Achievement Day Exercises in counties throughout the state during the fall months.

Mothers and fathers have attended these annual round-up meetings along with their children and they have been given a picture of the most outstanding activities engaged in by the 4-H members.

In Chowan County, for example, the girls exhibited biscuits, cakes, pies, canned foods, dresses, aprons, needle work, and other articles, while the boys exhibited corn, peanuts, tobacco, sweet potatoes and chickens. At some achievement day exercises dairy and beef cattle, and hogs have also been exhibited.

Completed record books, giving full information as to the methods used in carrying out the 4-H activities and the cost of production, play a big part in determining the winners of the various projects.

L. R. Harrill, Club Leader at State College, says that the record books supplied by the Extension Service fill a very definite need in conducting 4-H activities and that those boys and girls who keep the records accurately and fully receive excellent training in farm accounting and management. Special features are also a part of the Achievement Day exercises. In Chowan, for example, Richard Leigh of the Edenton Senior 4-H Club won a prize for a demonstration in sharpening axes and hoes, according to Virginia Bailey, assistant home agent, who reported the event.

TWO MASSES EVERY SUNDAY
EDENTON CATHOLIC CHURCH
 At 9 and 11 a. m., starts the most holy sacrifice of the mass, including sermon, Holy Communion, concluding in 45 minutes, followed at once by Sunday School, in St. Ann's Catholic church, stated Father F. J. McCourt, pastor, who invites everybody to all services. Confessions begin half hour, end five minutes before each service. Week mornings: One mass and Rosary.

Cooked A Fine Dinner Then Threw It To Dog

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of bloot, had headaches, felt worn out and was badly constipated. Finally she got INNER-AID and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all Drug Stores here in Perquimans County. adv.
