SUNDAY SCHOOL LESSON

the same time is singing his songs in Greece.

"Five hundred years again go by and in Babylon the Jews are entering through the portal of sorrow and tears into the true heritage of faith and Confucius is giving China her moral code, Buddha is calling India to world renunciation, and in Greece Socrates is drinking the hemlock.

"Five hundred years pass and Jesus comes, gathering up into himself all the scattered rays of light into the white purity of his own Person, the Light of the World, the Light and Life of men.

"Another five hundred years wing their flight and the world is visited by Mohammed calling the people back from idolatry to faith in the unseen. 1,000 A. D. saw the Roman Church settling herself for world conquest and Hildebrand is enthroned.

"Five hundred years pass and in 1500 A. D. Luther challenges the conscience of his age and sounds the battle cry of freedom. Now we are at a crucial 500 year period again, and it seems as if we can see the unseen Hand in the very act of turning an-

other page."

The history of the Hebrew people as recorded in the Bible, teaches one fact which should not be overlooked by any people and that is the fact that as long as their nation and its people remained close to God, they progressed and prospered. When they became disobedient, they fell into trouble and disaster. It is still as true today as it was back in the olden days, that "Righteousness exalteth a nation," but sin is a reproach to any people, and, as the word of our Golden Text states, "Blessed is the nation whose God is the Lord."

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who must relentlessly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.
