

### Youth Fellowship Holds First Meeting

The Chowan-Perquimans Sub-District of the Methodist Youth Fellowship held its first meeting last Friday night at the Evans Methodist Church in Chowan County. In spite of unfavorable weather 25 young people and 9 interested adults were present. An interesting program was given including a challenging address by the Rev. H. Freo Surratt of Edenton and a short play presented by the Evans group. Words of welcome were given by Miss Louise Wilson, leader of the Evans group, who presided. The young people voted to meet once each two months. An invitation was given by Miss Josephine Hunter, president of the Anderson Youth Fellowship, for the sub-district to meet with the Anderson group for the next meeting, June 7. A nominating committee was selected to consider and propose officers for the sub-district at its next regular meeting.

### Sentinels of Health

Don't Neglect Them!  
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.  
Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.  
The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use **Doan's Pills**. They have had more than forty years of public approval. Are endorsed by the country's best. Insist on **Doan's**. Sold at all drug stores.

### Grand Jury Report

(Continued From Page 3)  
Winslow Grove (Colored)

This school building is in terrible condition. To begin with, it has a flue that is very hazardous from the standpoint of fire. The Grand Jury recommends that a new flue running from the ground up be installed immediately. The floor to the building is in very bad shape and needs repairing. Also there are not enough seats to go around. Additional seats should be provided to take care of this need.

**Summary**  
We again say that those charged with the care and maintenance of our county buildings and grounds have been lazy in their duty and we strongly recommend that these buildings be put in first class condition and maintained in such condition. We believe it to be the interest of the taxpayers of our county to maintain our property in good repair at all times. We recommend this report be carried in our county paper in order that the taxpayers as a whole may know the condition of Perquimans County Buildings.

Respectfully submitted,  
S. T. PERRY,  
Foreman of Grand Jury.

### Farm Labor Report Favorable To Crops

Probable harvest conditions, labor prospects and likely wage scales in 11 North Carolina commercial fruit and vegetable areas have been released by Fred Sloan and John W. Crawford, program leaders of the State College Extension Service, at the outset of the spring-summer harvest season.

The harvest of 2,000 truck crops, including lettuce, radishes and snap beans, is already under way in the Castle Hayne section of New Hanover County where wages for labor range from 30 to 50 cents per hour with piece rate pay prevailing in most crops. At least 50 per cent of the 100 migratory workers needed in this area before the harvest season ends in late June are already on the job.

The survey, made by county agents of the Extension Service, indicates that the 15,000-acre Sandhills peach territory is the only harvest area in the State where no auxiliary labor is yet in sight. Producers in that section need 550 migratory workers between June 24 and August 10. Pay is expected to be 11 cents per short bushel picked. At least one school house will be available for migrant housing.

About 90 per cent of the necessary workers in the 6,800-acre Aurora Irish potato area already are in line. Their pay will probably be 8 cents per bushel behind the digger. Quarters for migrant workers were described as in "good to fair" condition. Approximately 95 per cent of the workers needed in the Morehead City truck area now are signed for the May 15-June 15 harvest on 4,415 acres. Housing in labor camps and other facilities is adequate for 500 workers. Pay in this as well as other areas will be scaled according to whether labor crew leaders supply transportation workers, whether workers themselves haul crops away from the fields, and other factors affecting production costs.

Seven hundred laborers are needed in the Hendersonville truck area between June 25 and October 1.
