

Today's Home Builds Tomorrow's World

Today's Home Builds Tomorrow's World! That is the theme for National Home Demonstration Week, May 5th to 12th. It will be used by Rural Women throughout the U. S., Alaska, Hawaii, and Puerto Rico to focus attention in the contribution of the home and family toward progress and world peace.

Home Demonstration work is an educational program carried into rural homes and communities by approximately 3,000 Home Demonstration agents, joint employees of the State Land-grant, colleges and the U. S. Department of Agriculture.

From tomato canning in a few southern communities in 1913, the scope of Home Demonstration work has been expanded—at the request of rural women—to embrace every phase of rural family life. In addition to food and nutrition, clothing, household management and home furnishing, and handicrafts and recreation, rural families are asking Home Demonstration agents for help with the solution of problems in such fields as health and medical care, housing, farm and home financial planning, work simplification in the home, consumer education, child care and parent education, community welfare, and citizenship responsibilities.

Below are some of the objectives of our extension program:

1. To build a rural citizenry, proud of its occupation, independent in its thinking, constructive in its outlook, capable, efficient, self-reliant, with a love of home and country in its heart.
2. To place opportunity before rural people whereby they may develop all their native talents through work, recreation, social life, and leadership.
3. To promote the social, the cultural, the recreational, the intellectual, and the spiritual life of rural people.
4. To train youth to take his place as a member of the family, community, and society.
5. To help the members of the farm family to a larger appreciation of the opportunities, the beauties, and the privileges of country life and to know something about the world in which they live.
6. Encourage the farmer to grow his own food, set a good table, and live well.
7. To bring the farmer the knowledge and help that will enable him to farm still more efficiently and to increase his income.

Survey Shows Rural Homes Better For Rearing Of Children

The rural home provides a better atmosphere for the rearing of children than does the city home, a recent survey shows. This was revealed in a personal statement made by Dr. T. T. Swearingen, director of adult work and family life of the International Council of Religious Education and secretary of an interfaith committee planning the observance of National Family Week, May 5-12, throughout the United States and Canada.

"Extensive study by experts in sociology indicates that there are important differences between rural and urban homes. These include better training, happier home life, and less smoking and drinking among rural girls," he declared.

Pointing out that men, women and children need the strength and emotional support which comes from good homes, Dr. Swearingen maintained that "in family life which draws upon the values of true religion is to be found the only enduring basis for a better world."

"The home is the primary unit of life," he stated. "It becomes the primary unit in a constructive society only as religious values become the heart of family relations and the basis of individual attitudes and conduct. Churches are built on sound family life, and the family is never truly sound without the spiritual resources of the religion which the churches teach."

In National Family Week the three major faiths seek to strengthen the spiritual foundations of the home, Dr. Swearingen averred. Churches and synagogues will feature the significance of religion in the family through sermons, worship, classes and special programs.

Farmers' Income Higher In 1945

Money that North Carolina farmers received from sale of their 1945 products totaled \$637,848,000, the Federal-State Crop Reporting Service in the State Agriculture Department finds. This is an increase of five per cent over the \$609,312,000 received during 1944.

Receipts from the sale of livestock and livestock products returned to farmers \$99,884,000 or almost the same as in 1944. The increase in total receipts to Tar Heel farmers was brought about by the advance in crop sales, which last year brought in \$537,964,000 compared to \$509,565,000 the previous year.

Of the total crop sales in North Carolina, tobacco alone returned \$378,897,000—74 per cent of the value of crops sold or 59 per cent of the farm income from marketings of all kinds. While the cash income from tobacco increased by \$61,000,000 last year, the receipts from cotton and cottonseed sales decreased \$32,427,000 to a total of \$51,695,000.

Peanuts are the State's third most important cash crop with \$23,256,000 being received from this crop last year. Truck crops and Irish potatoes are next in importance.

According to Russell P. Handy, agriculture statistician with the department, total cash receipts from farm marketings in the United States during 1945 total \$20,709,989,000, which was only two per cent more than in 1944.

"North Carolina continues to rank third in the nation in farm income from crop sales," said Handy. It is exceeded only by California and Texas. For total farm income, however, North Carolina ranks 13th.

LEGAL NOTICE

In The Superior Court of Perquimans County, North Carolina, Catherine J. Ward, et als, petitioners S. P. Jessup, et als, respondents

NOTICE OF RESALE
Under and by virtue of the authority conferred upon the undersigned Commissioners of the Court, by an Order of Resale entered in the Superior Court of Perquimans County, N. C., in that special proceeding entitled, "CATHERINE J. WARD, ET ALS, PETITIONERS, VS. S. P. JESSUP, ET ALS, RESPONDENTS", said Commissioners will on Friday, May 17th, 1946 at 12 o'clock noon before the Courthouse door in Hertford, N. C., offer for sale to the highest bidder for cash the following described tract of land:

A Message To The VOTERS

— Of The —
First Congressional District
JUST PLAIN FACTS

On May 25th approximately forty thousand voters will go to the polls to cast their ballots for a candidate to represent them in the halls of Congress. We, the voters, must consider the citizenship of our respective counties, which exceeds two hundred thousand. The question arises, shall we send a representative of the people or A MACHINE PICKED CANDIDATE, who is already over-burdened with political obligations.

ROBERT LEE HUMBER, the people's candidate, is a man that can bring honor not only to his District, but to the State and Nation. He is recognized statewide, nationally and internationally as one of the foremost leaders of efficiency in governmental affairs. He has the knowledge to induce leaders to respect his judgment and support his ideas with confidence—be it farming or what not. Few Districts, or even states, rarely have the opportunity that we have today, to send such a representative to Congress.

Don't Let Selfish Political Rings Tell You How To Vote
Get The Facts... Decide... Then Vote For

Robert Lee Humber!

Over \$8,000,000 Is Loaned To Veterans

Loans totalling more than \$8,000,000 have been obtained by North Carolina veterans of World War II under the Servicemen's Readjustment Act of 1944, according to Charles H. Ball, loan guarantee officer of the Veterans Administration Regional office in Winston-Salem.

The total amount of indebtedness involved in 2,039 loans approved up to last Saturday, Ball said, was \$8,137,650, with the government's guaranty aggregating \$3,701,342.

Applications for loans to date numbered 2,143, with ninety-one withdrawn, ninety disapproved by the VA and 193 pending.

Homes were the objectives of the vast majority of veterans taking advantage of the loan-guarantee provisions of the bill, Ball's report showed.

SOIL CONSERVATION NOTES
Usually the edges of fields bordering woodland are unproductive due to root competition from trees. A strip of shrub lespedeza or parallel strips of shrub and sericea lespedeza along this border will keep bushes and briars from growing next to the crops and at the same time favor the development of desirable species of wildlife. Shrub lespedeza will provide excellent food and good cover for quail.

The following Perquimans County farmers are seeding some wildlife borders this spring: L. A. Smith, W. Herbert Winslow, Floyd Matthews, A. H. Edwards, W. S. Evans, and Eugene Felton. The seed for these wildlife borders are being furnished by the Albemarle Soil Conservation District and the North Carolina Department of Conservation and Development.

Nixon Hollowell blew a ditch approximately 300 feet long with dynamite connecting his lead ditch with a Bear Swamp canal.

The Albemarle Soil Conservation District assisted Mr. Hollowell in constructing his ditch by making a profile of land through which ditch was to run and by helping him set the dynamite.

HELEN GAITHER CLASS MEETS

The March meeting of the Helen Gaither home demonstration club met at the home of Mrs. Warner L. Madre with fifteen members and two visitors present. In the absence of the president, the vice president, Mrs. J. P. Chesson, Sr., presided. Hymn, Lead On, Oh King Eternal, was sung. The Lord's Prayer repeated in unison. Roll was called with each member answering with a Bible verse. Minutes read and approved. Mrs. M. E. Lewis gave a talk on home beautification. Mrs. Milton Dail gave a reading on Poultry. Miss Maness then talked on saving the foods we grow. Two new members were added to the roll. Those present were Mesdames E. Y. Berry, J. P. Chesson, Sr., T. E. Madre, Jake Chesson, Addie Jones, Alfred Lane, W. O. Hunter, Colon Jackson, Jake L. White, M. E. Lewis, Milton Dail, John Lane, J. T. Lane. Misses Annie Parker, Frances Maness and Audrey Jackson. The hostess Mrs. W. L. Madre served delicious ice cream and
