SELF REGULATION

How It's Accomplished

The chief function of the North Carolina Committee of the United States Brewers Foundation is to see to it that beer is sold in strict accord with public sentiment and with the high standards of the brewing industry.

Trained field men employed by the Committee tour the state constantly, observe actual retail outlet operations, report their findings. Where necessary, the Committee makes suggestions for improvement. As most beer retailers believe it sound business policy to operate properly, such suggestions are usually accepted readily. However, if cooperation is not forthcoming, the proper authorities are notified.

Thus strict supervision of beer retailing and close cooperation with law-enforcement authorities assure the maintenance of wholesome conditions wherever beer is sold.

"I warned you about using too much BRIMM on your truck crops!"

BRIMM

SWIFT'S PLUS-VALUE
PLANT FOOD

Maybe you won't exactly need a steam shovel to dig your carrots when you use BRIMM. But BRIMM will enable you to produce superior truck crops.

BRIMM, you see, is a specialized plant food, made of high-quality ingredients. It's specially formulated and cured to provide truck crops with the plant food elements they need for higher yields. It builds healthier plants that yield better and pay better.

BRIMM supplies essential extra elements. BRIMM is called the plus-value plant food because that's exactly what it is. Besides containing...

ing the basic nutrients—nitrogen, phosphorus and potash—it has been enriched with the extra growth elements that crops need in order to yield their highest. These vital ingredients have been thoroughly cured, scientifically controlled, to assure uniformity, free-flowing qualities, ease of handling. Use BRIMM on all truck crops—give your crop an extra boost.

Now is the time to order BRIMM from your local Authorized Swift Agent.
